Assessment Manager Conditions & Advices

1. Carry out the approved development generally in accordance with the approved drawing(s) and/or document(s), and in accordance with:
 - (a) The specifications, facts and circumstances as set out in the application submitted to Council; and
 - (b) The following conditions of approval and the requirements of Council's Planning Scheme and the FNQROC Development Manual.

Except where modified by these conditions of approval

Timing of Effect

2. The conditions of the Development Permit must be effected prior to Commencement of Use, except where specified otherwise in these conditions of approval.

Building Colours

3. The exterior finishes and colours of the facility must be non-reflective and must blend with the natural colours of the surrounding environment. Colours must be endorsed by the Chief Executive Officer prior to the issue of a Development Permit for Building Work.

Landscaping Plan

4. The site must be landscaped in accordance with details included on a Landscaping Plan. The Landscaping Plan must detail the following:
 - (a) A ten (10) metre wide planting buffer separating the bottling facility and the common boundary to Lot 180 on C157273 having regard to Planning Scheme Policy SC6.7-Landscaping;
 - (b) Planting of setback areas immediately in front of the facility on the hillslope separating the facility and Upper Daintree Road;

(c) A species list detailing all proposed vegetation types to be used.

One A3 copy of the landscape plan must be endorsed by the Chief Executive Officer prior to the issue of a Development Permit for Building Work. Landscaped areas must be maintained at all times to the satisfaction of the Chief Executive Officer.

Acoustic Report / Attenuation Measures

5. The development application material advised that the proposed use can utilise acoustic, noise attenuated building design measures to mitigate noise produced by plant. A noise impact assessment report prepared by a suitably qualified and experienced acoustic engineer must be prepared to demonstrate the affect of reasonable and practicable measures proposed to be implemented to minimise the impact of noise on the existing acoustic environment of the surrounding dwelling houses and demonstrate compliance with condition 6 below. The acoustic report must;

- (a) investigate potential noise impacts on sensitive land uses external to the site, namely the dwelling houses neighbouring the site;
- (b) establish the noise profile of the locality;
- (c) detail the generation of noise associated with all noise emitting plant to be used;
- (d) detail proposed attenuation treatments to the building with building plans;
- (e) any other matters considered relevant by the acoustic engineer to ensure the proposed development does not unduly impact on neighbouring or surrounding properties.

The acoustic report must be submitted and endorsed by the Chief Executive Officer prior to the issue of a Development Permit for Building Work.

Acoustic Report / Noise Emissions

6. Average maximum noise level (L_{max,T}) of plant must not exceed at an affected building:
- Day (7am to 6pm): Background noise level L_{90,T} + 5 dBA (with the exemption of reverse signals from machinery and plant).
 - Night (6pm to 7am): No audible noise.

Attenuation Measures for Machinery and Service Truck

7. Machinery and trucks used at the facility which are required to be fitted with reversing signal equipment must be fitted with a directional broadband noise emitter or another non-auditory alarm signal rather than a tonal reversing beeper, to the satisfaction of the Chief Executive Officer.

Hours of Operation

8. Hours of operation are limited to between 7am and 6pm daily.

Rate of Production

9. No more than 200 tonnes per annum of beverage can be produced at the facility.

Vehicle Parking and Access

10. A minimum of three (3) car parking spaces must be provided at the facility. The car parking layout must comply with the Australian Standard AS2890.1 2004 Parking Facilities – off-street car parking and Australian Standard AS2890.6. In addition, all parking and vehicular maneuvering areas must be imperviously sealed, drained and line marked. The parking area must be provided prior to the issue of a Certificate of Classification or commencement of use, whichever occurs first. The access driveway can be constructed with a finished treatment of gravel but must not cause a dust nuisance to surrounding properties.

Erosion and Sediment Control

11. All earthworks must be carried out in accordance with section CP1.13 and D5 of the FNQROC Development Manual and must comply with the following:
 - (a) Measures nominated in the ESCP must be implemented prior to commencement of any earthworks.

Refuse Storage

13. Refuse storage is required to service the site in accordance with Council requirements.

Operational Works

14. The construction of the facility triggers the requirement for a Development Permit for Operational Works given the earthwork required to establish a pad for the facility. Raw Water Purchase Agreement

15. Enter into a commercial agreement with Council for the purchase of up to 10,000 litres per day of raw water from the Daintree water intake. The agreement must bind the applicant to pay a rate for raw water to be used as part of the operation of the water bottling facility.

