DA Form 1 – Development application details

Approved form (version 1.3 effective 28 September 2020) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving only building work.

For a development application involving building work only, use DA Form 2 - Building work details.

For a development application involving building work associated with any other type of assessable development (i.e. material change of use, operational work or reconfiguring a lot), use this form (DA Form 1) and parts 4 to 6 of DA Form 2 – Building work details.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).

PART 1 - APPLICANT DETAILS

| 1) Applicant details | |
|---|--------------------------------|
| Applicant name(s) (individual or company full name) | HENRY MICHEL |
| Contact name (only applicable for companies) | |
| Contact frame tonly applicable for companies, | |
| Postal address (P.O. Box or street address) | P.O. BOX 408 |
| Suburb | MOSSMAN |
| State | QLD |
| Postcode | 4873 |
| Country | |
| Contact number | 40 989130 |
| Email address (non-mandatory) | henrymiche 155 2 outlook, com. |
| Mobile number (non-mandatory) | 0474345105 |
| Fax number (non-mandatory) | |
| Applicant's reference number(s) (if applicable) | |

| 2) Owner's consent |
|--|
| 2.1) Is written consent of the owner required for this development application? |
| ☐ Yes – the written consent of the owner(s) is attached to this development application ☐ No – proceed to 3) |

PART 2 - LOCATION DETAILS

| 3) Location of the premises (complete 3.1) or 3.2), and 3.3) as applicable) Note: Provide details below and attach a site plan for any or all premises part of the development application. For further information, see <u>DA</u> Forms Guide: Relevant plans. | | | | | | | | | |
|---|--|-------------------------|------------------------|----------------------|--|---------|-------------|-----------------|---|
| 3.1) Street address and lot on plan | | | | | | | | | |
| Street address AND lot on plan (all lots must be listed), or Street address AND lot on plan for an adjoining or adjacent property of the premises (appropriate for development in water but adjoining or adjacent to land e.g. jetty, pontoon. All lots must be listed). | | | | | | | | | |

PART 5 - REFERRAL DETAILS

| 17) Does this development application include any aspects that have any referral requirements? Note: A development application will require referral if prescribed by the Planning Regulation 2017. |
|--|
| ☐ No, there are no referral requirements relevant to any development aspects identified in this development application – proceed to Part 6 |
| Matters requiring referral to the Chief Executive of the Planning Act 2016: |
| ☐ Clearing native vegetation |
| Contaminated land (unexploded ordnance) |
| ☐ Environmentally relevant activities (ERA) (only if the ERA has not been devolved to a local government) |
| ☐ Fisheries – aquaculture |
| ☐ Fisheries – declared fish habitat area |
| ☐ Fisheries – marine plants |
| ☐ Fisheries – waterway barrier works |
| Hazardous chemical facilities |
| Heritage places – Queensland heritage place (on or near a Queensland heritage place) |
| Infrastructure-related referrals – designated premises |
| Infrastructure-related referrals – state transport infrastructure |
| ☐ Infrastructure-related referrals – State transport corridor and future State transport corridor |
| ☐ Infrastructure-related referrals – State-controlled transport tunnels and future state-controlled transport tunnels |
| Infrastructure-related referrals – near a state-controlled road intersection |
| ☐ Koala habitat in SEQ region – interfering with koala habitat in koala habitat areas outside koala priority areas |
| ☐ Koala habitat in SEQ region – key resource areas |
| Ports – Brisbane core port land – near a State transport corridor or future State transport corridor |
| Ports – Brisbane core port land – environmentally relevant activity (ERA) |
| Ports – Brisbane core port land – tidal works or work in a coastal management district |
| Ports – Brisbane core port land – hazardous chemical facility |
| Ports – Brisbane core port land – taking or interfering with water |
| Ports – Brisbane core port land – referable dams |
| Ports – Brisbane core port land – fisheries |
| ☐ Ports – Land within Port of Brisbane's port limits (below high-water mark) ☐ SEQ development area |
| □ SEQ regional landscape and rural production area or SEQ rural living area – tourist activity or sport and |
| recreation activity |
| SEQ regional landscape and rural production area or SEQ rural living area – community activity |
| SEQ regional landscape and rural production area or SEQ rural living area – indoor recreation |
| SEQ regional landscape and rural production area or SEQ rural living area – urban activity |
| SEQ regional landscape and rural production area or SEQ rural living area – combined use |
| ☐ Tidal works or works in a coastal management district |
| Reconfiguring a lot in a coastal management district or for a canal |
| ☐ Erosion prone area in a coastal management district |
| ☐ Urban design |
| ☐ Water-related development – taking or interfering with water |
| ☐ Water-related development – removing quarry material (from a watercourse or lake) |
| ☐ Water-related development – referable dams |
| ☐ Water-related development –levees (category 3 levees only) |
| ☐ Wetland protection area |
| Matters requiring referral to the local government: |
| ☐ Airport land |
| Environmentally relevant activities (ERA) (only if the ERA has been devolved to local government) |

