DA Form 1 – Development application details

Approved form (version 1.0 effective 3 July 2017) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving building work.

For a development application involving **building work only**, use *DA Form 2 – Building work details*.

For a development application involving **building work associated with any other type of assessable development**, use this form (*DA Form 1*) **and** parts 4 to 6 of *DA Form 2 – Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).

PART 1 - APPLICANT DETAILS

1) Applicant details	
Applicant name(s) (individual or company full name)	Shane Loughnan, Stephen Hull & Brian Gleeson
Contact name (only applicable for companies)	c/- Patrick Clifton, Gilvear Planning Pty Ltd
Postal address (P.O. Box or street address)	PO Box 228
Suburb	Babinda
State	QLD
Postcode	4861
Country	Australia
Contact number	0488001581
Email address (non-mandatory)	Patrick@gilvearplanning.com.au
Mobile number (non-mandatory)	0488001581
Fax number (non-mandatory)	
Applicant's reference number(s) (if applicable)	J000650

2) Owner's consent
2.1) Is written consent of the owner required for this development application?
☐ Yes – the written consent of the owner(s) is attached to this development application
⊠ No – proceed to 3)

PART 2 - LOCATION DETAILS

Note: P					or 3.2), and 3.3 for any or all pi		t application. For further information, see <u>DA Forms</u>

Additional aspects of develop that would be required under Par								
Not required	CO COCION I OI UNO IOINI NAVO	soon attached to the develop	топ арриоскоп					

Section 2 – Further development						
7) Does the proposed develop						
Material change of use	Yes – complete division 1 if assessable against a local planning instrument					
Reconfiguring a lot		- complete d				
Operational work		- complete d				
Building work	☐ Yes -	- complete D	A Form 2 – Build	ing work det	tails	
Division 1 – Material change Note: This division is only required to be planning instrument.		if any part of the	e development applica	ation involves a	material change of use a	ssessable against a l
8.1) Describe the proposed m	aterial cha	nge of use				
Provide a general description proposed use	of the		e planning schemo definition in a new ro		Number of dwelling units (if applicable)	g Gross floor area (m²) (if applicable)
Caretaker's Residence		Caretaker's	s Residence		1	116
8.2) Does the proposed use in	nvolve the	use of existin	ng buildings on the	e premises?		
⊠Yes						
□ No						
9.1) What is the total number 9.2) What is the nature of the Subdivision (complete 10)) Boundary realignment (com	lot reconfig		all applicable boxes) Dividing land	nanging an e	v agreement (complete easement giving acc ete 13))	
40) 0 1-1: :-:				· · ·		
10) Subdivision10.1) For this development, h	ow many lo	ots are being	created and wha	t is the inten	ded use of those lot	S:
Intended use of lots created	Reside		Commercial	Industrial		se specify:
						_
Number of lots created						
10.2) Will the subdivision be s Yes – provide additional de No		V				
How many stages will the wor	ks include	?				
What stage(s) will this develo	oment appl	ication				
11) Dividing land into parts by	agreemen	t – h <u>ow man</u>	y parts are being	created and	l what is the intende	d use of the
parts?			,g			
Intended use of parts created	Reside	ential	Commercial	Industrial	Other, plea	ise specify:
Number of parts created						

12) Boundary realig	anment					
,	current and p		s for each lot com	prising the premises?		
	Curre	1			Propose	_
Lot on plan description Area (m ²)			Lot on plan description		Area (m²)	
12.2) What is the re	eason for the	boundary reali	ignment?			
13) What are the di			y existing easeme	ents being changed and	l/or any _l	proposed easement?
Existing or	Width (m)	Length (m)	Purpose of the	easement? (e.g.	Identify	y the land/lot(s)
proposed?	` ,		pedestrian access)		benefit	ted by the easement
Division 3 – Opera		completed if any n	art of the developmen	nt application involves operati	onal work	
14.1) What is the n				it application involves operati	orial Work.	
☐ Road work			Stormwater	☐ Water in	frastruct	ture
Drainage work			Earthworks	Sewage		
Landscaping			」 Signage	☐ Clearing	vegetat	ion
Other – please	specify:					
14.2) Is the operation	onal work ned	cessary to facil	litate the creation	of new lots? (e.g. subdivi	sion)	
Yes – specify nu	umber of new	lots:				
□ No						
· · · · · · · · · · · · · · · · · · ·	nonetary value	e of the propos	sed operational w	ork? (include GST, material	s and labo	our)
\$						
PART 4 – ASS	SESSMEN	IT MANAC	GER DETAIL	.S		
15) Identify the ass	essment mar	ager(s) who w	vill be assessing t	this development applic	ation	
16) Has the local q	overnment ac	reed to apply	a superseded pla	anning scheme for this o	levelopn	nent application?
Yes – a copy of						
Local governme				d planning scheme requ	iest – rel	levant documents
attached ⊠ No						
NO NO						
PART 5 – REF	ERRAL [DETAILS				
17) Do any aspects	of the propo	sed develop <u>m</u>	ent require referr	al for any referral requir	ements?	
Note: A development ap	oplication will req	uire referral if pres	scribed by the Planni	ng Regulation 2017.		
No, there are no application − procea	•	irements relev	ant to any develo	opment aspects identifie	ed in this	development
		chief executiv	e of the Plannin	g Regulation 2017:		
☐ Clearing native				J J		
☐ Contaminated la	_	d ordnance)				

