DA Form 1 – Development application details

Approved form (version 1.3 effective 28 September 2020) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving only building work.

For a development application involving **building work only**, use *DA Form 2 – Building work details*.

For a development application involving **building work associated with any other type of assessable development** (i.e. material change of use, operational work or reconfiguring a lot), use this form (*DA Form 1*) and parts 4 to 6 of *DA Form 2 – Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).

Notes supporting my Development Application to remove a strangler fig tree on our property at 4 Nautilus Street, Port Douglas.

- 1. When we purchased the property 4 years ago, the tree was already massive and a nuisance. On meeting the neighbours (particularly the couple at 3 Trochus) it was clear that it was a problem for them as well.
- 2. We had the height of it reduced by several metres some time during 2018. Of course it has grown back with avengance. Roots traverse the back of our property, and the back of the neighbouring property at 3 Trochus Close. I have also traced roots disappearing under the house slab.
- 3. The tree is almost directly over the main Council sewer which runs along our rear boundary.
- 4. The tree dwarfs the lychee next to it, and a fish-tail palm, and nothing else but weeds grow underneath it. It makes a large section of our back garden unusable as a garden.
- 5. The original host tree is unknown and has disappeared.
- 6. I have a problem with the "Acceptable Outcomes" available to me in the Vegetation management code section of the Douglas Planning Scheme in that there is no reference to the fact that such a tree just does not belong on a residential property smaller than, say 2000 m². I have used the only outcome that comes close AO1.11 referencing the protection of other trees. In this case I believe the lychee to be more significant than the fig in that it is an attractive food source.