| ☐ Heritage places – Local heritage places | | |
|--|---|--|
| Matters requiring referral to the Chief Executive | | nission entity: |
| ☐ Infrastructure-related referrals — Electricity in | nfrastructure | |
| Matters requiring referral to: | | |
| The Chief Executive of the holder of the | | |
| • The holder of the licence, if the holder of | | |
| ☐ Infrastructure-related referrals – Oil and gas | infrastructure | |
| Matters requiring referral to the Brisbane City | Council: | • |
| ☐ Ports – Brisbane core port land | | |
| Matters requiring referral to the Minister respo | nsible for administering the <i>Transp</i> | oort Infrastructure Act 1994: |
| Ports - Brisbane core port land (where inconsis | stent with the Brisbane port LUP for transport re | easons) |
| ☐ Ports – Strategic port land | | |
| Matters requiring referral to the relevant port o | perator, if applicant is not port operat | tor: |
| ☐ Ports – Land within Port of Brisbane's port li | mits (below high-water mark) | |
| Matters requiring referral to the Chief Executiv | e of the relevant port authority: | |
| Ports – Land within limits of another port (bea | | |
| Matters requiring referral to the Gold Coast Wa | | |
| ☐ Tidal works or work in a coastal management | nt district (in Gold Coast waters) | |
| | | |
| Matters requiring referral to the Queensland Fi ☐ Tidal works or work in a coastal manageme | nt district (involving a marina (more than six | vessel herths)) |
| I Idai works of work in a coastal managemen | Tit district (mvolving a marina (more trial) and | |
| | | ation? |

| <u>Clearing native vegetation</u> |
|--|
| 23.3) Does this development application involve clearing native vegetation that requires written confirmation that the chief executive of the Vegetation Management Act 1999 is satisfied the clearing is for a relevant purpose under section 22A of the Vegetation Management Act 1999? |
| Yes – this development application includes written confirmation from the chief executive of the Vegetation Management Act 1999 (s22A determination) |
| No Note: 1. Where a development application for operational work or material change of use requires a s22A determination and this is not included, the development application is prohibited development. 2. See https://www.qld.gov.au/environment/land/vegetation/applying for further information on how to obtain a s22A determination. |
| Environmental offsets |
| 23.4) Is this development application taken to be a prescribed activity that may have a significant residual impact on a prescribed environmental matter under the Environmental Offsets Act 2014? |
| Yes – I acknowledge that an environmental offset must be provided for any prescribed activity assessed as having a significant residual impact on a prescribed environmental matter |
| No Note: The environmental offset section of the Queensland Government's website can be accessed at www.qid.gov.au for further information on environmental offsets. |
| Koala habitat in SEQ Region |
| 23.5) Does this development application involve a material change of use, reconfiguring a lot or operational work which is assessable development under Schedule 10, Part 10 of the Planning Regulation 2017? |
| ☐ Yes – the development application involves premises in the koala habitat area in the koala priority area |
| Yes – the development application involves premises in the koala habitat area outside the koala priority area |
| No Note: If a koala habitat area determination has been obtained for this premises and is current over the land, it should be provided as part of this development application. See koala habitat area guidance materials at www.des.gld.gov.au for further information. |
| |
| Water resources |
| |
| Water resources 23.6) Does this development application involve taking or interfering with underground water through an artesian or subartesian bore, taking or interfering with water in a watercourse, lake or spring, or taking overland flow water under the Water Act 2000? ☐ Yes − the relevant template is completed and attached to this development application and I acknowledge that a relevant authorisation or licence under the Water Act 2000 may be required prior to commencing development |

7.2 Local plan codes

7.2.1 Cape Tribulation and Daintree Coast local plan code

7.2.1.1 Application

- (1) This code applies to assessing development within the Cape Tribulation and Daintree Coast local plan area as identified on the Cape Tribulation and Daintree Coast local plan maps contained in Schedule 2.
- (2) When using this code, reference should be made to Part 5.

7.2.1.2 Context and setting

Editor's note - This section is extrinsic material under section 15 of the Statutory Instruments Act 1992 and is intended to assist in the interpretation of the Cape Tribulation and Daintree Coast local plan code.

The Cape Tribulation and Daintree Coast local plan area is located in the northern half of the Douglas Shire on land located predominantly to the north and east of the Daintree River. The local plan area contains land of extremely high biodiversity value and is where two World Heritage areas meet – the Wet Tropics World Heritage Area and the Great Barrier Reef World Heritage Area. The precinct is a biodiversity hotspot of international significance and predominantly consists of the Daintree National Park and other reserves. The local plan area provides significant habitat for the critically endangered Southern Cassowary, amongst many other species of fauna and flora and cultural and landscape heritage sites.

The natural environment, containing areas of the highest biodiversity value and flora and fauna unique to the area, are part of the immense drawcard to large numbers of domestic and international visitors. While such an economic resource is invaluable to the Shire, the area needs to be carefully managed to ensure these values are not diminished. However, a significant portion of the local plan area is privately owned freehold land and outside the boundaries of the Wet Tropics World Heritage Area, but is still equally important to the continued conservation of the biodiversity, environmental and scenic values of the area.

