#### DA Form 1 – Development application details

Approved form (version 1.1 effective 22 JUNE 2018) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving building work.

For a development application involving building work only, use DA Form 2 - Building work details.

For a development application involving **building work associated with any other type of assessable development** (i.e. material change of use, operational work or reconfiguring a lot), use this form (*DA Form 1*) and parts 4 to 6 of *DA Form 2 – Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

**Note:** All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).

Attention: - Development Services

Dear Sir/Madam,

RE: Code Assessable Building Works Application L5 SP295092, 11 Craven Close, PORT DOUGLAS

I have been engaged by the owner, Mr P. Roberts as Director of Dulcimer Pty Ltd, to provide plans suitable for building approval for a Gazebo.

Plans of the development are attached and clearly show the location of the proposed gazebo in relation to adjacent boundaries. A completed DA Form 1 is also attached.

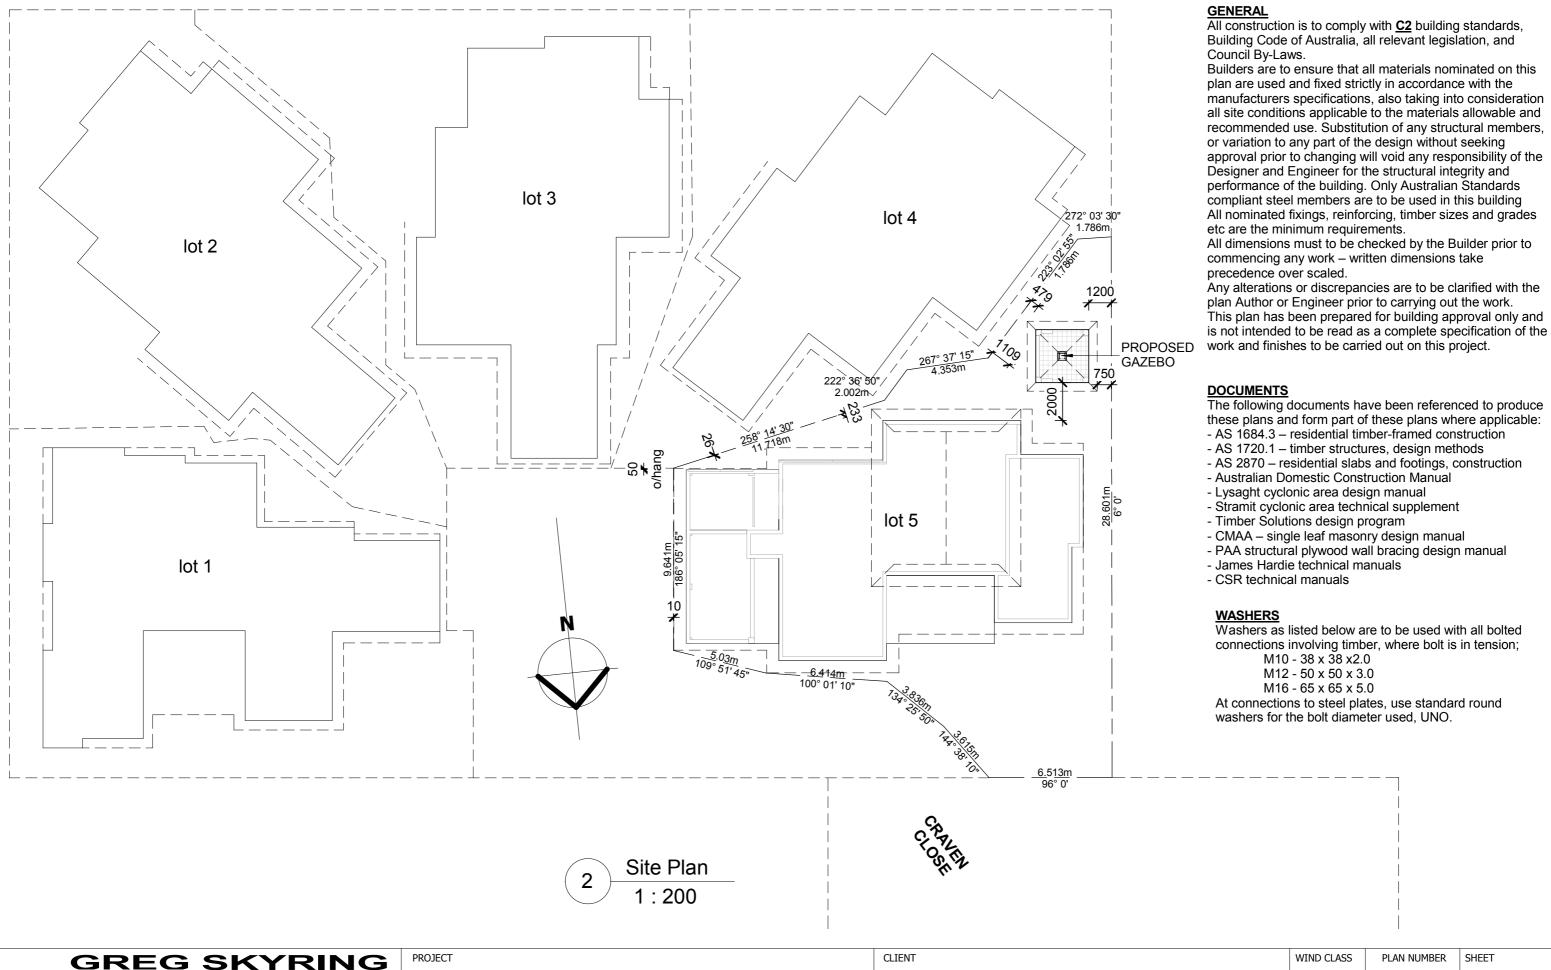

An assessment of the 2018 Planning Scheme indicates the building work is assessable against the planning scheme due to the non compliance of minimum boundary clearances.

Below is a request to allow the breach within the Tourist Accommodation zone code.

Performance outcomes	Acceptable outcomes	Comments				
Setbacks (other than for a dwelling house)						
PO1 Buildings are setback to: (a) maintain the character and amenity of the area; (b) achieve separation from neighbouring buildings and from road frontages.	AO1 Buildings are setback: (a) a minimum of 6 metres from the main street frontage; (b) a minimum of 4 metres from any secondary street frontage; (c) 4.5 metres from a rear boundary; (d) 2 metres from a side or an average of half of the height of the building at the side setback, whichever is the greater.	A request is made to Council to reduce the minimum acceptable boundary setback to the Gazebo roof as dimensioned on the attached Site Plan.				

Yours Faithfully,

Greg Skyring
