- 1.) I have had several sewerage blockages over the years - 1 this year. Tree No 2?
- 2.) I have had the toilet bowl in my bathroom pushed up off the floor by a root growing under the sewerage pipe. Tree No 2?
- 3.) In September every year, I have large numbers of Torres Strait Pigeons arrive and roost overnight in all of my 14 Melaleucas. They spend all day around town eating Palm seeds before coming back to my trees overnight. When the droppings from the birds in trees ① and ② land on my roof, you would think that they were passing ball bearings - and this goes on until the end of March.
- 4.) Then there is the health aspect of all of the birds droppings piling up on the roof and on the ground around the trees - it's like a cess pit until the wet season arrives.

Trees No 1 & 2

- 5.) Tree No 3 in the middle of the property is on a 25 degree lean and a trunk which was part of this tree broke away from the base of it and fell onto the roof of the 2 storey house at No. 45.
- 6.) Should tree No. 3 ever fall in the direction that it is leaning, there are big, heavy branches that would land on my bedroom or my office or both.
- 7.) Tree No. 2 needs to be removed as I have a need to install an AUSCO Ablution block there.
- 8.) Due to the shade that my trees produce, I have been advised many times that Solar panels are impractical. Maybe with the removal of 3 trees that will change and I will get some relief from my \$1200+ electricity bill.
- 9.) I'm sure Sean Cooper in the D.S.C. yard behind me would be happy not to see so many leaves or fallen branches in his yard.
- 10.) Last but not least, the poor people at the factory next door (Port Douglas Automotive). For years, they have put up with millions of my leaves on their roof, blocking gutters, down pipes, drains etc causing internal water damage. They are excited about 3 of my trees going.

P.S. After the removal of these 3 trees, I will still have 11 beautiful Metaleucas left that I illuminate at night time with many floodlights.