Prior to European settlement, the area formed part of the traditional land of the Eastern Kuku Yalanji people. In the late 1800s, limited European settlement commenced associated with timber getting and agriculture. From the 1920s onwards seasonal workers and miners also set up semi-permanent camps in the area. However such activity was restricted due to the relative isolation of the area. The settlement pattern in the area dramatically changed in the late 1970s to 1980s when approximately 950 residential lots were created. The 'rural residential style' allotments north of the Daintree River posed a risk of significant detrimental impacts on the ecology and landscape character of the area, particularly if fully developed. Such development would also result in a greater resident population leading to pressure for an increased level of service and extension of infrastructure, which in turn would lead to more development pressure. Such an outcome is contrary to the objectives of preserving the area's natural environment, landscape character and relative isolation to maintain the area's intrinsic attractiveness to tourists and residents.

Past successive planning regimes have progressively proceeded to rein in development rights within the area. Precincts were created and development was limited. In particular, decisive action was undertaken in 2004 to control and limit permanent residential development north of the Daintree River. This was necessary to ensure a critical population was not reached, and adverse effects from development were not felt on the water quality, biodiversity, scenic amenity and flora and fauna of the region.

Where development rights were extinguished, compensation was paid and / or land was bought as part of a buy-back scheme and retained for conservation purposes. The protection of the regional ecosystem and rare and threatened species is paramount in the limitation of development opportunities within the region.

7.2.1.3 Purpose

(1) The purpose of the Daintree River - Bloomfield River local plan is to retain the attraction of the area as a very low-key, largely undeveloped nature-based recreation environment, based on

the exploration and appreciation of the natural environment and to ensure that any development that does occur is appropriate and does not place additional pressures on the values of area.

- (2) The purpose of the code will be achieved through the following overall outcomes:
 - (a) areas within the local plan are appropriately managed to protect biological diversity, water catchment quality, ecological functioning, beach protection and coastal management, scenic amenity, and historical and cultural values;
 - (b) the natural character of the locality is protected, and where degraded, restored or enhanced;
 - (c) new development does not occur, with the exception of development located within, and consistent with the respective precinct intents for:
 - (i) Precinct 1 Conservation precinct
 - (ii) Precinct 2 Low impact residential precinct;
 - (iii) Precinct 3 Low impact commercial precinct;
 - (iv) Precinct 4 Low impact community purpose precinct;
 - (v) Precinct 5 Low impact rural production and tourism enterprise precinct;
 - (vi) Precinct 6 Low impact tourism accommodation precinct;
 - (d) where development occurs it is:
 - very low scale and remains within the limits imposed by the vehicular capacity of the Daintree River ferry crossing, the Alexandra Range road crossing and the local road network;
 - (ii) sensitive and sympathetic to its remote location in an area of unique biodiversity, ecological, conservation and scenic amenity value;
 - (iii) self-contained through the use of appropriate on-site or nearby rain water collection and storage, sewerage treatment and electricity generation;
 - (e) adequate services and facilities for settlement areas and an appropriate level of economic opportunity for local residents are provided

7.2.1.4 Precinct 1 - Conservation precinct

- (1) The purpose of Precinct 1 as detailed on the Local Plan maps contained in Schedule 2 is to provide for the protection, restoration and management of areas identified as supporting significant biological diversity and ecological integrity.
- (2) The overall outcomes sought for Precinct 1 are to:
 - (a) ensure the conservation, protection and restoration of biological diversity and ecological integrity values of land, and to maintain scenic amenity values;
 - (b) ensure that further incompatible development, including houses, does not occur;
 - (c) ensure that where development does occur, it does not adversely affect environmental and scenic amenity values and is in keeping with the natural characteristics of the land.

7.2.1.5 Precinct 2- Low impact residential precinct

- (1) The purpose of Precinct 2 as detailed on the Local Plan maps contained in Schedule 2 is to allow for the construction of a single detached dwelling and necessarily associated infrastructure and outbuildings.
- (2) The overall outcomes sought for Precinct 2 are to:
 - (a) ensure development is for a single detached dwelling of limited scale and size and necessary outbuildings and infrastructure only;
 - (b) locate development within existing cleared areas, or where no cleared area exists, development is located such that impacts on conservation, biological, ecological and scenic amenity values are mitigated through the minimisation of excavation, fill and vegetation removal, to the maximum extent possible;

(c) ensure development is visually non-obtrusive.

7.2.1.6 Precinct 3 - Low impact commercial precinct

- (1) The purpose of Precinct 3 as detailed on the Local Plan maps contained in Schedule 2 is to recognise the existing commercial uses and permit their continued use.
- (2) The overall outcomes sought for Precinct 3 are to:
 - (a) ensure that low impact commercial uses are appropriately located;
 - (b) locate development within existing cleared areas, or where no cleared area exists, development is located such that impacts on conservation, biological, ecological and scenic amenity values are mitigated through the minimisation of excavation, fill and vegetation removal, to the maximum extent possible;
 - (c) carry out development in accordance with an Environmental Management Plan;
 - (d) ensure development is visually non-obtrusive.