Environmentally relevant activities (ERA) (only if the ERA have not been devolved to a local government)
☐ Fisheries – aquaculture ☐ Fisheries – declared fish habitat area
Fisheries – marine plants
☐ Fisheries – waterway barrier works
Hazardous chemical facilities
Queensland heritage place (on or near a Queensland heritage place)
☐ Infrastructure – designated premises
☐ Infrastructure – state transport infrastructure
☐ Infrastructure – state transport corridors and future state transport corridors
☐ Infrastructure – state-controlled transport tunnels and future state-controlled transport tunnels
☐ Infrastructure – state-controlled roads
☐ Land within Port of Brisbane's port limits
☐ SEQ development area
☐ SEQ regional landscape and rural production area or SEQ Rural living area – community activity
☐ SEQ regional landscape and rural production area or SEQ Rural living area – indoor recreation
SEQ regional landscape and rural production area or SEQ Rural living area – residential development
SEQ regional landscape and rural production area or SEQ Rural living area – urban activity
Tidal works or works in a coastal management district
☐ Urban design
Water-related development – taking or interfering with water
Water-related development – removing quarry material (from a watercourse or lake)
Water-related development – referable dams
 Water-related development – construction of new levees or modification of existing levees (category 2 or 3 levees only) Wetland protection area

1.0 Introduction

This report has been prepared on behalf of Shane Loughnan (the 'applicant') in support of a Development Application to Douglas Shire Council, seeking a Development Permit for the Material Change of Use for the purpose of a Caretakers Residence on land at 4990 Captain Cook Highway, Oak Beach, described as Lot 1 on RP744764 ('the subject site').

The subject site is located at 4990 Captain Cook Highway, Oak Beach, and is described as Lot 1 on RP744764. The site is an irregular shaped allotment with an area of 4.824 hectares and frontage to Captain Cook Highway of approximately 270 metres.

The site is improved by a single storey dwelling and shed, which is located in the north of the site adjacent the side boundary with access provided to the site from a constructed driveway off Captain Cook Highway.

The area containing the site is characterised by coastal vegetation, rural farmland and rural residential dwellings. To the east is the original residential area of Oak Beach and the ocean and to the west, on the opposite side of the Captain Cook Highway, is a relatively recent rural residential development. Topographically, the site and area is relatively flat with Grants Creek, which adjoins the site to the south, flowing from the west to the ocean in the east.

It is proposed to plant an orchard on the site and convert the existing dwelling house into a Caretaker's Residence. A concurrent application for a dwelling house is to be lodged with a building certifier to provide for the construction of a dwelling on the site as accepted development.

The application is submitted for approval, subject to reasonable and relevant conditions.

State Interests – SARA Mapping:	Native Vegetation Clearing - Predominantly category X
Referral Agencies:	Nil
State Development Assessment Provisions:	N/A

3.0 Site Description

The subject site is located at 4990 Captain Cook Highway, Oak Beach, and is described as Lot 1 on RP744764. The site is an irregular shaped allotment with an area of 4.824 hectares and frontage to Captain Cook Highway of approximately 270 metres.

The site is improved by a single storey dwelling and shed, which is located in the north of the site adjacent the side boundary. The site is predominantly cleared with vegetation located adjacent the side and rear boundaries. There are three dams that have been excavated on the site. Two are located either side of the entrance adjacent the front boundary and both contain water. The other is located centrally on the site and surrounds, in part, a constructed building pad.

Entrance to the site is provided from the Captain Cook highway by a formed and surfaced driveway, which terminates at the existing dwelling house.

The area containing the site is characterised by coastal vegetation, rural farmland and rural residential dwellings. To the east is the original residential area of Oak Beach and the ocean and to the west, on the opposite side of the Captain Cook Highway, is a relatively recent rural residential development. Topographically, the site and area is relatively flat with Grants Creek, which adjoins the site to the south, flowing from the west to the ocean in the east.

Photo 1: Aerial View of Site (source: Qld Globe)

4.0 Proposal

It is proposed to develop the site for the purpose of an orchard and undertake a material change of use of the existing dwelling to Caretakers Residence. A concurrent application is to be made to a building certifier for the development of a dwelling house on the site as accepted development.

The proposed caretakers residence would be contained within the existing dwelling without requiring any building works or alterations. Under the Douglas Shire Council a Caretakers Residence is defined as:

Caretakers Residence

Means the use of premises comprising one Dwelling Unit for the use by a caretaker or manager, including their Household, who is employed for care taking or management purposes in connection with a commercial, industrial, recreational or other non-residential use conducted on the premises.

The use does not include:

a manager's unit located within Multi-Unit Housing; Holiday Accommodation; or Short Term Accommodation.

The existing Dwelling House/Proposed Caretakers comprises a single storey building with an internal floor area of 116m² a shaded deck and entrance containing three bedrooms, kitchen, dining and living room. A single carport is established to the side of the building.

Access to the caretaker's residence would be via the existing access arrangements and no changes to the access are proposed as part of this application.

Plans of the existing dwelling/proposed caretaker's residence are included in Attachment 1.

Key Features of the proposal are summarised in the following table:

ELEMENT / PROVISION	PROPOSAL
Site Area:	4.843 hectares
Frontage:	Captain Cook Highway – Approx. 270 metres
Site Cover:	< 5%
Height (m/storey)	Single storey
Setbacks	Approx. 57 Metres to Captain Cook Highway.
	Approx. 3 metres to side boundary

Access:	Via an existing access off Captain Cook Highway
Parking	Single carport.

5.0 Statutory Planning Considerations

This section provides an overview of the legislative context of the application under the provision of the *Planning*Act 2016.

