## DA Form 1 – Development application details

Approved form (version 1.2 effective 7 February 2020) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving only building work.

For a development application involving **building work only**, use *DA Form 2 – Building work details*.

For a development application involving **building work associated with any other type of assessable development** (i.e. material change of use, operational work or reconfiguring a lot), use this form (*DA Form 1*) and parts 4 to 6 of *DA Form 2 – Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

**Note:** All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).

## DA Form 2 – Building work details

Approved form (version 1.2 effective 7 February 2020) made under Section 282 of the Planning Act 2016.

This form must be used to make a development application involving building work.

For a development application involving **building work only**, use this form (*DA Form 2*) only. The DA Forms Guide provides advice about how to complete this form.

For a development application involving **building work associated and any other type of assessable development** (i.e. material change of use, operational work or reconfiguring a lot), use *DA Form 1 – Development application details* **and** parts 4 to 6 of this form (*DA Form 2*).

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

**Note:** All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).

# CONCURRENCE AGENCY REFERRAL - AMENITY AND AESTHETICS DOUGLAS SHIRE PLANNING SCHEME 2018 LOT 14 IDRIESS CLOSE, DEGARRA, QLD 4895

#### **Background**

The applicant has engaged the services of Emergent Building Approvals to lodge an application for an Amenity and Aesthetics assessment under the Planning Scheme to Douglas Shire Council on their behalf. The proposal includes a new domestic shed. The development is subject to the hillslopes code. Due to the development being carried out on an existing cleared building pad, an exemption request has been applied for building works assessable against the planning scheme – hillslopes code and this application is strictly a referral assessment for amenity and aesthetics.

Due to the non-compliance/s nominated above the applicant hereby requests Council as the nominated Concurrence Agency under the Planning Regulation 2017, Schedule 9, Division 2 Table 3 to conduct an assessment against the relevant performance criteria of the Hillslope Code in accordance with Section 30 of the Building Act 1975.

#### **PO1**

The landscape character and visual amenity quality of hillslopes areas is retained to protect the scenic backdrop to the region.

The external colours of the Dwelling are as follows:

External Walls – Pale Eucalypt
Roof – Pale Eucalypt
Fascia/gutters – Pale Eucalypt

The dwelling will not be visible from surrounding allotments due to the dense vegetation and the colours are non-reflective to protect the scenic backdrop of the region.

#### **Summary**

The above report clearly shows the proposal is compatible with the outcomes sought for all relevant codes. It is therefore considered be an acceptable that the Local Government approve the proposal as it is suitably designed to complement the area and satisfy the acceptable measure of the relevant codes.
