DA Form 1 – Development application details

Approved form (version 1.0 effective 3 July 2017) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving building work.

For a development application involving **building work only**, use *DA Form 2 – Building work details*.

For a development application involving **building work associated with any other type of assessable development**, use this form (*DA Form 1*) **and** parts 4 to 6 of *DA Form 2* – *Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).

PART 1 – APPLICANT DETAILS

1) Applicant details	
Applicant name(s) (individual or company full name)	Steven Bowtell (Property Owner)
Contact name (only applicable for companies)	
Postal address (P.O. Box or street address)	23 Dilkera Street
Suburb	Balmoral
State	Qld
Postcode	4171
Country	Australia
Contact number	0417 614 041
Email address (non-mandatory)	bowts@bigpond.net.au
Mobile number (non-mandatory)	
Fax number (non-mandatory)	
Applicant's reference number(s) (if applicable)	

2) Owner's consent
2.1) Is written consent of the owner required for this development application?
 ☐ Yes – the written consent of the owner(s) is attached to this development application ☐ No – proceed to 3)

PART 2 - LOCATION DETAILS

Note: P						3) as applicable) premises part of the developmer	nt application. For further information, see <u>DA Forms</u>

CLR site identification:	
5) Are there any existing easements over the premises? Note: Easement uses vary throughout Queensland and are to be identified correctly and accurate they may affect the proposed development, see <u>DA Forms Guide</u> .	ely. For further information on easements and how
☐ Yes – All easement locations, types and dimensions are included in plans application	submitted with this development
⊠ No	

PART 3 - DEVELOPMENT DETAILS

Section 1 – Aspects of development

6.1) Provide details about the first	t development aspect						
a) What is the type of developme	nt? (tick only one box)						
☐ Material change of use	laterial change of use						
b) What is the approval type? (tick only one box)							
□ Development permit	☐ Preliminary approval	☐ Preliminary approval that a variation approval	includes				
c) What is the level of assessmen	nt?						
□ Code assessment	☐ Impact assessment (requi	res public notification)					
d) Provide a brief description of the lots):	ne proposal (e.g. 6 unit apartment b	uilding defined as multi-unit dwelling, re	econfiguration of 1 lot into 3				
Removal of two large Melaleuca See supporting submission accor			ont property boundary.				
e) Relevant plans Note: Relevant plans are required to be s Relevant plans.	ubmitted for all aspects of this develop	oment application. For further informatio	on, see <u>DA Forms guide:</u>				
Relevant plans of the propose	d development are attached to	the development application					
6.2) Provide details about the sec	·						
a) What is the type of developme	nt? (tick only one box)	_	_				
☐ Material change of use	Reconfiguring a lot	Operational work	☐ Building work				
b) What is the approval type? (tick	conly one box)						
Development permit	☐ Preliminary approval	☐ Preliminary approval that approval	includes a variation				
c) What is the level of assessmen	nt?						
☐ Code assessment	☐ Impact assessment (requi	res public notification)					
d) Provide a brief description of the	ne proposal (e.g. 6 unit apartment b	uilding defined as multi-unit dwelling, re	econfiguration of 1 lot into 3 lots):				
e) Relevant plans Note: Relevant plans are required to be s Relevant plans.	ubmitted for all aspects of this develop	oment application. For further informatio	on, see <u>DA Forms Guide:</u>				
Relevant plans of the propose	d development are attached to	the development application					
6.3) Additional aspects of develop	oment						
☐ Additional aspects of developr that would be required under Part ☐ Not required		opment application and the deta been attached to this developm					

