IDAS form 1-Application details

(Sustainable Planning Act 2009 version 4.1 effective 4 July 2014)

This form must be used for ALL development applications.

You MUST complete ALL questions that are stated to be a mandatory requirement unless otherwise identified on this form.

For all development applications, you must:

- complete this form (IDAS form 1—Application details)
- complete any other forms relevant to your application
- provide any mandatory supporting information identified on the forms as being required to accompany your application.

Attach extra pages if there is insufficient space on this form.

All terms used on this form have the meaning given in the *Sustainable Planning Act 2009* (SPA) or the Sustainable Planning Regulation 2009.

This form and any other IDAS form relevant to your application must be used for development applications relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994* and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008.* Whenever a planning scheme is mentioned, take it to mean land use plan for the strategic port land, Brisbane core port land or airport land.

PLEASE NOTE: This form is not required to accompany requests for compliance assessment.

This form can also be completed online using MyDAS at www.dsdip.qld.gov.au/MyDAS

Mandatory requirements

Applicant details (Note: the applicant is the person responsible for making the application and need not be the owner of the land. The applicant is responsible for ensuring the information provided on all IDAS application forms is correct. Any development permit or preliminary approval that may be issued as a consequence of this application will be issued to the applicant.)

14. Applicant's declaration

By making this application, I declare that all information in this application is true and correct (Note: it is unlawful to provide false or misleading information)

Notes for completing this form

Section 261 of the Sustainable Planning Act 2009 prescribes when an application is a properly-made application.
Note, the assessment manager has discretion to accept an application as properly made despite any non-compliance with the requirement to provide mandatory supporting information under section 260(1)(c) of the Sustainable Planning Act 2009

Applicant details

Where the applicant is not a natural person, ensure the applicant entity is a real legal entity.

Question 1

 Schedule 3 of the Sustainable Planning Regulation 2009 identifies assessable development and the type of assessment. Where schedule 3 identifies assessable development as "various aspects of development" the applicant must identify each aspect of the development on Tables A, B and C respectively and as required.

Question 6

• Section 263 of the Sustainable Planning Act 2009 sets out when the consent of the owner of the land is required for an application. Section 260(1)(e) of the Sustainable Planning Act 2009 provides that if the owner's consent is required under section 263, then an application must contain, or be accompanied by, the written consent of the owner, or include a declaration by the applicant that the owner has given written consent to the making of the application. If a development application relates to a state resource, the application is not required to be supported by evidence of an allocation or entitlement to a state resource. However, where the state is the owner of the subject land, the written consent of the state, as landowner, may be required. Allocation or entitlement to the state resource is a separate process and will need to be obtained before development commences.

Question 7

 If the premises is listed on either the Contaminated Land Register (CLR) or the Environmental Management Register (EMR) under the Environmental Protection Act 1994 it may be necessary to seek compliance assessment. Schedule 18 of the Sustainable Planning Regulation 2009 identifies where compliance assessment is required.

Question 11

- The Building and Construction Industry (Portable Long Service Leave) Act 1991 prescribes when the portable long service leave levy is payable.
- The portable long service leave levy amount and other prescribed percentages and rates for calculating the levy are prescribed in the Building and Construction Industry (Portable Long Service Leave) Regulation 2002.

Question 12

- The portable long service leave levy need not be paid when the application is made, but the Building and
 Construction Industry (Portable Long Service Leave) Act 1991 requires the levy to be paid before a development
 permit is issued.
- Building and construction industry notification and payment forms are available from any Queensland post office or agency, on request from QLeave, or can be completed on the QLeave website at www.qleave.qld.gov.au. For further information contact QLeave on 1800 803 481 or visit www.qleave.qld.gov.au.

Privacy—The information collected in this form will be used by the Department of State Development, Infrastructure and Planning (DSDIP), assessment manager, referral agency and/or building certifier in accordance with the processing and assessment of your application. Your personal details should not be disclosed for a purpose outside of the IDAS process or the provisions about public access to planning and development information in the Sustainable Planning Act 2009, except where required by legislation (including the Right to Information Act 2009) or as required by Parliament. This information may be stored in relevant databases. The information collected will be retained as required by the Public Records Act 2002.

IDAS form 5—Material change of use assessable against a planning scheme

(Sustainable Planning Act 2009 version 3.0 effective 1 July 2013)

This form must be used for development applications for a material change of use assessable against a planning scheme.

You MUST complete ALL questions that are stated to be a mandatory requirement unless otherwise identified on this form.

For all development applications, you must:

- complete IDAS form 1—Application details
- complete any other forms relevant to your application
- provide any mandatory supporting information identified on the forms as being required to accompany your application.

Attach extra pages if there is insufficient space on this form.

