### Attention: Environment & Planning

Dear Sir/Madam

### DEVELOPMENT APPLICATION FOR OPERATIONAL WORKS (VEGETATION DAMAGE) 111-119 PORT DOUGLAS ROAD, PORT DOUGLAS – LOT 3 ON RP729991

Brazier Motti Pty Ltd acts on behalf of the Applicant, Port Pacific Developments in relation to the abovementioned matter.

On behalf of the Applicant we now submit to Council an application seeking a Development Permit for Operational Works (Vegetation Damage) on land located at 111-119 Port Douglas Road, Port Douglas.

The following has been prepared to assist with Council's assessment of the proposed development:

### THE SITE

The subject land is located at 111-119 Port Douglas Road, Port Douglas and is precisely described as Lot 3 on RP729991. Figure 1 below identifies the site.

Figure 1: Satellite Imagery of the subject land (source QLD Globe December 2019)

The site has a total area of 1.745ha and has been used as the sporting and leisure centre for the neighbouring resort for many years. The site contains a 25m lap pool, large covered gazebo structure, two (2) tennis courts and landscaping located in the vicinity of the property boundaries.

The vegetation onsite is not mapped remnant by the State or contained with Council's Natural Areas or Landscape Values Overlays.

### PROPOSAL

Approval of the Development Application will authorise a Development Permit for Operation Works (Vegetation Damage).

The proposed vegetation clearing will occur at the rear of the site, as depicted within the Plan of Proposed Vegetation Clearing contained within *Attachment B*. Total removal of vegetation is not proposed with selective/strategic removal of vegetation being undertaken.

The purpose of the vegetation removal is twofold in that it allows for:

- 1. General maintenance of the vegetated area to be undertaken: and
- 2. Future maintenance of the vegetated areas to be undertaken in an efficient manner.

The number of trees to be removed from the site will be greater than 11 trees. The final number of trees to be removed from site will be determined upon commencement of the maintenance works within the nominated area.

The removed vegetation will be disposed of and will not create nuisance to surrounding properties. The vegetation removal will not impact on the amenity of surround properties or the Port Douglas locality.

### PLANNING ACT 2016 CONSIDERATIONS

The table below provides an overview of the legislative context of the development application under the provisions of the *Planning Act 2016* and *Planning Regulation 2017*.

Assessable Development	The proposed development constitutes assessable development under the Douglas Shire Planning Scheme 2018. Accordingly, pursuant to Section 44(3) of the <i>Planning Act 2016</i> a development approval is required.
Assessment Manager	Pursuant to Schedule 8 of the <i>Planning Regulation 2017</i> the Assessment Manager for this development application is Douglas Shire Council.
Category of Assessment	The Douglas Shire Planning Scheme 2018 identifies that the proposed development is a Code Assessable development.
Public Notification	The Application is Code Assessable, therefore, in accordance with section 53 of the <i>Planning Act 2016</i> public notification is not required.
Referrals	The application does not trigger referral

### **DOUGLAS SHIRE PLANNING SCHEME 2018**

Under the Douglas Shire Planning Scheme the site is included in the Medium Density Residential Zone. The Table of Assessment for the Medium Density Residential Zone identifies that an application for Operational Work – Vegetation Damage is self-assessable when the proposal demonstrates compliance with the applicable acceptable outcomes. In this instance the proposal cannot demonstrate compliance with the applicable acceptable outcomes, increasing the level of assessment to code.

The table below provides an overview of the planning scheme elements applicable to the subject land and the proposed development provisions under the Douglas Shire Planning Scheme 2018:

Code	Comment			
Medium Density Residential Zone Code	The selective removal of vegetation onsite will not compromise the purpose of the zone.			
Natural Areas Overlay Code	Overlay mapping identifies that the site does not contain any natural areas.			
Vegetation Management Code	<ul> <li>The proposed vegetation clearing does not achieve compliance with Acceptable Outcome AO1.3. In demonstrating compliance with Performance Outcome PO1 the selective removal of vegetation will not: <ul> <li>diminish the character and amenity of surrounding properties or the Port Douglas locality;</li> <li>result in fragmentation of habitats;</li> <li>be undertaken in an unsustainable manner;</li> <li>contain significant vegetation; and</li> <li>be undertaken in a manner that will not result in or encourages soil erosion.</li> </ul> </li> </ul>			

### CONCLUSION

The abovementioned has demonstrated that the proposed vegetation removal at 111-119 Port Douglas Road is minor in nature and will not impact on the amenity of surrounding properties or the Port Douglas locality.

Accordingly, subject to the imposition of reasonable and relevant conditions, we request that Council issues a Development Permit for Operational Works (Vegetation Damage).

### SUPPORTING DOCUMENTS

Please see enclosed the following attachments to assist with Council's assessment of the application:

Attachment A: DA Form 1; Attachment B: Plan of Proposed Vegetation Clearing.

Council's application fee has been determined to be \$1,689.00. The applicant will arrange payment of the application fee directly with Council upon lodgement of the application.

We trust that the enclosed documentation is sufficient to allow Council's assessment of the proposed development, however, should you have any further queries or wish to discuss please do not hesitate to contact this office.

Yours faithfully,

MICHAEL TESSARO Senior Planner Brazier Motti Pty Ltd

# DA Form 1 – Development application details

Approved form (version 1.1 effective 22 JUNE 2018) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving building work.

For a development application involving building work only, use DA Form 2 - Building work details.

For a development application involving building work associated with any other type of assessable development (i.e. material change of use, operational work or reconfiguring a lot), use this form (*DA Form 1*) and parts 4 to 6 of *DA Form 2 – Building work details.* 

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).