7.2.1.7 Precinct 4 - Low impact community purpose precinct

- (1) The purpose of Precinct 4 as detailed on the Local Plan maps contained in Schedule 2 is to recognise the existing public purpose uses and permit their continued use.
- (2) The overall outcomes sought for Precinct 4 are to:
 - ensure the establishment and expansion of community and public purpose uses such as child care centre, community use, educational establishment, health care services, outdoor sport and recreation, utility installation on appropriate sites within the precinct;
 - (b) locate development within existing cleared areas or where no cleared area exists, development is located such that impacts on conservation, biological, ecological and scenic amenity values are mitigated through the minimisation of excavation, fill and vegetation removal, to the maximum extent possible
 - (c) services are provided which are appropriate and adequately cater for the demand;
 - (d) carry out development in accordance with an Environmental Management Plan;
 - (e) ensure development is visually non-obtrusive.

7.2.1.8 Precinct 5 - Low impact rural production and tourist enterprise precinct

- (1) The purpose of Precinct 5 as detailed on the Local Plan maps contained in Schedule 2 is to recognise existing rural areas and permit their continued use, while encouraging low-impact tourism enterprise including bed and breakfast, short term accommodation (being farm stay accommodation) and nature based tourism (being forest stay accommodation) as an alternative land use, where significant restoration and/or rehabilitation measures are undertaken as an incentive.
- (2) The overall outcomes sought for Precinct 5 are to:
 - (a) provide for continued rural production activities where lawfully established and to permit low-key ancillary tourism enterprise such as farm attractions, roadside stalls in appropriate locations;
 - (b) provide for other tourism enterprise in the form of bed and breakfast, farm stay accommodation or forest stay accommodation as an alternative land use to primary production, where significant rehabilitation of habitat is achieved.
 - (c) facilitate other existing tourism enterprises based on the appreciation of the natural environment.
 - (d) ensure development, including waste treatment is limited to existing cleared areas;
 - (e) development, including primary production, is carried out in accordance with an Environmental Management Plan.

7.2.1.9 Precinct 6 - Low impact tourism accommodation precinct

- (1) The purpose of Precinct 6 as detailed on the Local Plan maps contained in Schedule 2 is to recognise existing small-scale tourist accommodation and ancillary low-key activities, based on and compatible with an appreciation of the natural environment and permit their continued use.
- (2) The overall outcomes sought for Precinct 6 are to:
 - (a) provide for continued small-scale tourist accommodation and ancillary low-key activities, based on and compatible with an appreciation of the natural environment in appropriate locations;
 - (b) ensure development, including treatment of waste, is confined to existing cleared areas;
 - (c) carry out development in accordance with an Environmental Management Plan;
 - (d) ensure development is visually non-obtrusive.

7.2.1.10 Criteria for assessment

Table 7.2.1.10.a - Cape Tribulation and Daintree Coast local plan - assessable development

| ntree Coast local plan area AO1 No acceptable outcomes are prescribed. |
|---|
| Water storage is provided in tank/s with a minimum capacity to service the proposed use, including fire fighting capacity, and access to the tank/s for fire trucks. Tank/s are to be: (a) fitted with a 50mm ball valve and camlock fitting; (b) installed and connected prior to occupation; (c) sited so as to be visually unobtrusive. AO2.2 Water storage tanks are to be fitted with screening at their inlets to prevent the intrusion of leaves and insects. AO2.3 An environmentally acceptable and energy efficient power supply is constructed, installed and connected prior to occupation and sited so as |
| to be screened from the road. AO3 No acceptable outcomes are prescribed. |
| AO4.1 If groundwater is to be used, development is limited to one bore per site and the bore is: not located within 100 metres of a septic disposal trench (on the site or adjoining sites); |
| |

| All development in the Cape Tribulation and Da | intree Coast local plan area | |
|---|--|--------|
| | AO4.2 Surface water is to be used for domestic purposes only. | 1.1 |
| PO5 Development does not adversely impact on areas of sensitive natural vegetation, foreshore areas, watercourses and/or areas of tidal inundation. | AO5 No acceptable outcomes are prescribed. | M. At |
| PO6 Development is subservient to the surrounding natural environment in scale and intensity and is designed to be functional in a humid tropical rainforest environment. | AO6.1 The exterior finishes and colours of buildings are non-reflective and complement the colours of the surrounding vegetation and view shed. | Rt Tor |
| rainiorest environment. | AO6.2 The noise of generators is controlled by design, or the generator is enclosed within a sound insulated building with a residential approved muffler. The noise level generated is less than 65 dBA when measured from a distance of 7 metres. | Cor |
| | AO6.3 Any fuel storage associated with an on-site generator, with storage of 20 litres or more of fuel, is enclosed with a building and provided with a bund. | N, |
| PO7 Landscaping of the development ensures that the endemic character of the local area is dominant. | AO7.1 Landscaping complies with the requirements of Planning Scheme Policy 7 – Landscaping; | 1 |
| | AO7.2 All of the existing landscaping to be retained and all of the proposed landscaping is 100% endemic or native species and the details are provided on a landscape plan. | r |
| PO8 Site access driveways and roads within the local plan area are retained as safe, slow speed, scenic drives. | AO8.1 Site access driveways and existing or proposed roads comply with the relevant requirements of Planning Scheme Policy 5 – FNQROC Development Manual and are maintained as low speed gravel roads to maintain the scenic drive experience and to discourage the use of roads by through-traffic; | |
| | AO8.2 Where existing roads/tracks are 4-wheel drive only, upgrading to facilitate conventional vehicles and an increase in through traffic does not occur. | p |
| PO9 The on-site impacts on natural flow regimes and erosion and sedimentation are minimised. | AO9.1 Filling and excavation is kept to a minimum and involves not more than 5% of the cleared area of the lot. | n |
| | AO9.2 All exposed surfaces must incorporate erosion and sediment controls during construction and must be maintained until revegetation, or other permanent stabilisation, has occurred. | n |

