Car Park: Three (3) uncovered accessible public car park bays are available. A small ramp allows access to the covered driveway where passengers can disembark their transport closer to the foyer for convenience or if it should be raining.

Foyer/Chamber: Entry to the foyer is level and easily accessible through double automatic opening doors. The Council Chamber where most Council meetings are held each month is accessible by the public by manual opening double doors.

Sanitary Facilities: Within the foyer area an accessible toilet is available with hand rails

Counter: The customer service counter is approximately 1000mm high. A sloping recess beneath the counter top extends along the entire customer service area to allow greater access to customers who use wheelchairs. EFTPOS facilities are easily accessible.

Hearing Loop: A T- coil Hearing Loop is installed in the customer service area. Please request for this service to be activated when being attended to by one of our Customer Service Officers