All terms used on this form have the meaning given in the Sustainable Planning Act 2009 (SPA) or the Sustainable Planning Regulation 2009.

This form must also be used for material change of use on strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994* and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008* that requires assessment against the land use plan for that land. Whenever a planning scheme is mentioned, take it to mean land use plan for the strategic port land, Brisbane core port land or airport land.

Mandatory requirements						
1. Describe the proposed use. (Note: this is to provide additional detail to the information provided in question 1 of IDAS form 1—Application details. Attach a separate schedule if there is insufficient space in this table.)

A statement addressing the relevant part(s) of the State Development Assessment Provisions (SDAP).	Confirmed Not applicable						
When the application involves the reuse of existing buildings							
Plans showing the size, location, existing floor area, existing site cover, existing maximum number of storeys and existing maximum height above natural ground level of the buildings to be reused.	Confirmed Not applicable						
When the application involves new building work (including extensions)							
Floor plans drawn to an appropriate scale (1:50, 1:100 or 1:200 are recommended scales) which show the following:	Confirmed						
 the north point the intended use of each area on the floor plan (for commercial, industrial or mixed use developments only) the room layout (for residential development only) with all rooms clearly labelled the existing and the proposed built form (for extensions only) the gross floor area of each proposed floor area. 							
Elevations drawn to an appropriate scale (1:100, 1:200 or 1:500 are recommended scales) which show plans of all building elevations and facades, clearly labelled to identify orientation (e.g. north elevation)	Confirmed						
Plans showing the size, location, proposed site cover, proposed maximum number of storeys, and proposed maximum height above natural ground level of the proposed new building work.	Confirmed Not applicable						
When the application involves reuse of other existing work							
Plans showing the nature, location, number of on-site car parking bays, existing area of landscaping, existing type of vehicular cross-over (non-residential uses), and existing type of vehicular servicing arrangement (non-residential uses) of the work to be reused.	Confirmed Not applicable						
When the application involves new operational work							
Plans showing the nature, location, number of new on-site car parking bays, proposed area of new landscaping, proposed type of new vehicle cross-over (non-residential uses), proposed maximum new vehicular servicing arrangement (non-residential uses) of the proposed new operational work.

IDAS form 6—Building or operational work assessable against a planning scheme

(Sustainable Planning Act 2009 version 3.1 effective 3 August 2015)

This form must be used for development applications for building work or operational work assessable against a planning scheme.

You MUST complete ALL questions that are stated to be a mandatory requirement unless otherwise identified on this form.

For all development applications, you must:

- complete IDAS form 1—Application details
- complete any other forms relevant to your application
- provide any mandatory supporting information identified on the forms as being required to accompany your application.

Attach extra pages if there is insufficient space on this form.

All terms used on this form have the meaning given in the Sustainable Planning Act 2009 (SPA) or the Sustainable Planning Regulation 2009.

This form must be used for building work or operational work relating on strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994* and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008* that requires assessment against the land use plan for that land. Whenever a planning scheme is mentioned, take it to mean land use plan for the strategic port land, Brisbane core port land or airport land.

Mandatory requirements							
1. What is the nature of the work that requires assessment against a planning scheme? (Tick all applicable boxes.)							
Building work—complete Table A	Building work—complete Table A						
Table A	/v#************************************						
 a) What is the nature of the building work (e building)? 	g. building, repairing, altering, u	nderpinning, moving or demolishing a					
New Brelling							
b) Are there any current approvals associate	ed with this application? (e.g. ma	terial change of use.)					
No Yes— provide details below							
List of approval reference/s	Date approved (dd/mm/yy)	Date approval lapses (dd/mm/yy)					

Table B							
a) What is the nature of the operational work? (Tick all applicable boxes.)							
	Road works	Sto	rmwater		Water infrast	ructure	
	☐ Drainage works ☐ Earthworks ☐ Sewerage infrastructure						
	Landscaping Signage Clearing vegetation under the planning scheme						lanning scheme
	Other—provide details						
b)) Is the operational work necess	sary to facili	tate the cre	eation of	new lots? (E.	g. subdivision.)	
	No Yes—specify	the number	of lots beir	ng create	ed		
c)	Are there any current approva	ls associate	d with this	applicat	ion? (E.g. ma	terial change of us	se.)
	No Yes—provide	details belo	w				
	List of approval reference/s		Date ap	proved ((dd/mm/yy)	Date approval la	apses (dd/mm/yy)
2.	2. What is the dollar value of the proposed building work? (Inc GST, materials and labour.) \$34.5, 400.00