Section 2 – Further develo	pment d	letails					
7) Does the proposed develop	ment appl	lication invol	ve any of the follo	wing?			
Material change of use	☐ Yes	– complete o	division 1 if assess	sable agains	t a local	planning instru	ument
Reconfiguring a lot	☐ Yes -	– complete o	division 2				
Operational work	⊠ Yes-	– complete o	division 3				
Building work	☐ Yes	– complete	DA Form 2 – Build	ling work de	tails		
Division 1 – Material change Note : This division is only required to b planning instrument.		if any part of th	ne development applica	ation involves a	material d	hange of use asse	essable against a l
8.1) Describe the proposed ma	aterial cha	inge of use			_		
Provide a general description proposed use	of the		e planning schem h definition in a new ro			er of dwelling f applicable)	Gross floor area (m²) (if applicable)
8.2) Does the proposed use in	volve the	use of existi	ng buildings on th	e premises?			
Yes							
□ No							
Division 2 – Reconfiguring a	lot						
Note : This division is only required to b		if any part of th	ne development applica	ation involves re	econfigurir	g a lot.	
9.1) What is the total number of	of existing	lots making	up the premises?				
9.2) What is the nature of the l	ot reconfiç	guration? (tic	k all applicable boxes)				
Subdivision (complete 10))						nent (complete 1	
Boundary realignment (com	plete 12))					nt giving acces	s to a lot from
			a construction	1 road (compl	ete 13))		
10) Subdivision							
10.1) For this development, ho	ow many lo	ots are being	g created and wha	t is the inten	ided use	of those lots:	
Intended use of lots created	Reside	ential	Commercial	Industrial		Other, please	e specify:
						•	
Number of lots created							
10.2) Will the subdivision be s	taged?						
Yes – provide additional de		W					
□ No							
How many stages will the work							
What stage(s) will this develop apply to?	ment app	lication					
11) Dividing land into parts by	agreemer	nt – how ma	ny parts are be <u>ing</u>	created and	l what is	the intended u	use of the
parts?							
Intended use of parts created	Reside	ential	Commercial	Industrial		Other, please	e specify:
Number of parts created							

12) Boundary realig						
12.1) What are the	·	•	s for each lot com	prising the premises?		
	Curre				Propose	1
Lot on plan descrip	tion	Area (m ²)		Lot on plan description	on	Area (m²)
12.2) What is the re	eason for the	boundary reali	gnment?			
13) What are the di (attach schedule if there	mensions and are more than t	d nature of any wo easements)	y existing easeme	ents being changed and	/or any p	proposed easement?
Existing or	Width (m)	Length (m)	Purpose of the	easement? (e.g.	Identify	the land/lot(s)
proposed?			pedestrian access)	(1)	-	ted by the easement
Division 3 – Opera		completed if any n	art of the developmen	nt application involves operation	onal work	
14.1) What is the n				к аррисацон тічоічез орстан	Shar Work.	
☐ Road work			Stormwater	☐ Water in	nfrastruct	ure
☐ Drainage work			Earthworks	☐ Sewage		
Landscaping			Signage			
☐ Other – please	specify:					
14.2) Is the operation	onal work ned	cessary to facil	litate the creation	of new lots? (e.g. subdivis	sion)	
☐ Yes – specify nu	umber of new	lots:				
⊠ No						
14.3) What is the m	nonetary value	e of the propos	sed operational w	ork? (include GST, material	s and labo	ur)
\$

Marine activities
23.8) Does this development application involve aquaculture, works within a declared fish habitat area or removal,
disturbance or destruction of marine plants?
Yes – an associated resource allocation authority is attached to this development application, if required under the
Fisheries Act 1994
⊠ No
Note: See guidance materials at www.daf.qld.gov.au for further information.
Quarry materials from a watercourse or lake
23.9) Does this development application involve the removal of quarry materials from a watercourse or lake under the <i>Water Act 2000?</i>
☐ Yes – I acknowledge that a quarry material allocation notice must be obtained prior to commencing development ☐ No
Note: Contact the Department of Natural Resources and Mines at www.dnrm.qld.gov.au for further information.
Quarry materials from land under tidal waters
23.10) Does this development application involve the removal of quarry materials from land under tidal water under the Coastal Protection and Management Act 1995?
Yes – I acknowledge that a quarry material allocation notice must be obtained prior to commencing development
⊠ No
Note : Contact the Department of Environment and Heritage Protection at www.ehp.qld.gov.au for further information.
Referable dams
23.11) Does this development application involve a referable dam required to be failure impact assessed under section 343 of the <i>Water Supply (Safety and Reliability) Act 2008</i> (the Water Supply Act)?
☐ Yes – the 'Notice Accepting a Failure Impact Assessment' from the chief executive administering the Water Supply
Act is attached to this development application
No Note: See guidance materials at www.dews.qld.gov.au for further information.
Tidal work or development within a coastal management district
23.12) Does this development application involve tidal work or development in a coastal management district?
Yes – the following is included with this development application: Evidence the proposal meets the code for assessable development that is prescribed tidal work (only required if application involves prescribed tidal work)
☐ A certificate of title
No
Note: See guidance materials at www.ehp.qld.gov.au for further information. Queensland and local heritage places
23.13) Does this development application propose development on or adjoining a place entered in the Queensland heritage register or on a place entered in a local government's Local Heritage Register ?
Yes – details of the heritage place are provided in the table below
No
Note: See guidance materials at www.ehp.qld.gov.au for information requirements regarding development of Queensland heritage places.
Name of the heritage place: Place ID:
<u>Brothels</u>
23.14) Does this development application involve a material change of use for a brothel?
Yes – this development application demonstrates how the proposal meets the code for a development application
for a brothel under Schedule 3 of the <i>Prostitution Regulation 2014</i>

