DA Form 1 – Development application details

Approved form (version 1.3 effective 28 September 2020) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving only building work.

For a development application involving **building work only**, use *DA Form 2 – Building work details*.

For a development application involving **building work associated with any other type of assessable development** (i.e. material change of use, operational work or reconfiguring a lot), use this form (*DA Form 1*) and parts 4 to 6 of *DA Form 2 – Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).

d) Provide a brief description of the proposal (e.g. 6 unit apartment building defined as multi-unit dwelling, reconfiguration of 1 lot into 3 lots):
To remove trees, close to the neighbour's house, which were dead and covered in vines (within 5-10 metres of a house) The neighbours were in agreement on the day and where will replant. Most of the area was grass and the aerial photo originally supplied by the council is outdated, as most of the trees were not their when we purchased the property – below in section e is an updated version. None the less we want to clean up the area for replanting native plants and rescreen for privacy and reduce property damage during storms. In addition, we have terraces that mainly had grass also however crumbling and we have had to stabilise the lower level, by rock and during this process removed, old concreting, which was alo crumbling and vegetation to protect our driveway and improve stability. Last of all trees at the house and carparking area, have been removed due to house at risk of damage within 10 metres of house. These trees every storm have major branches falling and considering the proximity to our house, cars and where we enter our house, I feel in places people / pets at risk of injury or property damage. e) Relevant plans
Note: Relevant plans are required to be submitted for all aspects of this development application. For further information, see <u>DA Forms guide:</u> Relevant plans.
X Relevant plans of the proposed development are attached to the development application. Please find below the updated ariel photo where the grass areas were at time of purchase and also red areas we have removed vegetation/trees.