Access Crossover

16. Provide an access crossover in accordance with standard drawing S1105D from the FNQROC Development Manual.

Heavy Vehicle Movements

17. No more than one body truck or heavy vehicle movement to and from the facility is permitted per day.

Reasons for Decision

The reasons for this decision are:

Sections 60, 62 and 63 of the *Planning Act 2016*:

to ensure the development satisfies the benchmarks of the 2018 Douglas Shire Planning Scheme Version 1.0; and

to ensure compliance with the *Planning Act 2016*.

Findings on material questions of fact:

- a) the development application was properly lodged to the Douglas Shire Council 30 September 2019 under section 51 of the *Planning Act 2016* and Part 1 of the *Development Assessment Rules*;
- b) the development application contained information from the applicant which Council reviewed together with Council's own assessment against the 2017 State Planning Policy and the 2018 Douglas Shire Planning Scheme Version 1.0 in making its assessment manager decision.

Evidence or other material on which findings were based:

- a) the development triggered assessable development under the Assessment Table associated with the Rural zone;
- b) Council undertook an assessment in accordance with the provisions of sections 60, 62 and 63 of the *Planning Act 2016*; and
- c) the applicant's reasons have been considered and the following findings are made:

Subject to conditions, the development satisfactorily meets the Planning Scheme benchmarks.

Extracts from the Planning Act 2016 - Making Representations During Applicant's Appeal Period

Planning Act 2016
Chapter 3 Development assessment

[s 74]

Division 2 Changing development approvals

Subdivision 1 Changes during appeal period

74 What this subdivision is about

- (1) This subdivision is about changing a development approval before the applicant's appeal period for the approval ends.
- (2) This subdivision also applies to an approval of a change application, other than a change application for a minor change to a development approval.
- (3) For subsection (2), sections 75 and 76 apply—
 - (a) as if a reference in section 75 to a development approval were a reference to an approval of a change application; and
 - (b) as if a reference in the sections to the assessment manager were a reference to the responsible entity; and
 - (c) as if a reference in section 76 to a development application were a reference to a change application; and
 - (d) as if the reference in section 76(3)(b) to section 63(2) and (3) were a reference to section 83(4); and
 - (e) with any other necessary changes.

75 Making change representations

- (1) The applicant may make representations (*change representations*) to the assessment manager, during the applicant's appeal period for the development approval, about changing—
 - (a) a matter in the development approval, other than—
 - (i) a matter stated because of a referral agency's response; or

-
- (ii) a development condition imposed under a direction made by the Minister under chapter 3, part 6, division 2; or
 - (b) if the development approval is a deemed approval—the standard conditions taken to be included in the deemed approval under section 64(8)(c).
 - (2) If the applicant needs more time to make the change representations, the applicant may, during the applicant's appeal period for the approval, suspend the appeal period by a notice given to the assessment manager.
 - (3) Only 1 notice may be given.
 - (4) If a notice is given, the appeal period is suspended—
 - (a) if the change representations are not made within a period of 20 business days after the notice is given to the assessment manager—until the end of that period; or
 - (b) if the change representations are made within 20 business days after the notice is given to the assessment manager, until—
 - (i) the applicant withdraws the notice, by giving another notice to the assessment manager; or
 - (ii) the applicant receives notice that the assessment manager does not agree with the change representations; or
 - (iii) the end of 20 business days after the change representations are made, or a longer period agreed in writing between the applicant and the assessment manager.
 - (5) However, if the assessment manager gives the applicant a negotiated decision notice, the appeal period starts again on the day after the negotiated decision notice is given.

76 Deciding change representations

- (1) The assessment manager must assess the change representations against and having regard to the matters that

- must be considered when assessing a development application, to the extent those matters are relevant.
- (2) The assessment manager must, within 5 business days after deciding the change representations, give a decision notice to—
 - (a) the applicant; and
 - (b) if the assessment manager agrees with any of the change representations—
 - (i) each principal submitter; and
 - (ii) each referral agency; and
 - (iii) if the assessment manager is not a local government and the development is in a local government area—the relevant local government; and
 - (iv) if the assessment manager is a chosen assessment manager—the prescribed assessment manager; and
 - (v) another person prescribed by regulation.
 - (3) A decision notice (a *negotiated decision notice*) that states the assessment manager agrees with a change representation must—
 - (a) state the nature of the change agreed to; and
 - (b) comply with section 63(2) and (3).
 - (4) A negotiated decision notice replaces the decision notice for the development application.
 - (5) Only 1 negotiated decision notice may be given.
 - (6) If a negotiated decision notice is given to an applicant, a local government may give a replacement infrastructure charges notice to the applicant.