	A statement about how the proposed development addresses the local government's planning schemes and any other planning documents relevant to the application.	Confirmed	
A statement addressing the relevant part(s) of the State Development Assessment Provisions (SDAP).		Confirmed Not applicable	
1	Applications for building work (including extensions and demolition that	is assessable devel	opment)
	Floor plans drawn to an appropriate scale (1:50, 1:100 or 1:200 are recommended scales) which show the following:	Confirmed Not applicable	
	the north point		
3	 the intended use of each area on the floor plan (for commercial, industrial or mixed use developments only) 		
33	the room layout (for residential development only) with all rooms clearly labelled		
	the existing and the proposed built form (for extensions only) the gross floor area of each proposed floor area.		
	Elevations drawn to an appropriate scale (1:100, 1:200 or 1:500 are	Confirmed	
	ecommended scales) which show plans of all building elevations and acades, clearly labelled to identify orientation (e.g. north elevation).	Not applicable	
	Plans showing the size, location, proposed site cover, proposed maximum number of storeys, and proposed maximum height above natural ground level	Confirmed	
	of the proposed new building work.	Not applicable	
F	Plans showing the extent of any demolition that is assessable development.	Confirmed	
		☐ Not applicable	
F	Applications for operational work involving earthworks (filling and excava	ting)	
	Orawings showing:	Confirmed	
•	existing and proposed contours		
0	areas to be cut and filled the location and level of any permanent survey marks or reference		
	stations used as datum for the works		
•	the location of any proposed retaining walls on the relevant land and their		
•	height the defined flood level (if applicable)		
•	the fill level (if applicable).		
Α	pplications for operational work involving roadworks		
С	rawings showing:	Confirmed	
•	existing and proposed contours	Not applicable	
•	the centreline or construction line showing chainages, bearings, offsets if the construction line is not the centreline of the road and all intersection		
•	points information for each curve including tangent point chainages and offsets, curve radii, arc length, tangent length, superelevation (if applicable) and curve widening (if applicable)		
•	kerb lines including kerb radii (where not parallel to centreline) and tangent point changes (where not parallel to centreline)		
•	edge of pavement where kerb is not constructed		
	position and extent of channelisation location and details of all traffic signs, guideposts, guardrail and other		
-	street furniture		
•	pavement markings including details on raised pavement markers		

	The state of the s	T	
•	catchpit, manhole and pipeline locations		
	drainage details (if applicable)		
•	cross road drainage culverts (if applicable)		
	concrete footpaths and cycle paths		
	location and details for access points, ramps and invert crossings		
•	changes in surfacing material.		
Α	pplications for operational work involving stormwater drainage		
D	rawings showing:	Confirmed	
	existing and proposed contours	Not applicable	
•	drainage locations, diameters and class of pipe, open drains and easements		
•	manhole location, chainage and offset or coordinates and inlet and outlet invert levels		
•	inlet pit locations, chainage and offset or coordinates and invert and kerb levels.		
A	pplications for operational work involving water reticulation	J.	
D	rawings showing:	Confirmed	
•	kerb lines or edge of pavement where kerb is not constructed	Not applicable	
	location and levels of other utility services where affected by water reticulation works		
•	pipe diameter, type of pipe and pipe alignment		
•	water main alignments		
•	water supply pump station details (if applicable)		
•	minor reservoir details (if applicable)		
•	conduits		
•	location of valves and fire hydrants		,
•	location of house connections (if applicable)		
•	location of bench marks and reference pegs.		
A	oplications for operational work involving sewerage reticulation		
Dr	awings showing:	Confirmed	
•	location of all existing and proposed services	Not applicable	
•	location of all existing and proposed sewer lines and manhole locations		
•	location of all house connection branches		
•	kerb lines or edge of pavement where kerb is not constructed		
•	chainages		
•	design sewer invert levels		
•	design top of manhole levels		
•	type of manhole and manhole cover		
•	pipe diameter, type of pipe and pipe alignment		
•	location of house connections (if applicable) sewer pump station details (if applicable).		
•		W-A	
	plications for operational work involving street lighting		
Dra	awings showing:	Confirmed	
	location of all light poles and service conduits location of all other cross road conduits	Not applicable	
•	type of wattage and lighting		
	any traffic calming devices		
	and traffic califing devices additional plans for roundabouts and major roads (if applicable)		
•	details of any variations to normal alignment		

details of lighting levels.						
Applications for operational work involving public utility services						
Drawings showing: any existing light poles and power poles any existing underground services details of proposed services alteration to existing services. 	Confirmed Not applicable					
Applications for operational work involving landscaping works						
 brawings showing: the location of proposed plant species a plant schedule indicating common and botanical names, pot sizes and numbers of plants planting bed preparation details including topsoil depth, subgrade preparation, mulch type and depth, type of turf, pebble, paving and garden edge the location and type of any existing trees to be retained construction details of planter boxes, retaining walls and fences the proposed maintenance period irrigation system details. 	Confirmed Not applicable