5.1 Planning Act 2016 (PA)

5.1.1 Confirmation of Development

The proposed development is not prohibited. This has been established by considering all relevant instruments, which can provide prohibitions under the *Planning Act 2016*; including:

- Schedule 10 of the Planning Regulation 2017; and
- Relevant categorising instruments.

5.1.2 Assessable Development

The development proposed by this application is made assessable under the Douglas Shire Planning Scheme, which is a categorising instrument for the purposes of Section 43(1) of the *Planning Act 2016*.

5.1.3 Assessment Manager

The Assessment Manager is the Douglas Shire Council as determined by Schedule 8 of the *Planning Regulation* 2017.

5.1.4 Level of Assessment

The table below summarises the assessable development subject to this application and the relevant level of assessment for each aspect of development.

ASPECT OF DEVELOPMENT	REFERENCE	LEVEL OF ASSESSMENT
Material Change of Use – Caretakers Residence	Rural Areas and Rural Settlements Locality – Table 1	Code Assessable

5.1.5 Statutory Considerations for Assessable Development

As the development is subject to Code Assessment the relevant considerations of the Assessment Manager in making the decision pursuant to section 60 *Planning Act 2016*, are outlined in 45(3) and s30 & 31 of the *Planning Regulations 2017*. These are discussed further in section 6.0 and within the Code Compliance contained in **Attachment 2**.

5.1.6 Referral Triggers

There are no referral agencies triggered for this application pursuant to Schedule 10 of the *Planning Regulation* 2017.

5.1.7 State Resource

The proposal does not involve any State Resources.

5.1.8 Regional Plan

The subject site is within the Regional Landscape and Rural Production Area of the Far North Queensland Regional Plan. The site has already been established for the purpose of a dwelling house, consequently, it is not considered necessary to provide a detailed assessment of the proposed development against the requirements of the Regional Plan in this instance.

5.1.9 State Planning Policy

The site is subject to the following State Interests of the State Planning Policy:

- Economic Growth
 - Agricultural Land Classification class A and B
- Environment and Heritage
 - MSES Regulated Vegetation (essential habitat)
 - MSES Regulated Vegetation (category B & R)
 - MSES Wildlife Habitat
 - Coastal Management District
- Safety and Resilience to Hazards
 - Bushfire Prone Area (Potential Impact Buffer)
- Infrastructure State
 - controlled Road

An assessment of the proposed development against the relevant State Planning Policies is provided in the table below:

STATE INTEREST	ASSESSMENT BENCHMARK	COMMENT
Liveable Communities	Development in an urban area for Material Change of Use or Reconfiguration of a Lot; accessed by common private title and includes buildings not covered by other legislation or planning provision mandating fire hydrants.	Not Applicable:

Mining &	Development within KRA, within or for a	Not applicable:
Extractive Resources	resource/processing or separation area for a KRA or affected by a relevant Transport Route	The project is not located on a site designated as a KRA, nor a route for transport, nor within a separation area.
Water Quality	Development for urban purposes involving premises or disturbance of land area 2,500m² or greater; OR Particular development within a water supply buffer area.	Not Applicable: Development does not include operational works for urban purposes that involves disturbance of more than 2500m ² of land.
Natural Hazards, Risk & Resilience	Development on land within a flood, bushfire, landslide or coastal hazard area.	Applicable: Whilst Development proposed is located within area subject to or containing natural hazards (Bushfire), it is noted that the site is identified within the Potential Impact Buffer rather than a Bushfire Prone Area. The proposal would not increase risk exposure above the existing use of the site.
Transport Infrastructure	Development on land in areas surrounding state transport infrastructure is compatible with and supports the most efficient use of the infrastructure and does not adversely affect the infrastructure.	Not applicable: The development would not involve a new access to the state controlled road reserve or increase the number of traffic movements on the state controlled road reserve.

5.1.10 State Development Assessment Provisions

The application is for an excluded material change of use, Caretaker's Residence, and does not involve a new or changed access to the state transport corridor. Furthermore, it does not involve the clearing of any vegetation. Consequently, there are no State Agency referrals and there are no relevant State Development Assessment Provisions applying to the proposal.

6.0 Local Planning Considerations

6.1 Douglas Shire Planning Scheme

Within the Douglas Shire Planning Scheme, the site is identified within the Rural Areas and Rural Settlements Locality and within the Rural Planning Area. The site is also affected by a The Acid Sulfate Soils Overlay and the Natural Hazards Overlay.

The following table outlines the relevant codes, the applicability of the relevant Code and a summary of the compliance with assessment benchmarks.

APPLICABLE CODES	A P P L I C A B I L I T Y	COMPLIANCE SUMMARY
Rural Areas and Rural Settlement Locality Code	Applies	Able to Comply with the relevant Performance Criteria and Acceptable Solutions.
Rural Planning Area Code	Applies.	Complies with the relevant Performance Criteria.
Natural Hazards Overlay Code	Applies	Able to Comply with the relevant Performance Criteria and Acceptable Solutions.
Acid Sulfate Soils Overlay Code	Not Applicable	The proposed development would not involve excavation or fill.
Caretakers Residence Code	Applies	Generally complies with the Acceptable Solutions and complies with the Performance Criteria.
SECONDARY CODES		
Landscaping Code	Applies.	Complies with the relevant Performance Criteria and Acceptable Solutions.
Vehicular Parking and Access Code	Applies	Complies with the relevant Performance Criteria and Acceptable Solutions
Filling and Excavation Code	Not Applicable	The proposed caretakers Residence is an existing Dwelling House and no fill or excavation is required to facilitate the material change of use.