Decision under section 62 of the Transport Infrastructure Act 1994
23.15) Does this development application involve new or changed access to a state-controlled road?
☐ Yes - this application will be taken to be an application for a decision under section 62 of the <i>Transport Infrastructure Act 1994</i> (subject to the conditions in section 75 of the <i>Transport Infrastructure Act 1994</i> being satisfied) ☐ No

PART 8 – CHECKLIST AND APPLICANT DECLARATION

24) Development application checklist	
I have identified the assessment manager in question 15 and all relevant referral requirement(s) in question 17 Note: See the Planning Regulation 2017 for referral requirements	Yes
If building work is associated with the proposed development, Parts 4 to 6 of Form 2 – Building work details have been completed and attached to this development application	☐ Yes ☐ Not applicable
Supporting information addressing any applicable assessment benchmarks is with development application Note: This is a mandatory requirement and includes any relevant templates under question 23, a planning report and any technical reports required by the relevant categorising instruments (e.g. local government planning schemes, State Planning Policy, State Development Assessment Provisions). For further information, see DAForms Guide: Planning Report Template .	☐ Yes
Relevant plans of the development are attached to this development application Note: Relevant plans are required to be submitted for all aspects of this development application. For further information, see <u>DA Forms Guide</u> : Relevant plans.	Yes
The portable long service leave levy for QLeave has been paid, or will be paid before a development permit is issued (see 21))	☐ Yes ☑ Not applicable

25) Applicant declaration

By making this development application, I declare that all information in this development application is true and

☑ Where an email address is provided in Part 1 of this form, I consent to receive future electronic communications from the assessment manager and any referral agency for the development application where written information is required or permitted pursuant to sections 11 and 12 of the *Electronic Transactions Act 2001*

Note: It is unlawful to intentionally provide false or misleading information.

Privacy – Personal information collected in this form will be used by the assessment manager and/or chosen assessment manager, any relevant referral agency and/or building certifier (including any professional advisers which may be engaged by those entities) while processing, assessing and deciding the development application. All information relating to this development application may be available for inspection and purchase, and/or published on the assessment manager's and/or referral agency's website.

Personal information will not be disclosed for a purpose unrelated to the *Planning Act 2016*, Planning Regulation 2017 and the DA Rules except where:

- such disclosure is in accordance with the provisions about public access to documents contained in the Planning
 Act 2016 and the Planning Regulation 2017, and the access rules made under the Planning Act 2016 and Planning
 Regulation 2017; or
- required by other legislation (including the Right to Information Act 2009); or
- otherwise required by law.

This information may be stored in relevant databases. The information collected will be retained as required by the *Public Records Act 2002.*

PART 9 – FOR OFFICE USE ONLY

The *Planning Act 2016,* the Planning Regulation 2017 and the DA Rules are administered by the Department of Infrastructure, Local Government and Planning. This form and all other required development application materials should be sent to the assessment manager.

DATE: 30/8/2017

TO: Douglas Shire Council

FROM: Steven Bowtell (property owner)

The following submission is in support of the Development Application for the residential property at 11 Ti Tree Street, Port Douglas. The DA seeks a Development permit for operation work, specifically the removal of two large Melaleuca trees from the property.

