## FNQROC Regional Development Manual Standard Drawing/s for Vehicle Access

\*OPTIONS 1 TO 6 REQUIRE SPECIFIC COUNCIL APPROVAL

Option 1: 12.5% Ramp  
NTS

Design Considerations

Positives:

- To improve vehicle clearances (helpful with steeper verges)

Negatives:

- Less smooth transition for vehicles.
- Minor noise increase
- Minor blockage risk - not suitable where there is excessive vegetation matter present
- Slight reduction in road shoulder, stormwater, flow capacity
- Potential obstruction/hazard to non-vehicle users

Option 4: 100mm channel at kerb invert  
NTS

Design Considerations

Positives:

- To improve vehicle clearances (helpful with steep shoulder crossfalls)

Negatives:

- Proximity of pedestrian footpaths may restrict crossover lengths.

Option 2: Extended access crossover similar to  
FNQROC standard drawing S1015  
NTS

Design Considerations

Positives:

- To improve vehicle clearances (helpful with steeper verges)

Negatives:

- Less smooth transition for vehicles.
- Minor noise increase.

Option 3: 40mm lip at kerb invert  
NTS

Design Considerations

Positives:

- Improve vertical vehicle clearance where there is a significant difference in height between road shoulder and property levels.
- Grates make for easier clearance of debris

Negatives:

- Less smooth transition for vehicles.
- Minor noise increase
- Minor blockage risk
- Significant reduction in road shoulder, stormwater, flow capacity (potentially only suitable for extremely wide shoulders)
- Medium blockage risk

Option 5: Grated vehicle crossing  
NTS

Design Considerations

Positives:

- Improve vertical vehicle clearance where there is a significant difference in height between road shoulder and property levels.

Negatives:

- Less smooth transition for vehicles.
- Minor blockage risk
- Significant reduction in road shoulder, stormwater, flow capacity (potentially only suitable for extremely wide shoulders)
- Medium blockage risk

Option 6: RCBC with 30mm  
asphalt overlay over culvert  
NTS

NOTES

- All reinforcing for options 1-4 to be as per sheet 1 for relevant crossing type.
- Option 5 & 6 - refer project specific drawings for structural details.
- All modified treatment options to have vertical vehicle template checks to comply with AS2890.1 (Vehicle B85 or B99 as applicable)
- Consideration of impacts on stormwater flooded widths by selected option to be assessed by project engineer for compliance with minor & major stormwater events
- Modified treatments for constrained applications on this drawing require an application to council and a specific site approval by council.
- Options 1 to 6 generally provide increasing complexity and interference/loss of amenity to road users, therefore higher level options are considered less desirable by council and will not be accepted without reasonable consideration and assessment of the lower level options.
- The development application to council proposing the selected access crossover treatment design shall include:
  - Documented design drawings
  - Justification in writing for the selected higher level treatment options
  - Reasons why simpler lower level treatments and the standard treatment not be adopted
- Justification of the selected higher level treatment option shall include design considerations of the following where relevant:
  - Location, function, road geometry, road hierarchy and posted speed limit
  - Obstruction and hazard presented to all road users including vehicles, cyclists and pedestrians
  - Obstruction to stormwater drainage including risk of flooding of traffic lanes
  - Potential for debris to block stormwater flow
  - Roadway and stormwater channel maintenance and cleaning
  - Safety of roadway access and egress for crossover users
  - Adequate and safe vertical vehicle clearance

## Division 2 Changing development approvals

### Subdivision 1 Changes during appeal period

#### 74 What this subdivision is about

- (1) This subdivision is about changing a development approval before the applicant's appeal period for the approval ends.
- (2) This subdivision also applies to an approval of a change application, other than a change application for a minor change to a development approval.
- (3) For subsection (2), sections 75 and 76 apply—
  - (a) as if a reference in section 75 to a development approval were a reference to an approval of a change application; and
  - (b) as if a reference in the sections to the assessment manager were a reference to the responsible entity; and
  - (c) as if a reference in section 76 to a development application were a reference to a change application; and
  - (d) as if the reference in section 76(3)(b) to section 63(2) and (3) were a reference to section 83(4); and
  - (e) with any other necessary changes.

#### 75 Making change representations

- (1) The applicant may make representations (*change representations*) to the assessment manager, during the applicant's appeal period for the development approval, about changing—
  - (a) a matter in the development approval, other than—
    - (i) a matter stated because of a referral agency's response; or

- (ii) a development condition imposed under a direction made by the Minister under chapter 3, part 6, division 2; or
- (b) if the development approval is a deemed approval—the standard conditions taken to be included in the deemed approval under section 64(8)(c).
- (2) If the applicant needs more time to make the change representations, the applicant may, during the applicant's appeal period for the approval, suspend the appeal period by a notice given to the assessment manager.
- (3) Only 1 notice may be given.
- (4) If a notice is given, the appeal period is suspended—
  - (a) if the change representations are not made within a period of 20 business days after the notice is given to the assessment manager—until the end of that period; or
  - (b) if the change representations are made within 20 business days after the notice is given to the assessment manager, until—
    - (i) the applicant withdraws the notice, by giving another notice to the assessment manager; or
    - (ii) the assessment manager gives the applicant the decision notice for the change representations; or
    - (iii) the end of 20 business days after the change representations are made, or a longer period agreed in writing between the applicant and the assessment manager.
- (5) If the applicant makes the change representations during the appeal period without giving a notice under subsection (2), the appeal period is suspended from the day the representations are made until—
  - (a) the applicant withdraws the change representations by notice given to the assessment manager; or
  - (b) the assessment manager gives the applicant the decision notice for the change representations; or

- (c) the end of 20 business days after the change representations are made, or a longer period agreed in writing between the applicant and the assessment manager.
- (6) Despite subsections (4) and (5), if the decision notice mentioned in subsection (4)(b)(ii) or (5)(b) is a negotiated decision notice, the appeal period starts again on the day after the negotiated decision notice is given.

## 76 Deciding change representations

- (1) The assessment manager must assess the change representations against and having regard to the matters that must be considered when assessing a development application, to the extent those matters are relevant.
- (2) The assessment manager must, within 5 business days after deciding the change representations, give a decision notice to—
  - (a) the applicant; and
  - (b) if the assessment manager agrees with any of the change representations—
    - (i) each principal submitter; and
    - (ii) each referral agency; and