| All development in the Cape Tribulation and Da | nintree Coast local plan area | |
|---|---|--|
| | AO9.3 This is no disturbance to tree roots and trenching does not involve any damage to tree roots. | |
| | AO9.4 On-site drainage and stormwater management: (a) maintains natural flow regimes; (b) minimises impervious surfaces; (c) avoids concentration of flows, but where there is any form of concentration of flow, energy dissipation measures are installed at the outlet to avoid erosion (e.g. rock rip rap, gravel beds, diffusers etc.) | M () / 5 |
| General requirements – Dwelling house | | |
| PO10 Development minimises the loss of vegetation and habitat connectivity on site and is sited to protect the environmental values of the site. | AO10.1 The elements of development and access to the site are included in a Designated Development Area (DDA). | |
| | AO10.2 Development is sited in an existing cleared area or in an area approved for vegetation clearing. | |
| | AO10.3 Any new clearing is limited to a maximum area of 700m2 and is sited to be clear of the high bank of any watercourse. Note—The 700m² of clearing does not include an access driveway. | |
| PO11 All existing native vegetation on a house site, other than that required and approved to be cleared for the construction of a house and access thereto, is protected to ensure the environmental integrity of the local plan area. | AO11 No acceptable solutions are prescribed. | * |
| PO12 Wildlife movement, fauna habitat and habitat corridors are protected and domestic impacts are minimised. | AO12.1 Fences are limited in extent to the confines of the cleared area around the house and any associated gates are self-closing. | ļ. |
| | AO12.2 External lighting is to be kept to the minimum necessary for orientation, safety and security. Flood lights must not point up, and areas of retained vegetation should, in general, not be illuminated. Where appropriate, outdoor lights are controlled by movement detectors and/or timers. | A PARAGRAPHY A PAR |
| PO13 House sites have efficient and safe vehicle access and manoeuvring areas on site, and to the site, to an acceptable standard for the local | AO13.1 Vehicle access is limited to one access per lot and sited in an approved location, clear of any watercourses. | (|
| plan area. | AO13.2 Vehicular access is a maximum width of 4 metres, avoids large tree specimens and/or significant vegetation and habitat corridors and is | , |

DOUGLAS SHIRE PLANNING SCHEM

constructed and maintained to a minimum gravel standard of 75mm of road base on a compacted soil surface.

COMPLICS

AO13.3

Vehicular access is constructed prior to house construction.

Additional requirements for Nature based tourism, being Forest stay accommodation

All development in the Cape Tribulation and Daintree Coast local plan area

Forest stay accommodation provides a local economic opportunity for permanent residents of those parts of the Shire which are isolated and constrained by a lack of urban services and facilities.

AO14

Forest stay accommodation:

- (a) is confined to:
 - (i) Precinct 2 Low impact residential precinct;
 - (ii) Precinct 5 Low impact rural and tourism enterprise precinct;
 - (iii) Precinct 6 Low impact tourism accommodation precinct.
- (b) does not occur above the 60 metre contour;
- (c) is located on lots of 10 hectares or greater.

PO15

Forest stay accommodation remains ancillary to the primary residential use and the natural values of the land and the use is compatible with the character and amenity of the locality.

The maximum number of gusts is 10 (10 bed spaces) with up to a maximum of 4 staff (4 bed spaces);

Note - Staff includes permanent residents of the dwelling house involved in catering for the use.

AO15.2

None of the accommodation, whether for guests or staff, is self-contained as the use operates only in association with an existing dwelling on the site.

Forest stay accommodation is located on a site which has an existing cleared area.

The natural values of the balance area of the site are protected and enhanced with organised tours being conducted for visiting guests.

