This form **must** be used to make a development application **involving building work**.

For a development application involving **building work only**, use this form (DA Form 2) only. The DA Forms Guide provides advice about how to complete this form.

For a development application involving **building work associated and any other type of assessable development** (i.e. material change of use, operational work or reconfiguring a lot), use DA Form 1 – Development application details and parts 4 to 6 of this form (DA Form 2).

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).

APPENDIX B – Assessment Against the Planning Scheme

Assessment under Douglas Shire Planning Scheme Rural Residential Zone Code

It is acknowledged that the proposal does not comply with the following provisions of the Douglas Shire Planning Scheme:

- Rural Residential Zone Code AO2 in that the shed is proposed to be setback 10m from the front road boundary

The purpose of the Rural residential zone code is to provide for rural residential development on large lots where infrastructure and services may not be provided on the basis that the intensity of development within the zone is dispersed.

The local government purpose of the code is to:

- implement the policy direction set in the Strategic Framework, in particular:
 - Theme 1 : Settlement pattern, Element 3.4.6 – Rural residential areas, Element 3.4.7 – Mitigation of hazards.
 - Theme 2 : Environment and landscape values, Element 3.5.5 – Scenic amenity. (iii) Theme 6 : Infrastructure and transport, Element 3.9.2 – Energy, Element 3.9.3 – Water and waste management.
- provide for dwellings on lots generally larger than 4000m² ;
- provide protection to areas of ecological significance and scenic amenity significance where present.

The purpose of the code will be achieved through the following overall outcomes:

- Development is predominantly for detached dwelling houses on large lots catering for hobby-farm living requiring limited infrastructure and services.
- Development preserves the environmental, scenic amenity and topographical features of the land by integrating an appropriate scale of residential activities among these features.
- Development provides a high level of residential amenity.
- Development provides for the safe use of on-site wastewater treatment systems for effluent disposal with systems designed for varied soil type, slopes and prolonged periods of wet weather.

The following table represents an assessment of the proposal with respect to the Douglas Shire Council Rural Residential Zone Code, PO2.

Performance Criteria	Acceptable Solutions	Compliance
PO2 Buildings and structures are setback to maintain the rural residential character of the area and achieve separation from buildings on adjoining properties.	AO2 Buildings are setback not less than: <ol style="list-style-type: none"> 40 metres from a property adjoining a State controlled road; a minimum of 25 metres from the property boundary adjoining Cape Tribulation Road; 20 metres from front boundaries; 6 metres from side and rear property boundaries. 	Due to the slope of the land increasing at a distance of 20m from the road boundary, the shed is proposed to be situated 10m from the frontage to avoid deep cuts and significant vegetation removal. The shed has been orientated in line with the natural contours of the land to further reduce the need for cuts. The location of the shed will not adversely affect the character of the area as adjoining buildings located on both adjoining lots (lot 104/SR125 and lot 3/RP746466)

Performance Criteria	Acceptable Solutions	Compliance
		are located between 9m and 11m from the road frontage.

Amenities and Aesthetics

Under the Douglas Shire Planning Scheme, Section 1.7.4 it is declared that building work within the Hillslopes overlay may have extreme adverse effect on the amenity, or the likely amenity, or the locality of be in extreme conflict with the character of the locality. Where building work is proposed within the Hillslope overlay, the development must be assessed by Council against the Hillslope Overlay Code.

The purpose of the Hillslopes overlay code is to:

- a) implement the policy direction in the Strategic Framework, in particular:
 - a. Theme 1 - Settlement pattern: Element 3.4.7 Mitigation of hazards;
 - b. Theme 2 – Environment and landscape values: Element 3.5.5 Scenic amenity.
- b) enable an assessment of whether development is suitable on land within the Hillslopes sub-categories

The purpose of the code is achieved through the following overall outcomes;

- a) development on hillslopes is safe, serviceable and accessible;
- b) the ecological values, landscape character and visual quality of the hillslopes are protected from development so as to retain the scenic backdrop to the region;
- c) Development on hillslopes is appropriate, having regard to the topographic constraints and environmental characteristics of the land;
- d) Development responds to the constraints of the site including gradient and slope stability;
- e) Works do not involve complex engineering solutions.

The following table represents an assessment of the proposal with respect to the Hillslopes Overlay Code.