I have owned 11 Ti Tree Street, Port Douglas ('the property') for over 10 years and whilst I've been reasonably happy with two trees in the front yard they have now grown very large and in recent years the roots have become very destructive, causing substantial damage to the concrete driveway and other concreted areas. Given their proximity to the house slab I am now concerned about possible damage my house.

I have now decided to have an in-ground swimming pool constructed in the front yard of the property. The pool will be 8m x 4m. The trunks of the two trees in question are positioned within the area of the planned pool and as such the trees will need to be removed in order to make way for the pool's construction.

Even if the planned position of the pool were to be moved slightly such that the trunks would be adjacent to the pool, the advice of have received from an arborist (from a site inspection) is that the amount of excavation required so close to the trunks would absolutely compromise the structural integrity of the trees and will create an unnecessary and avoidable risk to residents and the general public. This is not an acceptable option. The arborist is Billy Quaid from MPDT (0407 860 009). Billy is happy to field any questions council may have regarding these trees.

Even if it were possible to position the pool in the front yard far enough away from the trunks not to compromise their structure, the reality is the huge amounts of debris from these two trees (year-round) prohibits the practical coexistence of a pool anywhere in the front yard or the property.

Additionally, one of trunks slightly cuts across the front boundary which means I cannot construct a pool fence or any other fence along the front boundary of the property.

Removal of the Trees:

I understand the removal of large trees in Douglas Shire can in some cases be contentious, usually when the trees in question are of particular significance. Douglas Shire is full of large trees and not all of these are necessarily 'significant'.

Whilst the two subject trees are substantial in in size, I do not consider them to be of particular significance to the streetscape. The street and visible surrounds are densely and randomly populated with trees of the same species and size.

Given the large quantity of similar trees visible from within the street (and from properties within the street), the removal of these two trees will not have a significant visual impact on the streetscape or immediate surrounding areas visible from the street.

The trees are not a critical component of any architectural landscape design and they are not themselves noted icons as perhaps are those that line Garrick Street and Warner Street, for example.

Ti Tree Street is a no through road used almost exclusively by residents of the street. It is not a key tourist area.

Position of the planned pool.

The two trees in question essentially prohibit me from constructing a pool and realising full freedom of use of my property. If alternative locations for the pool were desirable or even feasible I would happily consider those, however they are not.

The only acceptable position of the pool is as per the site plan attached. The position was selected for the following reasons:

The pool will be a key aesthetic element to the property's layout. It will have visual prominence from inside the house and the front veranda. This cannot be achieved if the pool is located anywhere else but the front yard, directly in front of the house.

The actual position within the front yard (towards the middle of the property frontage) has been chosen for best integration with the entertaining area of the veranda but also to achieve maximum distance from the neighbouring property (for mutual privacy and noise consideration). There is also an overhead electrical Ergon cable running to the corner of the house which needs to be kept well clear from for obvious safety reasons.

The front yard location is the highest level above the water table which has been a significant issue for pool construction in Ti Tree Street. The water table is closer to the ground's surface (and therefore more problematic) as you move towards the (lower) rear property boundary. Both pool builders who quoted on the pool advised that the pool should be as far away from the rear boundary as possible to minimise likely water table problems during construction.

Whilst I have decided to proceed with the pool and have received a quote I intend to accept, I will not formally accept the quote and incur any costs associated with the pool design, construction or the required approvals until I have the Development Permit for Operation Works to have the two subject trees removed.

Compliance with planning codes where applicable:

Tourist and Residential Planning Area code: No applicability

Port Douglas and Environs Locality code: No applicability

Vegetation Management code:

Performance Criteria	Acceptable Solutions
P1	Complies
P2	Complies
P3	The two trees in questions are substantial but not necessarily of particular significance to the streetscape given the large number of similar trees in the vicinity. The removal of these two trees will not have a detrimental or even notable visual impact on the streetscape.
P4	Complies

Tourist and Residential Planning Area code: No applicability

Port Douglas and Environs Locality code: No applicability

<u>END</u>

Site plan of 11 Ti Tree Street, Port Douglas.