AO15.5

If forest stay accommodation is provided in buildings which are separate from the dwelling:

(a) the maximum number of separate building/s is determined based on each building containing a minimum of 2 bed spaces each, provided that each building has a maximum area of 50m² (inclusive of verandahs/patios etc.);

(b) a maximum of one communal bunkhouse is provided with a maximum area of 150m2 to accommodate 10 guests (10 bed spaces) (inclusive of verandahs/patios etc.);

| All development in the Cape Tribulation and Dai | ntree Coast local plan area |
|--|---|
| | |
| | or (c) a maximum of two communal bunkhouses are provided with a maximum area of 150m ² each to accommodate a maximum of 20 guests (20 bed spaces) (inclusive of verandahs/patios etc). |
| | AO15.6 No kitchen or cooking facilities, with the exception of those located within the existing dwelling on the site are provided in association with the forest stay accommodation. |
| PO16 Development ensures guests are accommodated for short-stay and the dwelling is not the usual residence of the guest. | AO16 Development involves guests staying a maximum of 14 consecutive nights. |
| PO17 Development ensures that effluent disposal and treatment minimise odour and impacts on the natural environment. | AO17 Development provides an on-site effluent treatment system that is adequately sized to effectively treat effluent from the dwelling house and any additional persons occupying the premises as guests. |
| Additional requirements for Precinct 1 – Conse | vation precinct |
| PO18 The biodiversity value of the area and the habitat of endemic species is protected on land included in the Rainforest Conservation precinct. | AO18 No new development occurs whether on undeveloped or developed land except for: Undeveloped land that meets one or more of the following criteria: |
| | Land which has been previously been lawfully cleared and currently remains cleared; (a) Land which is the subject of a current Clearing Permit, but has yet to be cleared; (b) Land which is subject of a current Operational Works Permit, |
| | can be developed for a house subject to compliance with all relevant codes. |
| | In addition, minor extensions can be undertaken to an existing development, provided: |
| | (a) The extensions are limited to 30% of the existing gross floor area of the house at the commencement date of the planning scheme. |
| | or (b) The extent of extensions are determined on a site specific/use specific basis for other land uses, |
| | and (c) No further clearing is required to accommodate the extensions for either a house or any other land use development. |

Additional requirements for Precinct 2- Low impact residential precinct

All development in the Cape Tribulation and Daintree Coast local plan area

PO19

Development is for;

- (a) a detached dwelling of limited size and scale and necessary outbuildings and infrastructure;
- (b) home occupations, including bed and breakfast accommodation, where it can be demonstrated that the bed and breakfast accommodation can establish on the site and not detrimentally impact on the scenic values of the site and surrounding areas;
- (c) Nature based tourism, being Forest stay accommodation where in compliance with other requirements contained within this code.

AO19.1

Development is limited to one dwelling house per lot

AO19.2

Establishment of bed and breakfast accommodation only occurs on land on which a dwelling house has been approved and constructed.

AO19.3

Bed and breakfast accommodation is limited to cleared areas on the land;

or

AO19.4

Bed and breakfast accommodation is established within an existing house, where there is no additional vegetation clearing required to accommodate the use;

AO19.5

Bed and breakfast accommodation occurs on a site with a minimum area of 1 hectare, and thereafter occurs at a rate of 1 bedroom (2 beds) per hectare, up to a maximum of 4 bedrooms (8) beds per site.

AO19.6

Development is setback a minimum of 100 metres to an Esplanade or a foreshore frontage.

Additional requirements for Precinct 3 – Low impact commercial precinct

2020

Commercial development is located in a convenient location and meets the requirements of the local community and visitors to the area.

AO20

Commercial development is located within Precinct 3 and has frontage to Cape Tribulation Road.

PO21

Development is small scale and provides a necessary service to the surrounding community.

ΔΩ21

No acceptable outcomes are prescribed.

PO22

Development is carried out in accordance with a site-specific, and development specific Environmental Management Plan.

AO22

No acceptable outcomes are prescribed.

Note — Planning scheme policy SC6.4 — Environmental management plans provides further guidance on meeting the performance outcome.

Additional requirements for Precinct 4 – Low impact community purpose precinct

PO23

Development results in a small scale expansion of an existing use which provides a necessary service to the surrounding community;

AO23

No acceptable outcomes are prescribed.

6.2.3 Conservation zone code

6.2.3.1 Application

- (1) This code applies to assessing development in the Conservation zone.
- (2) When using this code, reference should be made to Part 5.