Performance Criteria	Acceptable Solutions	Compliance
PO1 The landscape character and visual amenity quality of hillslopes areas is retained to protect the scenic backdrop to the region.	AO1.1 Development is located on parts of the site that are not within the Hillslopes constraint subcategory as shown on the Hillslopes overlay Maps contained in schedule 2.	The development is located within the Hillslopes overlay area, however, it can be shown that the proposal can achieve the purpose of the code.
PO2 The landscape character and visual amenity quality of hillslopes areas is retained to protect the scenic backdrop to the region.	AO2.1 Development does not occur on land with a gradient in excess of 1 in 6 (16.6%) or AO2.2 Where development on land steeper than 1 in 6 (16.6%) cannot be avoided, development follows the natural contours of the site AO2.3	The slope of the land increasing at a distance of 20m from the road boundary. Within 20m of the road boundary, the land has a gentle slope of less than 1 in 6. The colour of the colorbond shed is to be Gully 

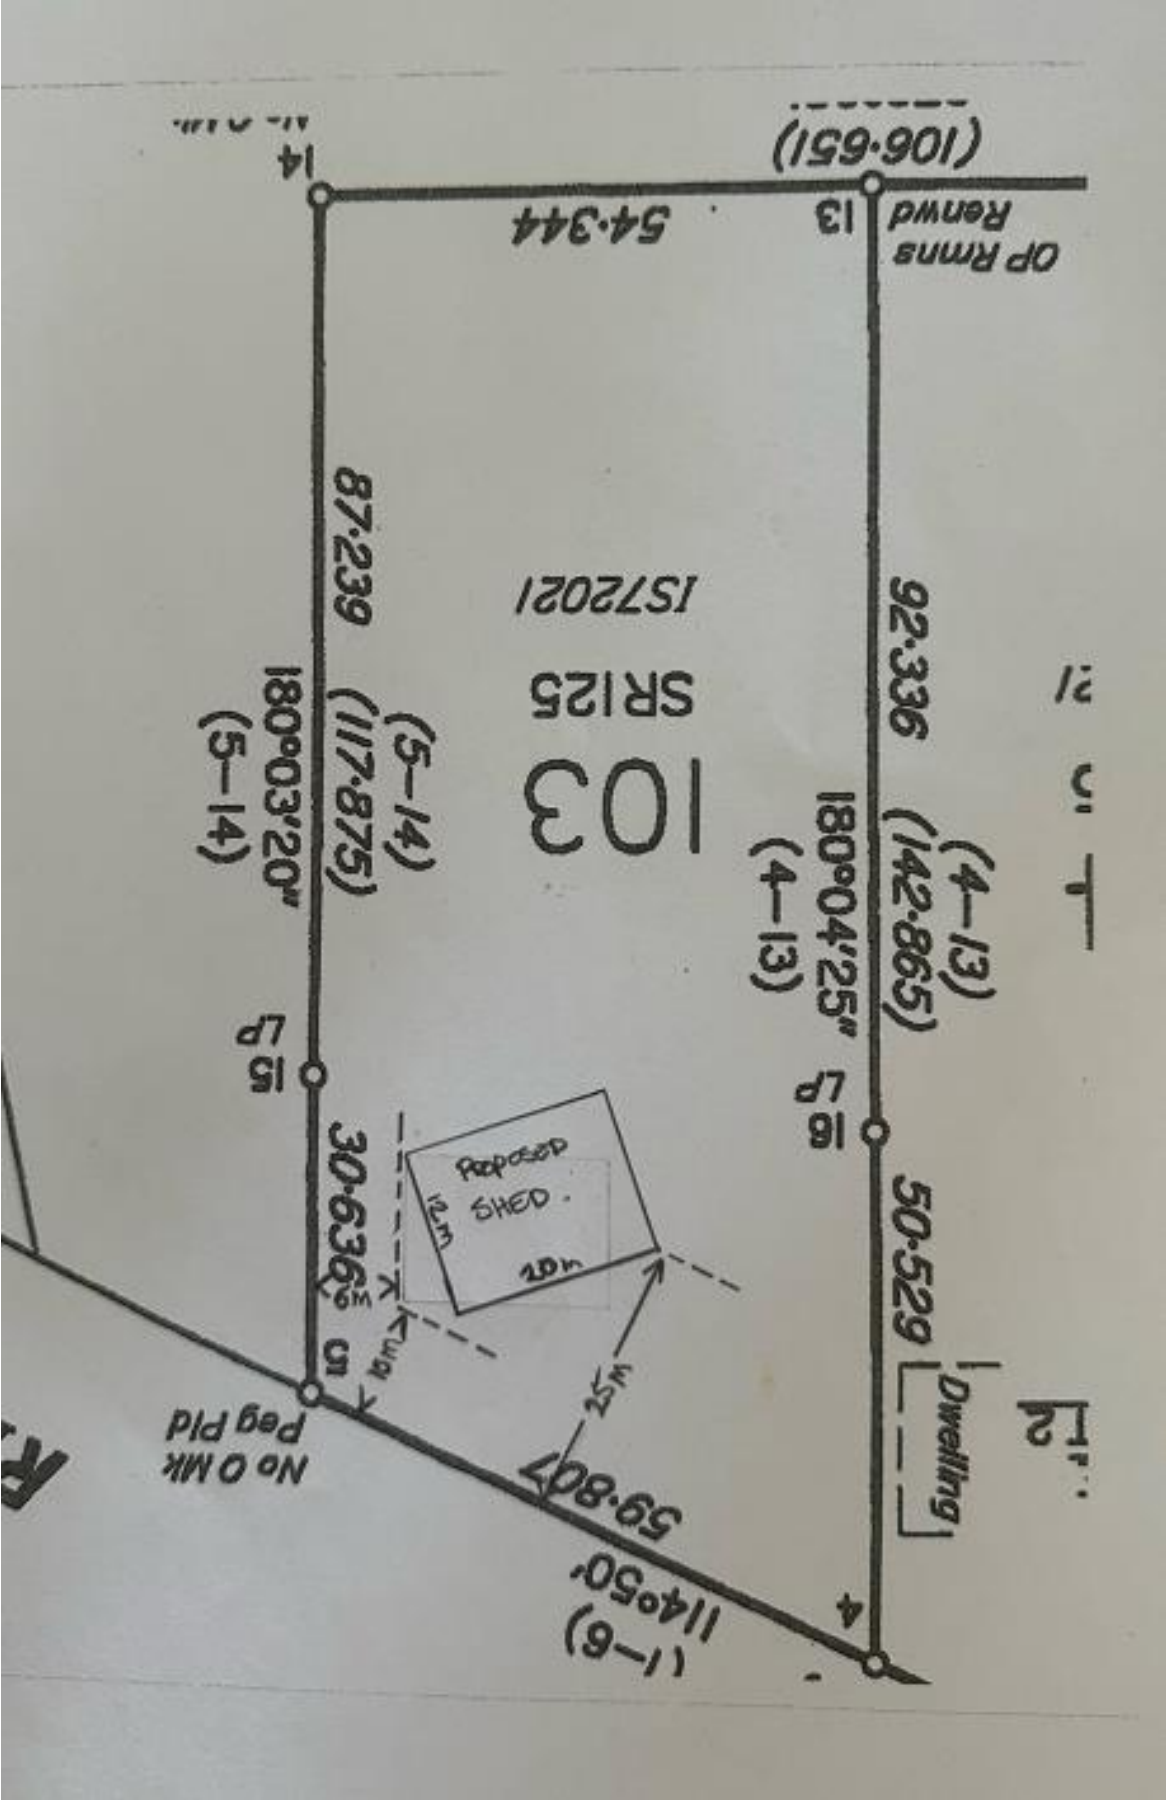

Performance Criteria	Acceptable Solutions	Compliance
	<p>Access ways and driveways are:</p> <ul style="list-style-type: none"> a) constructed with surface materials that blend with the surrounding environment; b) landscaped with dense planting to minimise the visual impact of the construction; c) provided with erosion control measures immediately after construction. <p>AO2.4</p> <p>The clearing or disturbance of vegetation is limited to clearing and disturbance that:</p> <ul style="list-style-type: none"> a) is necessary for the construction of driveways; b) is necessary to contain the proposed development; c) minimises canopy clearing or disturbance; d) minimises riparian clearing or disturbance. <p>AO2.5</p> <p>On land with slopes greater than 1 in 6 (16.6%) or greater, alternative construction methods to concrete slab on ground are utilised (i.e. split level or post and beam constructed buildings that minimise modification to the natural terrain of the land).</p> <p>AO2.6</p> <p>Development does not alter the sky line.</p> <p>AO2.7</p>	<p>No vegetation removal, other than up to 3 trees located within and around the building envelope area, is proposed. The landowner is proposing to plant a thick vegetation corridor along the front of the lot to reduce the view of the shed from the road should Council deem landscaping appropriate.</p>