A detailed assessment of the proposal against the applicable codes is contained in Attachment 2, and demonstrates that the development complies or is capable of complying with the relevant assessment criteria. Below is a summary or statement of compliance with respect to the various codes.

6.1.1 Statement of Compliance

6.1.1.1 RURAL AREAS AND RURAL SETTLEMENTS LOCALITY CODE

The proposed Caretaker's Residence is an existing Dwelling House and would not result in the loss of Good Quality Agricultural Land (GQAL). The proposed change of use would have no greater impact on the amenity of the rural area than the present use of the site for a dwelling house.

The proposed development is able to satisfy the Purpose and relevant Performance Criteria and Acceptable Solutions of the code.

6.1.1.2 RURAL PLANNING AREA CODE

The proposed Caretakers Residence is an existing Dwelling House and would not have a greater impact on the retention of GQAL or the amenity of the are a than the existing use.

No additional vegetation clearing is required to facilitate the development to ensure the retention of existing remnant vegetation on the site and the existing built form is considered to be consistent with the rural locality.

The proposed development is able to satisfy the Purpose and relevant Performance Criteria and Acceptable Solutions of the code.

6.1.1.3 NATURAL HAZARDS OVERLAY CODE

The proposed Caretakers Residence is an existing Dwelling House and would not result in a greater risk form hazard than the existing use of the premises.

The proposed development is able to satisfy the Purpose and relevant Performance Criteria and Acceptable Solutions of the code.

6.1.1.4 CARETAKERS RESIDENCE CODE

The existing dwelling house has a floor area and facilities consistent with the required for a Caretakers Residence. No additional works are required to meet the requirements of the Caretakers Residence Code.

The proposed development is able to satisfy the Purpose and relevant Performance Criteria and Acceptable Solutions of the code.

6.1.1.5 SECONDARY CODES

LANDSCAPING CODE

The proposed Caretakers Residence is an existing Dwelling House and no additional vegetation removal or landscaping is required to facilitate the development.

The Caretakers Residence would be screened from views external to the site by the existing dense vegetation to the site and no additional landscaping or significant planting is proposed or required to achieve the Purpose and relevant Performance Criteria and Acceptable Solutions of the code.

VEHICLE PARKING AND ACCESS CODE

The proposed house would be accessed via the existing access off Captain Cook Highway with on-site car parking provided by a single carport directly accessible from the house. Car parking would be provided to meet the needs of the visitors to this minor development.

The proposed development is able to satisfy the Purpose and relevant Performance Criteria and Acceptable Solutions of the code.

7.0 Summary and Conclusions

This report has been prepared on behalf of Shane Loughnan (the 'applicant') in support of a Development Application to Douglas Shire Council, seeking a Development Permit for the Material Change of Use for the purpose of a Caretakers Residence on land at 4990 Captain Cook Highway, Oak Beach, described as Lot 1 on RP744764 ('the subject site').

The subject site is located at 4990 Captain Cook Highway, Oak Beach, and is described as Lot 1 on RP744764. The site is an irregular shaped allotment with an area of 4.824 hectares and frontage to Captain Cook Highway of approximately 270 metres.

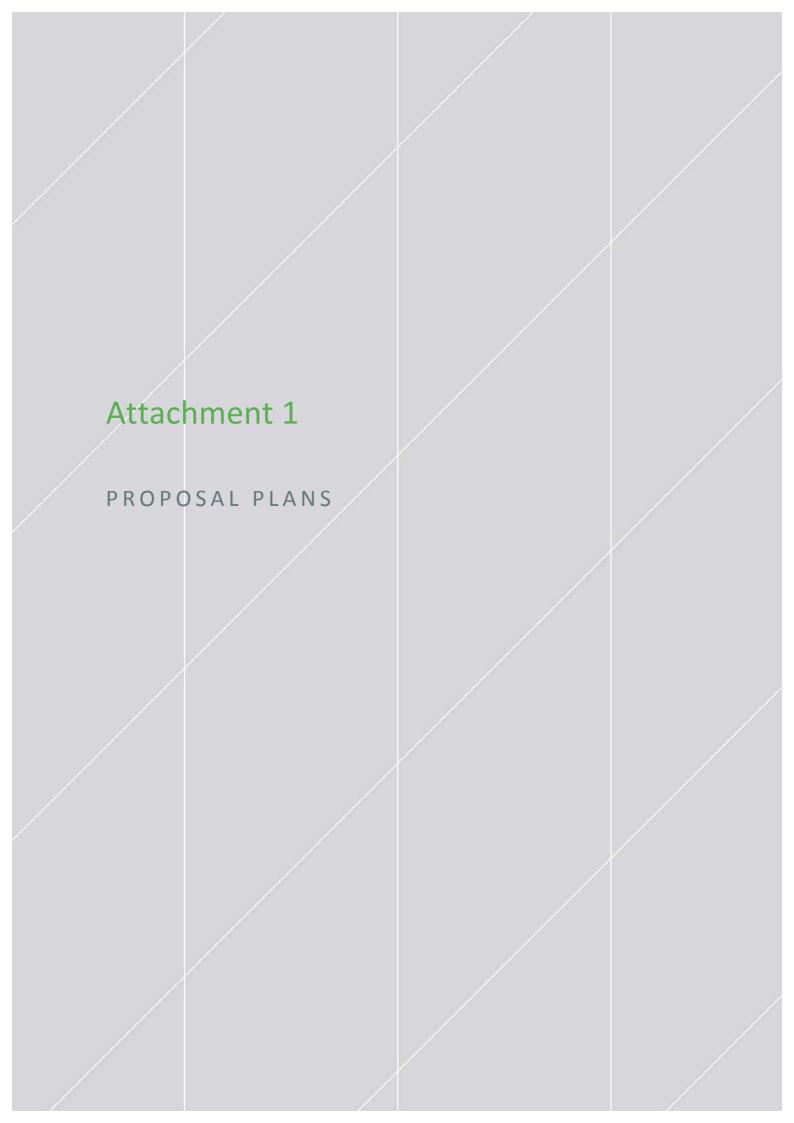

The site is improved by a single storey dwelling and shed, which is located in the north of the site adjacent the side boundary with access provided to the site from a constructed driveway off Captain Cook Highway.