6.2.3.2 Purpose

- (1) The purpose of the Conservation zone code is to provide for the protection, restoration and management of areas identified as supporting significant biological diversity and ecological integrity.
- (2) The local government purpose of the code is to:
 - (a) implement the policy direction set in the Strategic Framework, in particular:
 - (i) Theme 2: Environmental and landscape values, Element 3.5.2 Aboriginal cultural heritage values, Element 3.5.3 Biodiversity, Element 3.5.3 Coastal zones.
 - (ii) Theme 3 Natural resource management, Element 3.6.2 Land and catchment management.
 - (iii) Theme 4 Strong communities and identity, Element 3.7.8 Strengthening indigenous communities.
 - (b) conserve and maintain the integrity of biodiversity values, wildlife, habitats and other significant ecological assets and processes over time, across public and private lands.
- (3) The purpose of the code will be achieved through the following overall outcomes:
 - (a) Biological diversity, ecological integrity and scenic amenity are protected;
 - (b) Any recreational or other uses of areas that are in the control of the Crown, or the Council, such as reserves, national parks and the Wet Tropics World Heritage Area or areas adjacent to these areas, are consistent with the management plans of the controlling authority so that conservation and scenic values of these areas are not adversely affected;
 - (c) Any use of land in private ownership does not affect the environmental, habitat, conservation or scenic values of that land or surrounding area;
 - (d) Any low intensity facilities based on the appreciation of the natural environment or nature based recreation only establish where there is a demonstrated need and provided they have a minimal impact on the environmental and scenic amenity values of the site or surrounding area.
 - (e) The provisions of the Return to Country Local Plan facilitate economic and social opportunities on traditional Indigenous lands;
 - (f) Further lot reconfigurations other than amalgamations, boundary realignments to resolve encroachments, or for the practical needs of essential community infrastructure, or to facilitate Return to Country outcomes do not occur.

6.2.3.3 Criteria for assessment

Table 6.2.3.3.a - Conservation zone - assessable development

| Performance outcomes | Acceptable outcomes | Applicant response |
|--|---|---------------------------------|
| For assessable development | | |
| PO1 The establishment of uses is consistent with the outcomes sought for the Conservation zone and protects the zone from the intrusion of inconsistent uses. | AO1 Uses identified in Table 6.2.3.3.b are not established in the Conservation zone. | Complies |
| PO2 The height of buildings is compatible with the character of the area and does not adversely affect the amenity of the area. | AO2 Buildings and structures are not more than 8.5 metres in height and two storeys. Note - Height is inclusive of roof height. | 3m- Comptres |
| PO3 Development is setback from site boundaries so they are screened from view from the boundaries of adjoining properties and adjoining roads to maintain the scenic values of the area. | Buildings and structures are setback not less than: (a) 40 metres from the frontage of a State-controlled road, existing or proposed arterial road, existing or proposed sub-arterial road, as identified on the Transport network overlay maps contained in Schedule 2; (b) 25 metres from Cape Tribulation Road frontage; (c) 20 metres from any other road frontage (d) 10 metres from side and rear boundaries. | 50m to side barday (outplies |
| PO4 The site coverage of all buildings and structures does not have an adverse effect on the conservation or scenic amenity values of the site and surrounding area and buildings are subservient to the natural environment. | AO4 Development is sited in an existing cleared area or an area approved for clearing, but which is not yet cleared until a development permit to carry out Building Works is issued. Any clearing is limited to a maximum area of 700m² and is sited clear of the high bank of any watercourse. Note – The 700m² area of clearing does not include an access driveway. | Comples |
| PO5 Development is consistent with the overall outcomes sought for the Conservation zone. | AO5 No acceptable outcomes are prescribed. | Comptes |

| Performance outcomes | Acceptable outcomes | Applicant response |
|---|--|--|
| PO6 Development complements, and is subservient to the surrounding environment and is in keeping with the ecological, landscape and scenic values of the area. | AO6 The exterior finishes and colours of all development are non-reflective and consist of colours that blend easily with surrounding native vegetation and view-shed. | TIMBER FRAME SHED MINIMAL WALLS (GREEN TIN) ROOF IS WHITE BUT NOT UISIBLE FROM KMY NEIGHBOOR OR PUBLIC ARREAS. |
| PO7 Development is screened from view from adjoining roads and properties with a dense screen of endemic/native landscape which: (a) is informal in character and complementary to the existing natural environment; (b) provides screening; (c) enhances the visual appearance of the development. Note – Planning scheme policy – Landscaping provides further guidance on meeting the performance outcome. | AO7.1 For any development, the balance area of the site not built upon, including all setback areas must be landscaped/revegetated with dense three tier, endemic planting which is maintained to ensure successful screening is achieved. AO7.2 Endemic palm species, where used, are planted as informal accent features and not as avenues and not in a regular pattern. | BALLEL ARCA IS EXISTING LAWFULLY ESTABLISHED ORCHARID. |
| P08 Development is complementary to the surrounding environment. | AO8.1 Development harmonises with the surrounding environment, for example, through suspended, light-weight construction on sloping sites, which requires minimal excavation or fill. | comPhIES |
| | AO8.2 A driveway or parking areas are constructed and maintained to: (a) minimise erosion, particularly in the wet season; (b) minimise cut and fill; (c) follow the natural contours of the site; (d) minimise vegetation clearing. | COMPLIES |
| | AO8.3 Buildings and structures are erected on land not exceeding a maximum gradient of 1 in 6 (16.6%). or | egal?LIES |