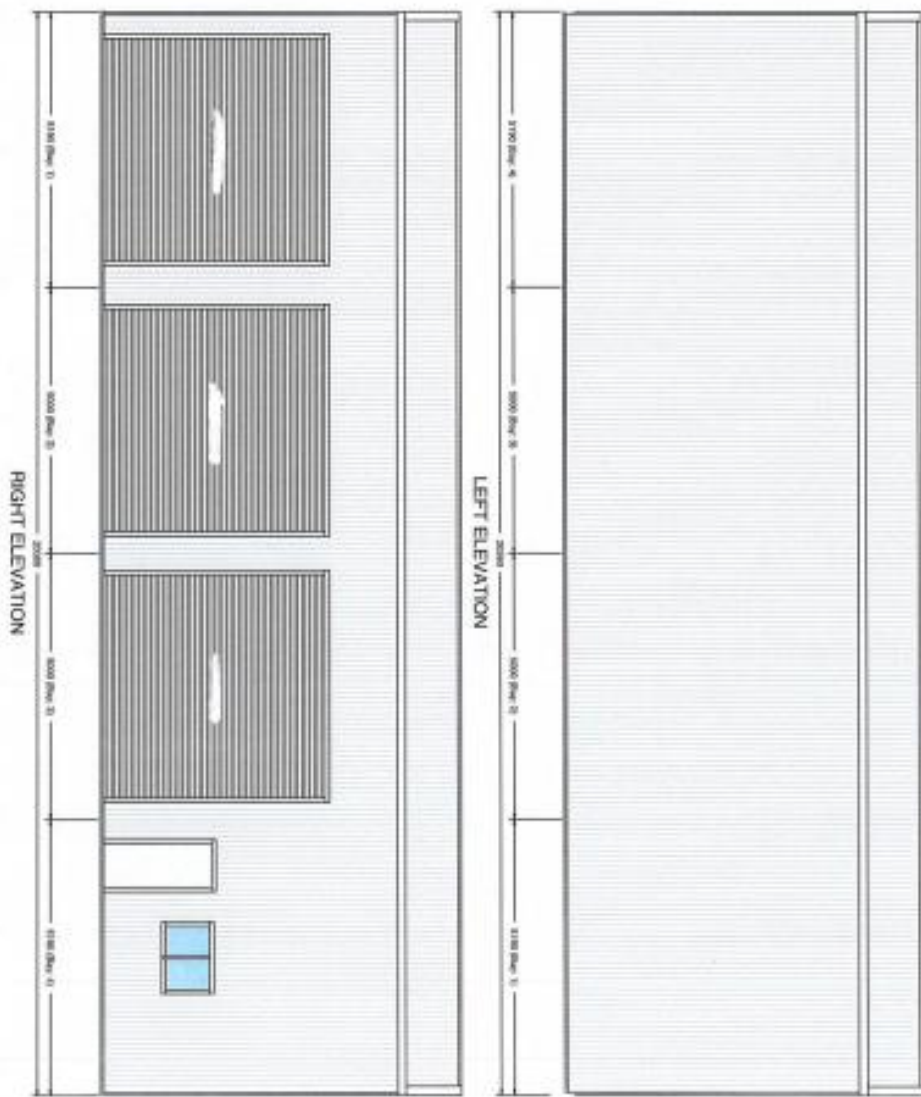

Performance Criteria	Acceptable Solutions	Compliance
	<p>Buildings and structures:</p> <ul style="list-style-type: none"> a) are finished predominantly in the following exterior colours or surfaces: <ul style="list-style-type: none"> (i) moderately dark to darker shades of olive green, brown, green, blue, or charcoal; or (ii) (ii) moderately dark to darker wood stains that blend with the colour and hues of the surrounding vegetation and landscape; b) are not finished in the following exterior colours or surfaces: <ul style="list-style-type: none"> (i) pastel or terracotta colours, reds, yellows, shades of white or beige, or other bright colours that do not blend with the surrounding vegetation and landscape; (ii) reflective surfaces. <p>AO2.8</p> <p>Exterior colour schemes limit the use of white or other light colours to exterior trim and highlighting of architectural features</p> <p>AO2.9</p> <p>Areas between the first floor (including outdoor deck areas) and ground level are screened from view</p>

	<p>AO2.10</p> <p>Recreational or ornamental features (including tennis courts, ponds or swimming pools) do not occur on land:</p> <ul style="list-style-type: none"> a) with a gradient of 1 in 6 (16.6%) or more; b) are designed to be sited and respond to the natural constraints of the land and require minimal earthworks. 	
<p>PO3</p> <p>Excavation or filling does not have an adverse impact on the amenity, safety, stability or function of the site or adjoining premises through:</p> <ul style="list-style-type: none"> a) loss of privacy; b) loss of access to sunlight; c) intrusion of visual or overbearing impacts; d) complex engineering solutions 	<p>AO3</p> <p>Excavation or fill:</p> <ul style="list-style-type: none"> a) is not more than 1.2 metres in height for each batter or retaining wall; b) is setback a minimum of 2 metres from property boundaries; c) is stepped with a minimum 2 metre wide berm to incorporate landscaping in accordance with Planning scheme policy SC6.7 – Landscaping; d) does not exceed a maximum of 3 batters and 3 berms (i.e. not greater than 3.6 metres in height) on any one lot. 	<p>Due to the location of the shed being situated on land with a gentle slope of less than 1 in 6, cuts and fills required will be less than 1.2m and more than 4m from any boundary.</p>