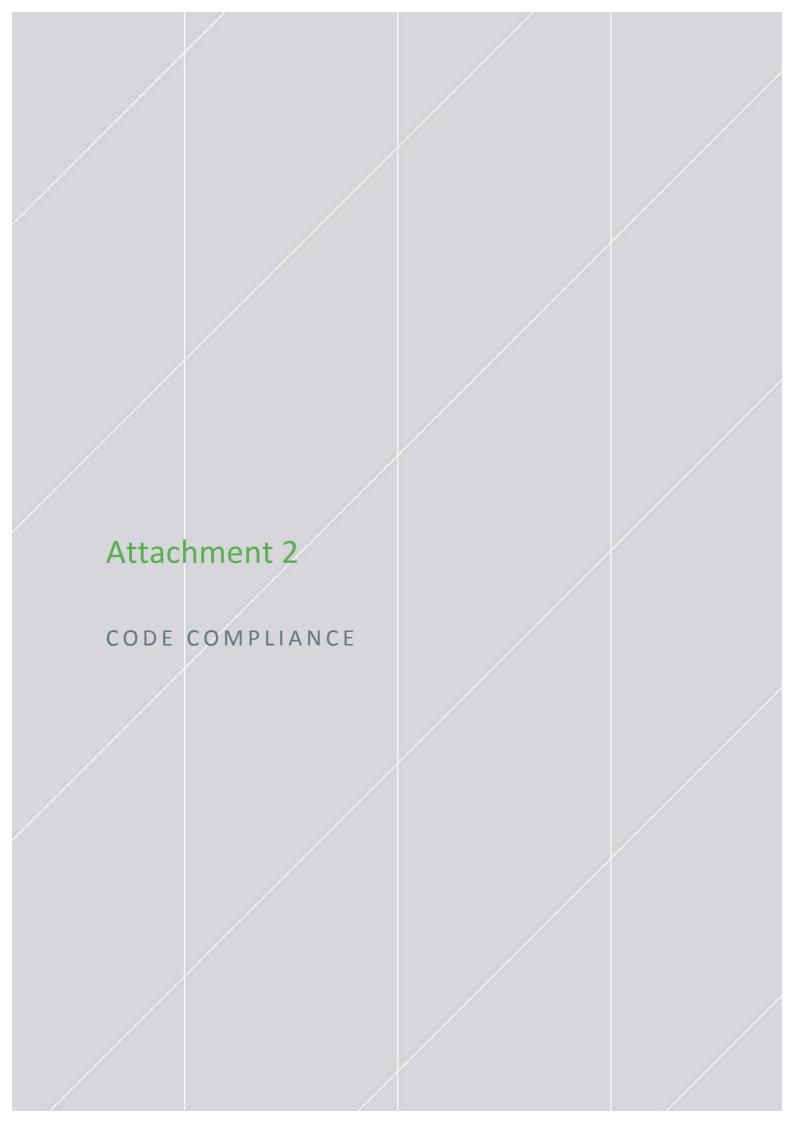

The area containing the site is characterised by coastal vegetation, rural farmland and rural residential dwellings. To the east is the original residential area of Oak Beach and the ocean and to the west, on the opposite side of the Captain Cook Highway, is a relatively recent rural residential development. Topographically, the site and area is relatively flat with Grants Creek, which adjoins the site to the south, flowing from the west to the ocean in the east.

