Attention: Development Assessment

Dear Sir,

**Re: Application for Building Work Made Assessable Development under the Planning Scheme
Lot 3 RP742930 [no. 57] Murphy Street, Port Douglas**

GMA Certification Group has been engaged to assess an application for the construction of a viewing deck to an existing dwelling on the abovementioned allotment.

The viewing deck does not comply with the height provisions under the low-medium density residential zone code. However, the proposal can be shown to be consistent with the Performance Requirements of the Code.

The proposed encroachment includes:

- The observation deck is to have a maximum height of 9.5m [open balustrade to be a further 1m higher].

Accordingly, please find the application for Building Work Made Assessable Development under the Planning Scheme, which includes:

1. DA Form 1;
2. Assessment; &
3. Plans

Assessment – Low-Medium Density Residential Zone

The following table represents an assessment of the proposal with respect to PO1 of the low-medium density residential zone code.

Low-Medium Density Residential Zone Code		
Performance Requirement	Proposal	Conclusion
PO1 The height of all buildings and structures must be in keeping with the residential character of the area.	Buildings in the immediate vicinity exceed 8.5m in height as they were constructed under a previous Planning Scheme. The observation deck does not add an additional storey and maintains the residential character of the area.	Proposal complies with the Performance Requirements.

As demonstrated from the above assessment, the construction of the proposed viewing deck as illustrated on the attached plans will satisfy the Performance Requirement PO1 of the low-medium density residential zone code.

Should you require any further information or wish to discuss the application, please contact me on 4098 5150 or by email adminpd@gmacer.com.au
