**Advice Agency Response**

**Response to Development Application**

The lot is within 100m of Conservation Estate. The Department of Environment and Resource Management, acting as an advice agency under the *Integrated Planning Act 1997*, provides the following advice to the application as detailed above.

**Department of Environment and Resource Management advice**

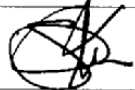

The application is for the reconfiguration of Lot 11 on SP 188690 (1.06ha) at 114 to 120 South Arm Drive, Wonga Beach, into two lots. The property has a small (less than 10% of its area) strip of remnant vegetation along its western boundary that is mapped as 'not of concern' Regional Ecosystem and estuarine wetland.

From the photos and the Site Plan provided, it appears that the reconfiguration can be achieved with minimal adverse impacts on the wetlands. Should Cairns Regional Council approve the application it should be conditional on the greatest possible set back from the wetland for any infrastructure built on proposed Lot 10.

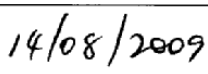

**Additional information for applicants**

It is a requirement of the *Environmental Protection Act 1994* that if the owner or occupier of this site becomes aware that a Notifiable Activity (as defined under Schedule 2 of the *Environmental Protection Act 1994*) is being carried out on this land or that the land has been affected by a hazardous contaminant, they must, within thirty (30) days after becoming aware the activity is being carried out, give notice to the Department of Environment and Resource Management. A list of Notifiable Activities is provided within Schedule 2 of the *Environmental Protection Act 1994*.

Yours sincerely