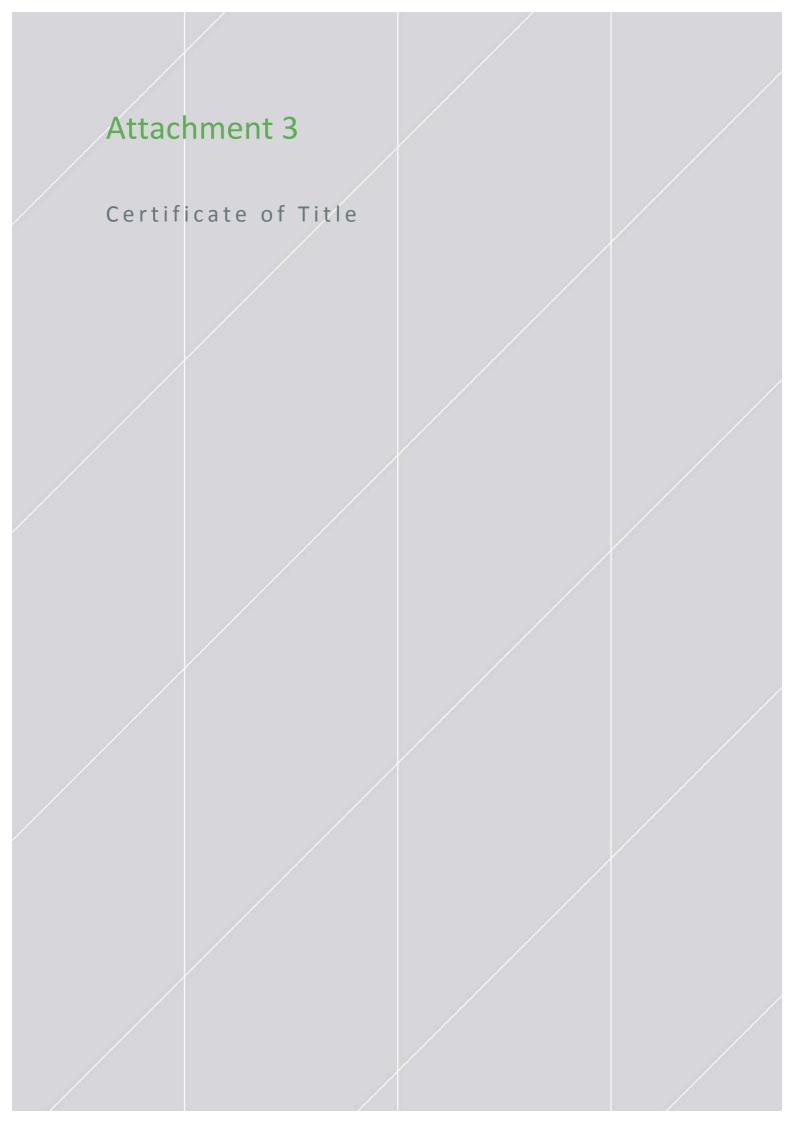

It is proposed to plant an orchard on the site and convert the existing dwelling house into a Caretakers Residence. A concurrent application for a dwelling house is to be lodged with a building certifier to provide for the construction of a dwelling on the site as accepted development.

The proposed Material Change of Use is able to satisfy all of the relevant Performance Criteria and generally satisfies the Acceptable Outcomes.

The application is submitted for approval, subject to reasonable and relevant conditions.

Natural Hazards Code

An assessment of the Application in regard to compliance with the Purpose of the Code is provided below:

Purpose Statement:	Comment
The purpose of this Code is to ensure that development does not occur in areas prone to the natural hazard of bushfires and to minimise any risks associated with bushfires in the Shire.	The proposed Caretakers Residence is an existing dwelling house and would not result in an increase in risk associated with bushfire.

An assessment of the Application in regard to Code Performance Criteria and Acceptable Solutions is provided below:

Performance Criteria		Acceptable Solutions		Comment / Compliance
Bush	fire			
P1	Development does not compromise the safety of people or property from bushfire.	A1.1	Any development on land identified as High Risk Hazard on any Natural Hazards Overlay on any Locality Map complies with the relevant requirements of State Planning Policy 1/03 – Mitigating the Adverse Impacts of Flood, Bushfire and Landslide. AND	Not Applicable – the site is identified in being medium risk hazard area.
			Development complies with a Bushfire Management Plan prepared for the site.	
P2	Development maintains the safety of people and property by: • avoiding areas of High or Medium Risk Hazard; or • mitigating the risk through: - lot design and the siting of Buildings; and	A2.1	Development is located on a Site that is not subject to High or Medium Risk Hazard. OR For all development (if development is proposed to be located on a Site that is subject to High or Medium	The proposed Caretakers Residence is an existing Dwelling House and no additional building works are required to facilitate the proposal.

Performance Criteria	Acceptable Solutions	Comment / Compliance
 including firebreaks that provide adequate: Setbacks between Building/structure s and hazardous vegetation, and Access for fire fighting/other 	Risk Hazard), then: Buildings and structures on lots greater than 2500 m ₂ : • are sited in locations of lowest hazard within the lot; and • achieve Setbacks from	Comment / Compliance
emergency vehicles; - providing adequate Road Access for fire fighting/other emergency vehicles and safe evacuation; and - providing an adequate and accessible water supply for fire- fighting purposes	hazardous vegetation of 1.5 times the predominant mature canopy tree Height or 10 metres, whichever is the greater; and • 10 metres from any retained vegetation strips or small areas of vegetation; and • are sited so that elements of the development least susceptible to fire are sited closest to the bushfire hazard.	
	Building and structures on lots less than or equal to 2500 m ₂ , maximize Setbacks from hazardous vegetation.	
	For uses involving new or existing Buildings with a Gross Floor Area greater than 50 m ² each lot has:	
	 a reliable reticulated water supply that has sufficient flow and pressure characteristics for fire fighting purposes at all times (minimum pressure and flow is 10 litres a second at 200 kPa); or 	

Performance Criteria	Acceptable Solutions	Comment / Compliance	
Performance Criteria	an on Site water storage of not less than 5000 litres (eg. accessible dam or tank with fire brigade tank fittings, swimming pool). A2.2 For development that will result in multiple Buildings or lots (if development is proposed to be located on a Site that is subject to High or Medium Risk Hazard), then: Residential lots are designed so that their size and shape allow for: • efficient emergency Access to Buildings for fire fighting appliances (eg. by avoiding long narrow lots with long Access drives to Buildings); and • Setbacks and Building siting in accordance with 2.1 (a) above. AND Firebreaks are provided by: • a perimeter Road that separates lots from areas of	Not Applicable – the proposed development is a single Caretakers Residence only.	
	separates lots from areas of bushfire hazard and that Road has:		
	 - a minimum cleared width of 20 metres; and - a constructed Road width and all-weather standard complying with Council standards. 		

