GREEN TREE FROG Like all rainforest creatures, frogs are an integral part of the ecosystem - eating and being eaten by a variety of other animals. Frogs are especially vulnerable to pollution, insecticides and herbicides as they absorb moisture through their skin. Consequently, they are widely-recognised as a 'barometer' for the wellbeing of our environment.

OUTSTANDING UNIVERSAL VALUE

You are entering one of the rarest places on Earth – where two World Heritage Areas sit side-by-side.

These majestic World Heritage Areas provide outstanding universal value displaying incredible biodiversity and rarity, scenic wonders, an evolution in motion and a safe haven for threatened species. Enhance your journey with a local tour guide of visit the local National Parks and other attractions to learn more about the region.

WALKING & LEARNING

800m return (10 minutes) Grade - Easy (wheelchair accessible)

Follow Cape Tribulation Road. The Kulki – Cape Tribulation walk is well signposted at Cape Tribulation itself.

Kulki is the traditional name for this area. The short boardwalk is a very popular visitor site offering stunning views of the beach and coastal ranges where the rainforest meets the reef. The interpretive signs describe the World Heritage significance and history of the area.

Follow Cape Tribulation Rd to the Cape Tribulation Beach car park where the boardwalk starts from.

NATIONAL

PARK

MARRDJA - "RAINFOREST OR JUNGLE"

1.2km loop (45 minutes) Grade: Easy (wheelchair accessible)

The Marrdja Boardwalk is on Cape Tribulation Road, just north of Noah Creek.

You can spend from half an hour to half a day here. Every stage in the evolution of land plants for the last 400 million years is represented in a very small area at Marrdja.

The path loops through rainforest and mangroves and out to a viewing platform over Noah Creek.

The information signs along the botanical walk explain the evolution of land plants from the sea to the emergence of flowering plants, the break-up of Gondwanan rainforests and the arrival of humans.

JINDALBA - "FOOT OF THE MOUNTAIN"

650m loop (30 minutes) Grade: Easy

Tribulation Road, midway between the ferns and fig trees. Cape Kimberley and Cow Bay Roads.

Turn off into Tulip Oak Road and follow it to the end. There are toilets and picnic shelters here, and both a short loop and a long loop walk. Jindalba is the traditional Kuku Yalanji people's name for this area. This 700m rainforest boardwalk circuit winds up the hill and ground. It offers some elevated views of not feed it.

The Jindalba Boardwalk is on Cape this lowland rainforest, including king

The information signs explain the complexities of rainforest structure and ecological processes - how different species have evolved to survive in the rainforest environment.

This is a "Cassowary hot spot". If you see a Cassowary while you are here, do sometimes reaches four metres off the not approach closer than 10m and do

DUBUJI – "PLACE OF SPIRITS"

Short Walk (20 minutes) Grade: Easy (wheelchair accessible)

The Dubuji Boardwalk is on Cape Tribulation Road and abuts Myall Beach. The carpark is signposted, just south of the Kulki/Cape Tribulation turn-off.

The track begins at the carpark and meanders through the vine forest, mangroves, sedge swamps and fan palms of this special forest.

Spring-fed creeks flow through the area, which supports a wide diversity of plant and animal life. There are many viewing areas along the path, allowing you to stop, read the information signs and take in the surrounding beauty at this popular destination.