| | Assentable autoomes | Applicant response |
|---|--|--------------------|
| Performance outcomes | On land steeper than 1 in 6 (16.6%) gradient: (a) A split level building form is utilised; (b) A single plane concrete slab is not utilised; (c) Any voids between building and ground level, or between outdoor decks and ground level are screened from view using lattice/battens and/or landscaping. and (d) is accompanied by a Geotechnical Report prepared by a qualified engineer at development application stage which includes certification that the site can be stabilised, followed by a certificate upon completion of works. AO8.4 Buildings and structures are sited below any ridgelines and are sited to avoid protrusion above the surrounding tree-level canopy. | EDMILICS . |
| PO9 Development is located to: (a) protect the ecological values of the site and surrounding land; (b) maintain the scenic values of the area; (c) maintain appropriate setbacks to waterways, watercourses, wetlands, tidal areas and overland flow paths; (d) avoid areas that are vulnerable to natural hazards; (e) minimise to the greatest extent possible on site excavation and filling; (f) provide buffers to cultural, historical or ecological features; (g) minimise visibility from external sites or public viewing points; (h) minimises to the greatest extent possible the loss of native vegetation and fauna habitat. | AO9 No acceptable outcomes are prescribed. | 2001216S |

| Performance outcomes | Acceptable outcomes | Applicant response |
|---|---|--------------------|
| PO10 Development does not result in adverse impacts on: (a) ecological function or features; (b) on-site or surrounding waterways and wetlands. | AO10 No acceptable outcomes are prescribed. | COMPLIES |
| PO11 Rehabilitation of natural processes on disturbed sites is undertaken to improve the environmental integrity of the area. | AO11 No acceptable outcomes are prescribed | COMPLIES |
| PO12 Fencing is designed to not impede the free movement of native fauna through the site. | AO12 No acceptable outcomes are prescribed. | eom?LIES |
| PO13 New lots contain a minimum lot size of 200 hectares, unless: (a) the lot reconfiguration results in no additional lots (e.g. amalgamation, boundary realignments); (b) the reconfiguration is limited to one additional lot to accommodate an existing or approved: (i) Telecommunications facility; (ii) Utility installation; (c) the lot reconfiguration facilitates and outcome consistent with the Return to Country local plan. Note – Boundary realignments must result in an improved environmental outcome or resolve encroachments. | AO13 No acceptable outcomes are prescribed. | COMIPLIES. |

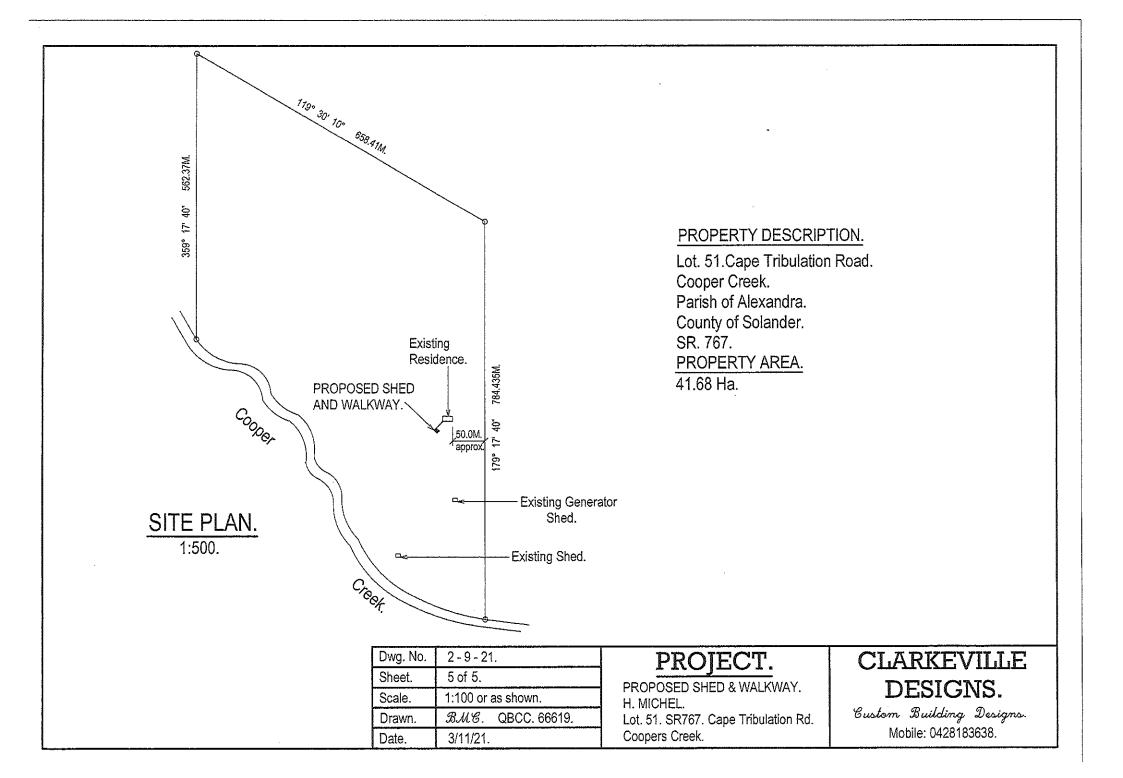

Table 6.2.3.3.b - Inconsistent uses within the Conservation zone