Performance Criteria	Acceptable Solutions	Comment / Compliance
	OR	
	 where it is not practicable to comply with fire break provisions above, maintenance trails are located as close as possible to the boundaries of the lots and the adjoining bushland hazard, and the fire/maintenance trails: 	
	- have a minimum cleared width of 6 metres; and - have a formed width and gradient, and erosion control devices to Council standards; and - have vehicular Access at each end; and - provide passing bays and turning areas for fire fighting applicants; and - are either located on public land, or within an Access easement that is granted in favour of the Council and Queensland Fire Rescue Service (QFRS).	
	AND	
	sufficient cleared breaks of 6 metres minimum width in retained bushland within the development (eg. creek corridors and other retained vegetation) to allow burning of sections and Access for bushfire response.	
	AND	
	Roads are designed and

	Performance Criteria		Acceptable Solutions	Comment / Compliance
Vehi	cle Parking Numbers			
P1	Sufficient parking spaces are provided on the Site to accommodate the amount and type of vehicle traffic expected to	A1.1	The minimum number of vehicle parking spaces provided on the Site is not less than the number prescribed in Schedule 1 of	The proposed development requires a single car parking space, which is provided.

	Performance Criteria		Acceptable Solutions	Comment / Compliance
P2	Parking spaces are provided to meet the needs of vehicle occupants with disabilities.	A2.1	For parking areas with a total number of ordinary vehicle spaces less than 50, wheelchair accessible spaces are provided as follows: • Medical, higher education, entertainment facilities and shopping centres – 2 spaces; • All other uses – 1 space.	Dedicated spaces are not considered necessary in this instance.
		A2.2	For parking areas with 50 or more ordinary vehicle spaces, wheelchair accessible spaces are provided as follows: • Medical, higher education, entertainment facilities and shopping centres – 3% (to the closest whole number) of the total number of spaces required; • All other uses – 2% (to the closest whole number) of the total number of spaces required;	Not Applicable
Moto	or Cycles			
P3	In recognition that motorcycles are low Road-space transport, a proportion of the parking spaces provided may be for motorcycles. The proportion provided for motor cycles is selected so that: • ordinary vehicles do not demand parking in the spaces reserved for motor cycles due to capacity constraints; and, • it is a reflection of the make-up of the likely	A3.1	Parking for motorcycles is substituted for ordinary vehicle parking to a maximum level of 2% per cent of total ordinary parking. AND The motorcycle parking complies with other elements of this Code.	Given the minor nature of the development and the anticipated low demand from motorcycle parking, specific motorcycle parking is not considered required in this instance.

	Performance Criteria		Acceptable Solutions	Comment / Compliance
Com	vehicle fleet that uses the parking; and, • it is not a reflection of the lower cost of providing motorcycle parking. pact Vehicles			
Com	pact venicies			
P4	A proportion of the parking spaces provided may be for compact vehicles. The proportion of total parking provided for compact vehicles is selected considering: • compact vehicles spaces are not available to noncompact vehicles; and, • it is a reflection of the proportion of the likely vehicle fleet that uses the parking; and, • compact vehicle spaces are located so as to be proximate to pedestrian destinations such that they present significant inclination for use by users of compact vehicles; and, • the scale of parking spaces, likely users and the likely degree of familiarity with the availability of such spaces.	A4.1	For parking areas exceeding 100 spaces for short term users or 50 spaces for long-term users, parking is provided for compact vehicles as a substitute for ordinary vehicle parking so that: • compact vehicle parking does not exceed 10% of total vehicle parking required; and, • the parking location is proximate to the entry locations for parking users; and, • the parking provided complies with other elements of this Code.	Not Applicable.
P5	Sufficient bicycle parking	A5.1	The minimum number of	No bicycle parking is required.
	spaces with appropriate security and end of trip facilities are provided on- Site to accommodate the amount of bicycles		bicycle parking spaces provided on Site is not less than the number prescribed in Schedule 1 of this Code, for the particular use or	

Performance Criteria		Acceptable Solutions	Comment / Compliance		
expected to be generated by the use or uses.		uses.			
Vehicular Access to the Site					
P6 The location of Access points minimises conflicts and is designed to operate efficiently and safely taking into account: • the amount and type of vehicular traffic; • the type of use (eg longstay, short-stay, regular, casual); • Frontage Road traffic conditions; • the nature and extent of future street or intersection improvements; • current and future on street parking arrangements; • the capacity of the adjacent street system; and • the available sight distance.	A6.1	The location of the Access points is in accordance with the provisions of the relevant Australian Standards. AND Where the Site has Frontage to more than one street, the Access is from the lowest order street.	No additional vehicle access is proposed as part of this development. Access would form the existing driveway off Captain Cook Highway.		
	A6.2	All redundant Accesses must be removed and a suitable barrier Erected to prevent further use of the Access.	Not Applicable		
	A6.3	Only one Access point is to be provided to each Site unless stated otherwise in another Code.	Not Applicable		
Accessibility and Amenity for Users	3				
P7 On-Site vehicle parking is provided where it is convenient, attractive and safe to use, and does not	A7.1	Short term visitor parking is provided at the front or on the main approach side of the Site, with easy Access to	All car parking spaces would be conveniently located for the visitors to the site.		

	Performance Criteria		Acceptable Solutions	Comment / Compliance
	detract from an attractive or existing streetscape character.		the Building entry, where such provision is in keeping with the desired character of the area in which the Site is located. AND In mixed use premises that include residential or accommodation uses (excluding, Port Douglas – Tourist Centre), at least 50% of the required number of parking spaces for the nonresidential use/s on the Site is provided in an easily accessible location on the premises, so as to be convenient to use for customers and other visitors.	
P8	The layout of parking areas provides a high degree of amenity and accessibility for different users.	A8.1	The layout of the parking area provides for the accessibility and amenity of the following: • People with Disabilities • Cyclists • Motorcyclists • Compact Vehicles • Ordinary Vehicles • Service Delivery Vehicles.	The car parking space would be directly accessible from the Caretakers Residence.
		A8.2	Where covered parking areas are required in accordance with Schedule 1 of this Code, sails or other secure structural forms of covering provide shade and weather protection for vehicles and passengers.	Not Applicable
Acces	ss Driveways			
P9	The dimensions of Access driveways cater for all vehicles likely to enter the Site and minimises the	A9.1	Access driveways are designed in accordance with the provisions of the relevant Australian	It is proposed to retain the existing driveway to the site as part of this development.

	Performance Criteria		Acceptable Solutions	Comment / Compliance
	disruption of vehicular, cyclist and pedestrian traffic.		Standards.	
P10	The surface construction materials of Access driveways within the Road reserve contribute to the streetscape and alerts pedestrians to the location of the driveway.	A10.1	Surface construction materials are consistent with the current or intended future streetscape or character of the area and contrast with the surface construction materials of any adjacent footpath.	It is proposed to retain the existing driveway to the site as part of this development.
Acces	s for People with Disabilities			
P11	Access for people with disabilities is provided to the Building from the parking area and from the street.	A11.1	Access for people with disabilities is provided in accordance with the relevant provisions of the Australian Standards.	Dedicated spaces and access are not considered necessary in this instance.
Acces	s for Pedestrians			
P12	Access for pedestrians is provided to the Building from the parking area and from the street.	A12.1	Defined, safe pedestrian pathways are provided to the Building entry from the parking area and from the street.	Dedicated access not considered necessary in this instance.
Acces	s for Cyclists			
P13	Access for cyclists is provided to the Building or to bicycle parking area from the street.	A13.1	Access pathways for cyclists are provided in accordance with the relevant provisions of the Australian Standards. AND Where Access for cyclists is shared with Access for pedestrians and vehicles, the shared use is identified by signage and line marking.	Not Applicable
Dime	nsions of Parking Spaces			
P14	Parking spaces must have adequate areas and dimensions to meet user requirements.	A14.1	Car parking for the disabled, ordinary car parking spaces and motorcycle parking spaces meet the requirements of the	The proposed car parking has been designed to meet the relevant Australian Standards and the needs of the prospective residents.

P16	Any filling and excavation work does not create a detrimental impact on slope stability, erosion potential or Visual Amenity of the Site or the surrounding area.	A16.1	The height of cut and/or fill, whether retained or not, does not exceed 2 metres in height.	Not Applicable
P17	The bulk and scale of a House is not visually obtrusive and does not compromise the Visual Amenity of the site and the surrounding area.	A17.1	The Gross Floor Area of the House does not exceed 250m2.	Not Applicable

Caretaker's Residence Code

An assessment of the Application in regard to compliance with the Purpose of the Code is provided below:

Purpose Statement:	Comment	
The purpose of the code is to:		
Facilitate the establishment of a Caretaker's Residence, which is used for genuine caretaking or property management purposes.	Complies – the proposed Caretakers Residence is intended to support an orchard to be developed on the site.	
To ensure that an acceptable level of amenity is provided for the occupants.	Complies – the proposed Caretakers Residence is an existing dwelling house that has been constructed to a suitable standard.	

	Performance Criteria		Acceptable Solutions	Comment / Compliance
P1	Only one Caretaker's Residence is established on one Site and in association with a legitimate caretaking or property management purpose operating on the Site.	A11	Only one Caretaker's Residence is established on one allotment identified on a Standard Format Plan. AND The Caretaker's Residence is located on the same lot as the primary use. EXCEPT THAT A Caretaker's Residence associated with primary production is located on the holding.	Complies – only one Caretakers Residence would be established on the same allotment as the primary use.
		A1.2	The Caretaker's Residence is occupied only by the proprietor, manager or caretaker of the primary use established on the Site, together with any immediate family of that person.	The Caretakers Residence would only be occupied by the caretaker and their family.
P2	A Caretaker's Residence is provided with an appropriate level of	A2.1	The Gross Floor Area of the Caretaker's Residence is not greater than 120 m ² .	The Gross Floor Area of the Caretakers Residence is less than

recreation and service			120m².
facilities and is domestic in Height and scale.			
	A2.2	The Caretaker's Residence is provided with a Landscaping and Recreation Area at the rate of 30 m2 for the first bedroom plus 15 m2 for each additional bedroom, and • at least 35 m2 is provided as private Recreation Area which is directly accessible from the residence and which has a minimum dimension of 3 metres.	The Caretakers Residence is provided with in excess of the open space requirement.
	A2.3	The private Recreation Area is fenced or screened to facilitate the private enjoyment of the space by the occupants of the Caretaker's Residence.	The Caretakers Residence would not be provided with a fenced open space area; however the residence would have access to the entire property and the residence is separated from any other residential use by a significant distance. The private enjoyment of the open space would jot be compromised by not providing a fenced area.
	A2.4	The Caretaker's Residence is provided with: • an outdoor service court with a minimum area of 5 m² to facilitate clothes drying facilities; • an area for general storage; • an area for the storage of a garbage receptacle; and • a designated covered car parking space.	The proposed Caretakers Residence is provided with sufficient space to provide for the establishment of drying facilities and storage and would be provided with the designated car parking space under the existing car port.

Landscaping Code

An assessment of the Application in regard to compliance with the Purpose of the Code is provided below:
