1.0 INTRODUCTION

MD Land Surveys have been engaged by Jake Norris, Jamie Crane and JCN Vision Pty Ltd (the Owners and Applicants) to prepare a Development Application for a Reconfiguration of a Lot (Boundary Realignment - 3 Lots into 3 Lots) on land located at 284 Whyanbeel Road, Whyanbeel, being properly described as Lot 50 on SP219625, Lot 51 on SP219625 and Lot 5 on RP708494 (collectively referenced as the subject site).

The purpose of the Boundary Realignment is to rationalise the existing landholdings in response to natural boundaries created through gazetted access tenures (Road Reserves). The amended boundaries will result in the realignment of Lot boundaries in such a manner that Lots will no longer be segregated by the existing Road Reserves. Following the proposed Boundary Realignment, the amended Lots will have areas of 3.35 ha (Lot 5), 17.06 ha (Lot 51) and 72.81 ha (Lot 50).

Under the Douglas Shire Planning Scheme 2018, the applicable Planning Scheme, the subject site is mapped as being within the Rural Zone and furthermore, is affected by the Acid Sulfate Soils, Bushfire Hazard, Flood and Storm, Hillslopes, Landscape Values, Natural Areas and Transport Road Hierarchy Overlays. An application for a Reconfiguring a Lot, when comprising a Boundary Realignment within the Rural Zone, is Code Assessable. Neither a Referral to the State or Public Notification is required.

This Development Application is made in accordance with Section 51 of the *Planning Act 2016* and contains the mandatory supporting information specified in the applicable DA Form 1, included in *Appendix A – DA Form 1* and *Appendix B – Title Search's*.

This Report provides a review of the subject site, a detailed description of the proposed development, a review of the legislative provisions and an assessment of the proposed development against the relevant provisions the Planning Scheme.

Based on the planning assessment completed, it is presented to Council that the proposed development achieves the overarching objectives specified within the Planning Scheme and is therefore dutifully recommended for approval, subject to the imposition of reasonable and relevant Conditions.

2.0 THE SUBJECT SITE

The subject site presents as three (3) Lots located in Whyanbeel, within the bounds of Douglas Shire Council. The overarching nature of the local area is primary production comprising Sugarcane cultivation and low-intensity cattle grazing. Details of the subject site are provided in Table 1.

Table 1: The subject site.

Site Location / Address	284 Whyanbeel Road, Whyanbeel
Lot Description	Lot 50 on SP219625 Lot 51 on SP219625 Lot 5 on RP708494
Site Area	Lot 50 on SP219625 – 42.53 ha Lot 51 on SP219625 – 32.49 ha Lot 5 on RP708494 - 20.88 ha
Road Frontages	Lot 50 on SP219625 – 409.8 m Lot 51 on SP219625 – 217.9 m Lot 5 on RP708494 – 767 m
Easements, Encumbrances or Interests	Nil

The Title Searches confirming ownership of the subject land by Jake Norris, Jamie Crane and JCN Vision Pty Ltd are included in *Appendix B*. The Title Searches also identify that there are no encumbrances or interests over the subject site. A copy of the Survey Plans are also included in *Appendix B – Title Search*. Figure 1 below identifies the subject site.

Figure 1: Aerial Image of the Site (highlighted in blue) – image source Queensland Globe

3.0 THE PROPOSED DEVELOPMENT

3.1 SUMMARY OVERVIEW

The Applicants jointly seek approval via a Development Permit for a Reconfiguration of a Lot (Boundary Realignment - 3 Lots into 3 Lots).

3.2 THE PROPOSED BOUNDARY REALIGNMENT

The particulars for the proposed Boundary Realignment are shown in Table 2, with the Proposal Plan contained in *Appendix C – Proposal Plan*.

The overarching purpose of the proposed Boundary Realignment is to rationalise the existing freehold Lots in response to natural boundaries created by Road Reserves. In their current configuration, the Lots are either fully or partially dissected by Road Reserve, resulting in an inefficient distribution of Titles.

As demonstrated by the Proposal Plan, the proposed Lot boundaries correlate with the existing primary use of the subject site, being for the cultivation of Sugarcane. The amended boundaries align with existing paddock layouts and thus therefore support the ongoing use of the subject site for primary production purposes. Boundaries that correlate with natural features such as waterways have not been amended by the Boundary Realignment and remain unchanged.

Table 1: The proposed reconfiguration of a Lot.

Attribute	Lot 5	Lot 50	Lot 51
Proposed Lot Area	3.35 ha	72.81 ha	17.06 ha
Proposed Road Frontage	157.5 m	611.40 m	627.7 m
Improvements	Unchanged between all Lots		
Underlying Use	Sugarcane Cultivation (unchanged)		
Easements	Nil	Nil	Nil
Services and Infrastructure	Unchanged between both Lots.		

4.0 LEGISLATIVE REQUIREMENTS

4.1 PLANNING ACT 2016

The *Planning Act 2016* (PA) is the principal legislation that governs planning and development in the State of Queensland. The PA provides a framework for Local and State Governments to prepare statutory planning instruments and provides a process by which development applications are assessed, including who the applicable Assessment Manager is.

4.1.1 ASSESSABLE DEVELOPMENT

Under the local categorising instrument, the Planning Scheme, a Reconfiguration of a Lot for a Boundary Realignment within the Rural Zone is assessable development. Pursuant to section 44(3) of the PA, a Development Permit is therefore required.

4.1.2 ASSESSMENT MANAGER

The Assessment Manager for this application is Douglas Shire Council as determined by Schedule 8 of the *Planning Regulation 2017*.

4.1.3 LEVEL OF ASSESSMENT

The subject site is mapped as being within the Rural Zone. Under the Planning Scheme, an application for a Reconfiguring a Lot in the Rural Zone, when realigning boundaries, is Code Assessable.

4.1.4 PUBLIC NOTIFICATION

As the Development Application is Code Assessable, the application does not need to be publicly notified.

4.1.5 REFERRAL AGENCIES

A review of the Development Assessment Mapping System (DAMS) and Schedule 10 of the *Planning Regulations 2017* confirms there are no applicable State Referral matters relevant to the subject site. The DAMS search is provided in *Appendix D – DAMS Mapping*.

Notwithstanding the mapped Regulated Vegetation and Waterway for Waterway Barrier Works it is noted that the proposed Boundary Realignment does not propose a new boundary through a mapped State value and therefore, does not require a Referral to be made.

4.1.6 STATE PLANNING POLICY

The State Planning Policy (SPP) contains the State Interest Policies and Assessment Benchmarks which are applicable to the development. As noted in Section 2.1 of the Planning Scheme, the Minister has identified that all applicable state interests within the SPP have been integrated into the Planning Scheme.

Consideration and assessment against the relevant assessment benchmarks prescribed within the SPP is not required as these matters are integrated within the Planning Scheme. Accordingly, compliance with the assessment benchmarks prescribed within the Planning Scheme demonstrates compliance with the SPP requirements.

4.1.7 FAR NORTH QUEENSLAND REGIONAL PLAN

Pursuant to Section 2.2, the Far North Queensland (FNQ) Regional Plan has been appropriately integrated into the Strategic Framework of the Planning Scheme.

5.0 PLANNING SCHEME REQUIREMENTS

5.1 DOUGLAS SHIRE PLANNING SCHEME

The Douglas Shire Planning Scheme 2018, Version 1.0 is the applicable Local Categorising Instrument for the proposed development to be assessed against. The following sections of this Report provide an assessment of the proposed development against the relevant provisions of the Planning Scheme.

5.1.1 STRATEGIC FRAMEWORK ASSESSMENT

The development is subject to Code Assessment and therefore, in accordance with section 45(3) of the PA, assessment against the Strategic Framework of the Planning Scheme is not required. Furthermore, as the proposed development is Code Assessable, the Assessment Manager may only consider the assessment benchmarks prescribed within the applicable codes.

5.1.2 APPLICABLE PLANNING SCHEME CODES

In accordance with Planning Scheme, the subject site is subject to the designations listed in the Table below.

Table 3: Applicable Planning Scheme Codes

Zone	Rural Zone
Local Plans	Not Applicable
Overlays	
<i>Acid Sulfate Soils Overlay</i>	Land partly within 5m to 20m AHD
<i>Bushfire Hazard Overlay</i>	Land partly within High Potential Bushfire Intensity and Potential Impact Buffer
<i>Flood and Storm Overlay</i>	Partly within Floodplain Assessment Overlay
<i>Hillslopes Overlay</i>	Partly within Area Affected by Hillslopes
<i>Landscape Values Overlay</i>	Within High Landscape Values and Medium Landscape Values areas
<i>Landslide Overlay</i>	Partly within Potential Landslide Hazard Overlay
<i>Natural Areas Overlay</i>	Partly contains MSES – Regulated Vegetation; MSES – Wildlife Habitat
<i>Transport Network (Road Hierarchy)</i>	Whyanbeel Road – Major Rural Road
Development Codes	
<i>Access, Parking and Servicing Code</i>	Applies
<i>Environmental Performance Code</i>	Applies
<i>Filling and Excavation Code</i>	Applies
<i>Infrastructure Works Code</i>	Applies
<i>Landscaping Code</i>	Applies

<i>Reconfiguring a Lot Code</i>	Applies
<i>Vegetation Management Code</i>	Applies

5.1.3 CODE COMPLIANCE

A detailed assessment against the applicable Planning Scheme Codes is provided in *Appendix E – Planning Scheme Code Compliance Assessment*. A summary of the assessment is provided here forth.

A summary of the Code Compliance Assessment is provided in Table 4.

Table 4: Code Compliance Responses

APPLICABLE CODE	ASSESSMENT AGAINST CODE
ZONE CODE	
Rural Zone Code	<p>The proposed Boundary Realignment seeks to rationalise the existing Lots in relation to natural boundaries associated with Road Reserves. As no additional development is proposed, the relevant assessment benchmarks relating to built development and land uses do not apply.</p> <p>The proposed development complies in-full with the Rural Zone Code.</p> <p>Particular attention is noted toward PO7 of the Zone Code which relates to the creation of new Lots. The proposed Boundary Realignment does not create a new Lot, however, simply realigns Lot boundaries to respond to Road Reserves.</p>
OVERLAY CODES	
Acid Sulfate Soils Overlay Code	The proposed development is for a Boundary Realignment with no additional development proposed. No excavation or filling is proposed as part of the Boundary Realignment and therefore, the requirements of the Acid Sulfate Soils Overlay Code are largely not applicable.
Bushfire Hazard Overlay Code	The proposed development is for a Boundary Realignment with no additional development proposed. Notwithstanding the mapped Bushfire Hazard Risk, it is noted that the Boundary Realignment will not result in the placement of people or property at a higher degree of bushfire risk than what currently exists.
Flood and Storm Tide Hazard Overlay Code	Whilst it is acknowledged that the subject site in its partly is located within the Floodplain Assessment Area on the overlay mapping, the proposal does not seek to change land use or provide for any additional buildings or structures. The proposed Boundary Realignment will not adversely impact the functioning of the floodplain nor create any increased risk of personal or economic threats posed by flooding.
Hillslopes Overlay Code	Whilst it is acknowledged that parts of the subject site area mapped as being within a defined hillslopes area, the proposed development is for Boundary Realignment to rationalise the existing land holdings. The proposed Boundary Realignment will not result in an impact to the landscape character or visual amenity of the local area.
Landscape Values Overlay Code	The subject site is mapped as having parts of the land as High Landscape Value and Medium Landscape Value. The proposed development is for Boundary Realignment to rationalise the existing land holdings. The proposed Boundary Realignment will not impact on the landscape value of the local area.

Natural Areas Overlay Code	The existing land parcels are mapped as containing areas of MSES - Regulated Vegetation, MSES - Wildlife Habitat and MSES – Regulated Vegetation (Intersecting a Watercourse). The proposed development is for Boundary Realignment to rationalise the existing land holdings. Given that no vegetation clearing is proposed, the Boundary Realignment will not result in any significant impacts on identified environmental values within the subject site.
Potential Landslide Hazard Overlay Code	Whilst it is acknowledged that parts of the subject site are mapped as having potential landslide hazards, the proposed development is for Boundary Realignment to rationalise the existing land holdings. Accordingly, the proposed development is not expected to result in landslide hazards or put the safety of people, property or the environment at an elevated level of risk beyond what currently exists.
Transport Network Overlay Code	Vehicular access to the proposed allotments will be provided from the existing roads, using the existing access crossovers and arrangements. The proposed Boundary Realignment will not compromise the safety or efficiency of the existing transport network as no amendment to existing access arrangements will occur.
DEVELOPMENT CODES	
Access, Parking and Servicing Code	The proposed development is for a Boundary Realignment with no additional development proposed. Existing access arrangements will not change as a result of the Boundary Realignment. The existing access locations do not compromise the safety or efficiency of the existing transport network.
Environmental Performance Code	The proposed development is for a Boundary Realignment with no additional development proposed. As no development beyond the realignment of boundaries is proposed, there will be no impacts on sensitive environmental values within the adjacent receiving environment.
Filling and Excavation Code	The proposed development is for a Boundary Realignment with no additional development proposed. As no development beyond the realignment of boundaries is proposed, no excavation and/or filling will be undertaken. Therefore, the Development Code does not apply to the proposed development.
Infrastructure Code	The proposed development is for a Boundary Realignment with no additional development proposed. The existing arrangements for infrastructure will not be amended as a result of the Boundary Realignment. The proposed development therefore complies with the Development Code.
Landscaping Code	The provision of formalised landscaping is not required for a Boundary Realignment.
Reconfiguring a Lot Code	<p>The proposed development is for a Boundary Realignment with no additional development proposed. The Boundary Realignment will rationalise existing Freehold Lots by aligning boundaries to natural barriers created through Road Reserve.</p> <p>A Performance Outcome is sought in relation to PO1 of the Reconfiguring a Lot Code as the proposed Lots, particularly Lots 5 and 51 have a total area which does not comply with the requirements set out within the Rural Zone Code. Notwithstanding the non-compliance, it is noted that the Boundary Realignment results in a better distribution of land between Titles with neither Lot able to be increased in size due to the Road Reserve. Importantly, the underlying land use, being for primary production purposes, is not amended or impacted as a result of the Boundary Realignment.</p>

6.0 CONCLUSION

The Applicants are seeking a Development Permit for a Reconfiguration of a Lot (Boundary Realignment) on land located at 284 Whyanbeel Road, Whyanbeel, being properly described as Lot 50 on SP219625, Lot 51 on SP219625 and Lot 5 on RP708494.

This Report provides a detailed description of the proposed Boundary Realignment, identifies the relevant legislative requirements and provides an assessment against applicable Planning Scheme Codes. As noted in the Report, it is concluded through the Code Compliance assessment that the proposed Boundary Realignment complies with the applicable assessment benchmarks.

On behalf of the Owners and Applicants, MD Land Surveys submits that the proposed development warrants approval and the issuance of a Development Permit.

APPENDIX A

DA Form 1 – Development application details

Approved form (version 1.6 effective 2 August 2024) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving only building work.

For a development application involving **building work only**, use *DA Form 2 – Building work details*.

For a development application involving **building work associated with any other type of assessable development (i.e. material change of use, operational work or reconfiguring a lot)**, use this form (*DA Form 1*) and parts 4 to 6 of *DA Form 2 – Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).

PART 1 – APPLICANT DETAILS

1) Applicant details	
Applicant name(s) (individual or company full name)	Jake Norris, Jamie Crane, JCN Vision Pty Ltd
Contact name (only applicable for companies)	C/ MD Land Surveys
Postal address (P.O. Box or street address)	228 Draper Street
Suburb	Parramatta Park
State	Queensland
Postcode	4870
Country	Australia
Contact number	0402 806 016
Email address (non-mandatory)	erin@mdlandsurveys.com.au
Mobile number (non-mandatory)	N/A
Fax number (non-mandatory)	N/A
Applicant's reference number(s) (if applicable)	1931
1.1) Home-based business	
<input type="checkbox"/> Personal details to remain private in accordance with section 264(6) of <i>Planning Act 2016</i>	

2) Owner's consent	
2.1) Is written consent of the owner required for this development application?	
<input type="checkbox"/> Yes – the written consent of the owner(s) is attached to this development application	
<input checked="" type="checkbox"/> No – proceed to 3)	

PART 2 – LOCATION DETAILS

3) Location of the premises (complete 3.1) or 3.2), and 3.3) as applicable)

Note: Provide details below and attach a site plan for any or all premises part of the development application. For further information, see [DA Forms Guide: Relevant plans](#).

3.1) Street address and lot on plan

- ☒ Street address **AND** lot on plan (all lots must be listed), **or**
☐ Street address **AND** lot on plan for an adjoining or adjacent property of the premises (appropriate for development in water but adjoining or adjacent to land e.g. jetty, pontoon. All lots must be listed).

a)	Unit No.	Street No.	Street Name and Type	Suburb
		284	Whyanbeel Road	Whyanbeel
	Postcode	Lot No.	Plan Type and Number (e.g. RP, SP)	Local Government Area(s)
	4873	50 and 51	SP219625	Douglas Shire
b)	Unit No.	Street No.	Street Name and Type	Suburb
			Whyanbeel Road	Whyanbeel
	Postcode	Lot No.	Plan Type and Number (e.g. RP, SP)	Local Government Area(s)
	4873	5	RP809494	Douglas Shire

3.2) Coordinates of premises (appropriate for development in remote areas, over part of a lot or in water not adjoining or adjacent to land e.g. channel dredging in Moreton Bay)

Note: Place each set of coordinates in a separate row.

- ☐ Coordinates of premises by longitude and latitude

Longitude(s)	Latitude(s)	Datum	Local Government Area(s) (if applicable)
		<input type="checkbox"/> WGS84 <input type="checkbox"/> GDA94 <input type="checkbox"/> Other:	

- ☐ Coordinates of premises by easting and northing

Easting(s)	Northing(s)	Zone Ref.	Datum	Local Government Area(s) (if applicable)
		<input type="checkbox"/> 54 <input type="checkbox"/> 55 <input type="checkbox"/> 56	<input type="checkbox"/> WGS84 <input type="checkbox"/> GDA94 <input type="checkbox"/> Other:	

3.3) Additional premises

- ☐ Additional premises are relevant to this development application and the details of these premises have been attached in a schedule to this development application
☒ Not required

4) Identify any of the following that apply to the premises and provide any relevant details

- ☐ In or adjacent to a water body or watercourse or in or above an aquifer

Name of water body, watercourse or aquifer:

- ☐ On strategic port land under the *Transport Infrastructure Act 1994*

Lot on plan description of strategic port land:

Name of port authority for the lot:

- ☐ In a tidal area

Name of local government for the tidal area (if applicable):

Name of port authority for tidal area (if applicable)

<input type="checkbox"/> On airport land under the <i>Airport Assets (Restructuring and Disposal) Act 2008</i>
Name of airport: <input type="text"/>
<input type="checkbox"/> Listed on the Environmental Management Register (EMR) under the <i>Environmental Protection Act 1994</i>
EMR site identification: <input type="text"/>
<input type="checkbox"/> Listed on the Contaminated Land Register (CLR) under the <i>Environmental Protection Act 1994</i>
CLR site identification: <input type="text"/>

5) Are there any existing easements over the premises?

Note: Easement uses vary throughout Queensland and are to be identified correctly and accurately. For further information on easements and how they may affect the proposed development, see [DA Forms Guide](#).

- ☐ Yes – All easement locations, types and dimensions are included in plans submitted with this development application
- ☒ No

PART 3 – DEVELOPMENT DETAILS

Section 1 – Aspects of development

6.1) Provide details about the first development aspect

a) What is the type of development? *(tick only one box)*

- ☐ Material change of use ☒ Reconfiguring a lot ☐ Operational work ☐ Building work

b) What is the approval type? *(tick only one box)*

- ☒ Development permit ☐ Preliminary approval ☐ Preliminary approval that includes a variation approval

c) What is the level of assessment?

- ☒ Code assessment ☐ Impact assessment *(requires public notification)*

d) Provide a brief description of the proposal *(e.g. 6 unit apartment building defined as multi-unit dwelling, reconfiguration of 1 lot into 3 lots):*

Boundary Realignment – 3 Lots into 3 Lots

e) Relevant plans

Note: *Relevant plans are required to be submitted for all aspects of this development application. For further information, see [DA Forms guide: Relevant plans](#).*

- ☒ Relevant plans of the proposed development are attached to the development application

6.2) Provide details about the second development aspect

a) What is the type of development? *(tick only one box)*

- ☐ Material change of use ☐ Reconfiguring a lot ☐ Operational work ☐ Building work

b) What is the approval type? *(tick only one box)*

- ☐ Development permit ☐ Preliminary approval ☐ Preliminary approval that includes a variation approval

c) What is the level of assessment?

- ☐ Code assessment ☐ Impact assessment *(requires public notification)*

d) Provide a brief description of the proposal *(e.g. 6 unit apartment building defined as multi-unit dwelling, reconfiguration of 1 lot into 3 lots):*

e) Relevant plans

Note: *Relevant plans are required to be submitted for all aspects of this development application. For further information, see [DA Forms Guide: Relevant plans](#).*

- ☐ Relevant plans of the proposed development are attached to the development application

**Queensland
Government**

6.3) Additional aspects of development

- ☐ Additional aspects of development are relevant to this development application and the details for these aspects that would be required under Part 3 Section 1 of this form have been attached to this development application
- ☒ Not required

6.4) Is the application for State facilitated development?

- ☐ Yes - Has a notice of declaration been given by the Minister?
- ☒ No

Section 2 – Further development details**7) Does the proposed development application involve any of the following?**

Material change of use	<input type="checkbox"/> Yes – complete division 1 if assessable against a local planning instrument
Reconfiguring a lot	<input type="checkbox"/> Yes – complete division 2
Operational work	<input type="checkbox"/> Yes – complete division 3
Building work	<input type="checkbox"/> Yes – complete <i>DA Form 2 – Building work details</i>

Division 1 – Material change of use

Note: This division is only required to be completed if any part of the development application involves a material change of use assessable against a local planning instrument.

8.1) Describe the proposed material change of use

Provide a general description of the proposed use	Provide the planning scheme definition (include each definition in a new row)	Number of dwelling units (if applicable)	Gross floor area (m ²) (if applicable)

8.2) Does the proposed use involve the use of existing buildings on the premises?

- ☐ Yes
- ☐ No

8.3) Does the proposed development relate to temporary accepted development under the Planning Regulation?

- ☐ Yes – provide details below or include details in a schedule to this development application
- ☐ No

Provide a general description of the temporary accepted development	Specify the stated period dates under the Planning Regulation

Division 2 – Reconfiguring a lot

Note: This division is only required to be completed if any part of the development application involves reconfiguring a lot.

9.1) What is the total number of existing lots making up the premises?

3

9.2) What is the nature of the lot reconfiguration? (tick all applicable boxes)

<input type="checkbox"/> Subdivision (complete 10)	<input type="checkbox"/> Dividing land into parts by agreement (complete 11)
<input checked="" type="checkbox"/> Boundary realignment (complete 12)	<input type="checkbox"/> Creating or changing an easement giving access to a lot from a constructed road (complete 13)

10) Subdivision				
10.1) For this development, how many lots are being created and what is the intended use of those lots:				
Intended use of lots created	Residential	Commercial	Industrial	Other, please specify:
Number of lots created				

10.2) Will the subdivision be staged?	
<input type="checkbox"/> Yes – provide additional details below <input type="checkbox"/> No	
How many stages will the works include?	
What stage(s) will this development application apply to?	

11) Dividing land into parts by agreement – how many parts are being created and what is the intended use of the parts?				
Intended use of parts created	Residential	Commercial	Industrial	Other, please specify:
Number of parts created				

12) Boundary realignment			
12.1) What are the current and proposed areas for each lot comprising the premises?			
Current lot		Proposed lot	
Lot on plan description	Area (m ²)	Lot on plan description	Area (m ²)
Lot 50 on SP219625	42.53Ha	Lot 50	72.81Ha
Lot 5 on RP708494	20.88Ha	Lot 5	3.35Ha
Lot 51 on SP219625	32.49Ha	Lot 51	17.06Ha
12.2) What is the reason for the boundary realignment?			
To rationalise Lot boundaries to relate to Road Reserve			

13) What are the dimensions and nature of any existing easements being changed and/or any proposed easement? (attach schedule if there are more than two easements)				
Existing or proposed?	Width (m)	Length (m)	Purpose of the easement? (e.g. pedestrian access)	Identify the land/lot(s) benefitted by the easement

Division 3 – Operational work

Note: This division is only required to be completed if any part of the development application involves operational work.

14.1) What is the nature of the operational work?	
<input type="checkbox"/> Road work <input type="checkbox"/> Drainage work <input type="checkbox"/> Landscaping <input type="checkbox"/> Other – please specify:	<input type="checkbox"/> Stormwater <input type="checkbox"/> Earthworks <input type="checkbox"/> Signage <input type="checkbox"/> Water infrastructure <input type="checkbox"/> Sewage infrastructure <input type="checkbox"/> Clearing vegetation
14.2) Is the operational work necessary to facilitate the creation of new lots? (e.g. subdivision)	
<input type="checkbox"/> Yes – specify number of new lots:	
<input type="checkbox"/> No	

14.3) What is the monetary value of the proposed operational work? (include GST, materials and labour)

\$

PART 4 – ASSESSMENT MANAGER DETAILS

15) Identify the assessment manager(s) who will be assessing this development application

Douglas Shire Council

16) Has the local government agreed to apply a superseded planning scheme for this development application?

- ☐ Yes – a copy of the decision notice is attached to this development application
- ☐ The local government is taken to have agreed to the superseded planning scheme request – relevant documents attached
- ☒ No

PART 5 – REFERRAL DETAILS

17) Does this development application include any aspects that have any referral requirements?

Note: A development application will require referral if prescribed by the Planning Regulation 2017.

- ☒ No, there are no referral requirements relevant to any development aspects identified in this development application – proceed to Part 6

Matters requiring referral to the **Chief Executive of the Planning Act 2016:**

- ☐ Clearing native vegetation
- ☐ Contaminated land (*unexploded ordnance*)
- ☐ Environmentally relevant activities (ERA) (*only if the ERA has not been devolved to a local government*)
- ☐ Fisheries – aquaculture
- ☐ Fisheries – declared fish habitat area
- ☐ Fisheries – marine plants
- ☐ Fisheries – waterway barrier works
- ☐ Hazardous chemical facilities
- ☐ Heritage places – Queensland heritage place (*on or near a Queensland heritage place*)
- ☐ Infrastructure-related referrals – designated premises
- ☐ Infrastructure-related referrals – state transport infrastructure
- ☐ Infrastructure-related referrals – State transport corridor and future State transport corridor
- ☐ Infrastructure-related referrals – State-controlled transport tunnels and future state-controlled transport tunnels
- ☐ Infrastructure-related referrals – near a state-controlled road intersection
- ☐ Koala habitat in SEQ region – interfering with koala habitat in koala habitat areas outside koala priority areas
- ☐ Koala habitat in SEQ region – key resource areas
- ☐ Ports – Brisbane core port land – near a State transport corridor or future State transport corridor
- ☐ Ports – Brisbane core port land – environmentally relevant activity (ERA)
- ☐ Ports – Brisbane core port land – tidal works or work in a coastal management district
- ☐ Ports – Brisbane core port land – hazardous chemical facility
- ☐ Ports – Brisbane core port land – taking or interfering with water
- ☐ Ports – Brisbane core port land – referable dams
- ☐ Ports – Brisbane core port land – fisheries
- ☐ Ports – Land within Port of Brisbane's port limits (*below high-water mark*)
- ☐ SEQ development area
- ☐ SEQ regional landscape and rural production area or SEQ rural living area – tourist activity or sport and recreation activity
- ☐ SEQ regional landscape and rural production area or SEQ rural living area – community activity
- ☐ SEQ regional landscape and rural production area or SEQ rural living area – indoor recreation
- ☐ SEQ regional landscape and rural production area or SEQ rural living area – urban activity
- ☐ SEQ regional landscape and rural production area or SEQ rural living area – combined use
- ☐ SEQ northern inter-urban break – tourist activity or sport and recreation activity

Queensland
Government

- ☐ SEQ northern inter-urban break – community activity
- ☐ SEQ northern inter-urban break – indoor recreation
- ☐ SEQ northern inter-urban break – urban activity
- ☐ SEQ northern inter-urban break – combined use
- ☐ Tidal works or works in a coastal management district
- ☐ Reconfiguring a lot in a coastal management district or for a canal
- ☐ Erosion prone area in a coastal management district
- ☐ Urban design
- ☐ Water-related development – taking or interfering with water
- ☐ Water-related development – removing quarry material *(from a watercourse or lake)*
- ☐ Water-related development – referable dams
- ☐ Water-related development – levees *(category 3 levees only)*
- ☐ Wetland protection area

Matters requiring referral to the **local government**:

- ☐ Airport land
- ☐ Environmentally relevant activities (ERA) *(only if the ERA has been devolved to local government)*
- ☐ Heritage places – Local heritage places

Matters requiring referral to the **Chief Executive of the distribution entity or transmission entity**:

- ☐ Infrastructure-related referrals – Electricity infrastructure

Matters requiring referral to:

- The **Chief Executive of the holder of the licence**, if not an individual
- The **holder of the licence**, if the holder of the licence is an individual
- ☐ Infrastructure-related referrals – Oil and gas infrastructure

Matters requiring referral to the **Brisbane City Council**:

- ☐ Ports – Brisbane core port land

Matters requiring referral to the **Minister responsible for administering the *Transport Infrastructure Act 1994***:

- ☐ Ports – Brisbane core port land *(where inconsistent with the Brisbane port LUP for transport reasons)*
- ☐ Ports – Strategic port land

Matters requiring referral to the **relevant port operator**, if applicant is not port operator:

- ☐ Ports – Land within Port of Brisbane's port limits *(below high-water mark)*

Matters requiring referral to the **Chief Executive of the relevant port authority**:

- ☐ Ports – Land within limits of another port *(below high-water mark)*

Matters requiring referral to the **Gold Coast Waterways Authority**:

- ☐ Tidal works or work in a coastal management district *(in Gold Coast waters)*

Matters requiring referral to the **Queensland Fire and Emergency Service**:

- ☐ Tidal works or work in a coastal management district *(involving a marina (more than six vessel berths))*

18) Has any referral agency provided a referral response for this development application?

- ☐ Yes – referral response(s) received and listed below are attached to this development application
- ☐ No

Referral requirement	Referral agency	Date of referral response

Identify and describe any changes made to the proposed development application that was the subject of the referral response and this development application, or include details in a schedule to this development application *(if applicable)*.

PART 6 – INFORMATION REQUEST

19) Information request under the DA Rules

☒ I agree to receive an information request if determined necessary for this development application

☐ I do not agree to accept an information request for this development application

Note: By not agreeing to accept an information request I, the applicant, acknowledge:

- that this development application will be assessed and decided based on the information provided when making this development application and the assessment manager and any referral agencies relevant to the development application are not obligated under the DA Rules to accept any additional information provided by the applicant for the development application unless agreed to by the relevant parties
- Part 3 under Chapter 1 of the DA Rules will still apply if the application is an application listed under section 11.3 of the DA Rules or
- Part 2 under Chapter 2 of the DA Rules will still apply if the application is for state facilitated development

Further advice about information requests is contained in the [DA Forms Guide](#).

PART 7 – FURTHER DETAILS

20) Are there any associated development applications or current approvals? (e.g. a preliminary approval)

☐ Yes – provide details below or include details in a schedule to this development application

☒ No

List of approval/development application references	Reference number	Date	Assessment manager
<input type="checkbox"/> Approval			
<input type="checkbox"/> Development application			
<input type="checkbox"/> Approval			
<input type="checkbox"/> Development application			

21) Has the portable long service leave levy been paid? (only applicable to development applications involving building work or operational work)

☐ Yes – a copy of the receipted QLeave form is attached to this development application

☐ No – I, the applicant will provide evidence that the portable long service leave levy has been paid before the assessment manager decides the development application. I acknowledge that the assessment manager may give a development approval only if I provide evidence that the portable long service leave levy has been paid

☒ Not applicable (e.g. building and construction work is less than \$150,000 excluding GST)

Amount paid	Date paid (dd/mm/yy)	QLeave levy number (A, B or E)
\$		

22) Is this development application in response to a show cause notice or required as a result of an enforcement notice?

☐ Yes – show cause or enforcement notice is attached

☐ No

23) Further legislative requirements

Environmentally relevant activities

23.1) Is this development application also taken to be an application for an environmental authority for an **Environmentally Relevant Activity (ERA)** under section 115 of the *Environmental Protection Act 1994*?

- ☐ Yes – the required attachment (form ESR/2015/1791) for an application for an environmental authority accompanies this development application, and details are provided in the table below
- ☐ No

Note: Application for an environmental authority can be found by searching “ESR/2015/1791” as a search term at www.qld.gov.au. An ERA requires an environmental authority to operate. See www.business.qld.gov.au for further information.

Proposed ERA number:		Proposed ERA threshold:	
Proposed ERA name:			

- ☐ Multiple ERAs are applicable to this development application and the details have been attached in a schedule to this development application.

Hazardous chemical facilities

23.2) Is this development application for a **hazardous chemical facility**?

- ☐ Yes – *Form 536: Notification of a facility exceeding 10% of schedule 15 threshold* is attached to this development application
- ☐ No

Note: See www.business.qld.gov.au for further information about hazardous chemical notifications.

Clearing native vegetation

23.3) Does this development application involve **clearing native vegetation** that requires written confirmation that the chief executive of the *Vegetation Management Act 1999* is satisfied the clearing is for a relevant purpose under section 22A of the *Vegetation Management Act 1999*?

- ☐ Yes – this development application includes written confirmation from the chief executive of the *Vegetation Management Act 1999* (s22A determination)
- ☐ No

Note: 1. Where a development application for operational work or material change of use requires a s22A determination and this is not included, the development application is prohibited development.
2. See <https://www.qld.gov.au/environment/land/vegetation/applying> for further information on how to obtain a s22A determination.

Environmental offsets

23.4) Is this development application taken to be a prescribed activity that may have a significant residual impact on a **prescribed environmental matter** under the *Environmental Offsets Act 2014*?

- ☐ Yes – I acknowledge that an environmental offset must be provided for any prescribed activity assessed as having a significant residual impact on a prescribed environmental matter
- ☐ No

Note: The environmental offset section of the Queensland Government's website can be accessed at www.qld.gov.au for further information on environmental offsets.

Koala habitat in SEQ Region

23.5) Does this development application involve a material change of use, reconfiguring a lot or operational work which is assessable development under Schedule 10, Part 10 of the Planning Regulation 2017?

- ☐ Yes – the development application involves premises in the koala habitat area in the koala priority area
- ☐ Yes – the development application involves premises in the koala habitat area outside the koala priority area
- ☐ No

Note: If a koala habitat area determination has been obtained for this premises and is current over the land, it should be provided as part of this development application. See koala habitat area guidance materials at www.desi.qld.gov.au for further information.

Water resources

23.6) Does this development application involve **taking or interfering with underground water through an artesian or subartesian bore, taking or interfering with water in a watercourse, lake or spring, or taking overland flow water under the *Water Act 2000***?

- ☐ Yes – the relevant template is completed and attached to this development application and I acknowledge that a relevant authorisation or licence under the *Water Act 2000* may be required prior to commencing development
- ☐ No

Note: Contact the Department of Resources at www.resources.qld.gov.au for further information.

DA templates are available from planning.statedevelopment.qld.gov.au. If the development application involves:

- Taking or interfering with underground water through an artesian or subartesian bore: complete DA Form 1 Template 1
- Taking or interfering with water in a watercourse, lake or spring: complete DA Form 1 Template 2
- Taking overland flow water: complete DA Form 1 Template 3.

Waterway barrier works

23.7) Does this application involve **waterway barrier works**?

- ☐ Yes – the relevant template is completed and attached to this development application
- ☐ No

DA templates are available from planning.statedevelopment.qld.gov.au. For a development application involving waterway barrier works, complete DA Form 1 Template 4.

Marine activities

23.8) Does this development application involve **aquaculture, works within a declared fish habitat area or removal, disturbance or destruction of marine plants**?

- ☐ Yes – an associated resource allocation authority is attached to this development application, if required under the *Fisheries Act 1994*
- ☐ No

Note: See guidance materials at www.daf.qld.gov.au for further information.

Quarry materials from a watercourse or lake

23.9) Does this development application involve the **removal of quarry materials from a watercourse or lake under the *Water Act 2000***?

- ☐ Yes – I acknowledge that a quarry material allocation notice must be obtained prior to commencing development
- ☐ No

Note: Contact the Department of Resources at www.resources.qld.gov.au and www.business.qld.gov.au for further information.

Quarry materials from land under tidal waters

23.10) Does this development application involve the **removal of quarry materials from land under tidal water under the *Coastal Protection and Management Act 1995***?

- ☐ Yes – I acknowledge that a quarry material allocation notice must be obtained prior to commencing development
- ☐ No

Note: Contact the Department of Environment, Science and Innovation at www.desi.qld.gov.au for further information.

Referable dams

23.11) Does this development application involve a **referable dam** required to be failure impact assessed under section 343 of the *Water Supply (Safety and Reliability) Act 2008* (the *Water Supply Act*)?

- ☐ Yes – the 'Notice Accepting a Failure Impact Assessment' from the chief executive administering the *Water Supply Act* is attached to this development application
- ☐ No

Note: See guidance materials at www.resources.qld.gov.au for further information.

Tidal work or development within a coastal management district

23.12) Does this development application involve **tidal work or development in a coastal management district**?

- ☐ Yes – the following is included with this development application:
- ☐ Evidence the proposal meets the code for assessable development that is prescribed tidal work (*only required if application involves prescribed tidal work*)
 - ☐ A certificate of title
- ☐ No

Note: See guidance materials at www.desi.qld.gov.au for further information.

Queensland and local heritage places

23.13) Does this development application propose development on or adjoining a place entered in the **Queensland heritage register** or on a place entered in a local government's **Local Heritage Register**?

- ☐ Yes – details of the heritage place are provided in the table below
- ☐ No

Note: See guidance materials at www.desi.qld.gov.au for information requirements regarding development of Queensland heritage places.

For a heritage place that has cultural heritage significance as a local heritage place and a Queensland heritage place, provisions are in place under the Planning Act 2016 that limit a local categorising instrument from including an assessment benchmark about the effect or impact of, development on the stated cultural heritage significance of that place. See guidance materials at www.planning.statedevelopment.qld.gov.au for information regarding assessment of Queensland heritage places.

Name of the heritage place:		Place ID:	
-----------------------------	--	-----------	--

Decision under section 62 of the Transport Infrastructure Act 1994

23.14) Does this development application involve new or changed access to a state-controlled road?

- ☐ Yes – this application will be taken to be an application for a decision under section 62 of the *Transport Infrastructure Act 1994* (subject to the conditions in section 75 of the *Transport Infrastructure Act 1994* being satisfied)
- ☐ No

Walkable neighbourhoods assessment benchmarks under Schedule 12A of the Planning Regulation

23.15) Does this development application involve reconfiguring a lot into 2 or more lots in certain residential zones (except rural residential zones), where at least one road is created or extended?

- ☐ Yes – Schedule 12A is applicable to the development application and the assessment benchmarks contained in schedule 12A have been considered
- ☐ No

Note: See guidance materials at www.planning.statedevelopment.qld.gov.au for further information.

PART 8 – CHECKLIST AND APPLICANT DECLARATION

24) Development application checklist

I have identified the assessment manager in question 15 and all relevant referral requirement(s) in question 17	<input type="checkbox"/> Yes
Note: See the Planning Regulation 2017 for referral requirements	
If building work is associated with the proposed development, Parts 4 to 6 of DA Form 2 – Building work details have been completed and attached to this development application	<input type="checkbox"/> Yes <input type="checkbox"/> Not applicable
Supporting information addressing any applicable assessment benchmarks is with the development application	<input type="checkbox"/> Yes
Note: This is a mandatory requirement and includes any relevant templates under question 23, a planning report and any technical reports required by the relevant categorising instruments (e.g. local government planning schemes, State Planning Policy, State Development Assessment Provisions). For further information, see DA Forms Guide: Planning Report Template .	
Relevant plans of the development are attached to this development application	<input type="checkbox"/> Yes
Note: Relevant plans are required to be submitted for all aspects of this development application. For further information, see DA Forms Guide: Relevant plans .	
The portable long service leave levy for QLeave has been paid, or will be paid before a development permit is issued (see 21)	<input type="checkbox"/> Yes <input type="checkbox"/> Not applicable

25) Applicant declaration

- ☐ By making this development application, I declare that all information in this development application is true and correct
- ☐ Where an email address is provided in Part 1 of this form, I consent to receive future electronic communications from the assessment manager and any referral agency for the development application where written information is required or permitted pursuant to sections 11 and 12 of the *Electronic Transactions Act 2001*

Note: It is unlawful to intentionally provide false or misleading information.

Privacy – Personal information collected in this form will be used by the assessment manager and/or chosen assessment manager, any relevant referral agency and/or building certifier (including any professional advisers which may be engaged by those entities) while processing, assessing and deciding the development application. All information relating to this development application may be available for inspection and purchase, and/or published on the assessment manager's and/or referral agency's website.

Personal information will not be disclosed for a purpose unrelated to the *Planning Act 2016*, Planning Regulation 2017 and the DA Rules except where:

- such disclosure is in accordance with the provisions about public access to documents contained in the *Planning Act 2016* and the Planning Regulation 2017, and the access rules made under the *Planning Act 2016* and Planning Regulation 2017; or
- required by other legislation (including the *Right to Information Act 2009*); or
- otherwise required by law.

This information may be stored in relevant databases. The information collected will be retained as required by the *Public Records Act 2002*.

PART 9 – FOR COMPLETION OF THE ASSESSMENT MANAGER – FOR OFFICE USE ONLY

Date received: Reference number(s):

6.2.10 Rural zone code

6.2.10.1 Application

- (1) This code applies to assessing development in the Industry zone.
- (2) When using this code, reference should be made to Part 5.

6.2.10.2 Purpose

- (1) The purpose of the Rural zone code is to provide for:
 - (a) provide for rural uses including cropping, intensive horticulture, intensive animal industries, animal husbandry, animal keeping and other primary production activities;
 - (b) provide opportunities for non-rural uses, such as ancillary tourism activities that are compatible with agriculture, the environmental features, and landscape character of the rural area where the uses do not compromise the long-term use of the land for rural purposes;
 - (c) protect or manage significant natural resources and processes to maintain the capacity for primary production.
- (2) The local government purpose of the code is to:
 - (a) implement the policy direction set in the Strategic Framework, in particular:
 - (i) Theme 2 : Environment and landscape values, Element 3.5.5 – Scenic amenity.
 - (ii) Theme 3 : Natural resource management, Element 3.6.2 – Land and catchment management, Element 3.6.3 Primary production, forestry and fisheries, Element 3.6.4 – Resource extraction.
 - (iii) Theme 5 Economy, Element 3.8.2 – Economic growth and diversification, Element 3.8.4 – Primary production.
 - (iv) Theme 6 : Infrastructure and transport, Element 3.9.4 – Transport.
 - (b) recognise the primacy of rural production, in particular sugar cultivation, and other farming practices in rural areas;
 - (c) provide protection to areas of ecological significance and scenic amenity significance where present.
- (3) The purpose of the code will be achieved through the following overall outcomes:
 - (a) Areas for use for primary production are conserved and fragmentation is avoided.
 - (b) Development embraces sustainable land management practices and contributes to the amenity and landscape of the area.
 - (c) Adverse impacts of land use, both on-site and on adjoining areas, are avoided and any unavoidable impacts are minimised through location, design, operation and management.
 - (d) Areas of remnant and riparian vegetation are retained or rehabilitated.

Criteria for assessment

Table 6.2.10.3.a – Rural zone code assessable development

Performance outcomes	Acceptable outcomes	Applicant response
For self-assessable and assessable development		
PO1 The height of buildings is compatible with the rural character of the area and must not detrimentally impact on visual landscape amenity.	AO1.1 Dwelling houses are not more than 8.5 metres in height. Note – Height is inclusive of roof height.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.

Performance outcomes	Acceptable outcomes	Applicant response
	A01.2 Rural farm sheds and other rural structures are not more than 10 metres in height.	
Setbacks		
P02 Buildings and structures are setback to maintain the rural character of the area and achieve separation from buildings on adjoining properties.	A02 Buildings are setback not less than: (a) 40 metres from the property boundary and a State-controlled road; (b) 25 metres from the property boundary adjoining Cape Tribulation Road; (c) 20 metres from the boundary with any other road; (d) 6 metres from side and rear property boundaries.	Complies with A02. The existing development on proposed Lot 50 complies with the required setback for those boundaries being amended through the Boundary Realignment.
P03 Buildings/structures are designed to maintain the rural character of the area.	A03 White and shining metallic finishes are avoided on external surfaces of buildings.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.
For assessable development		
P04 The establishment of uses is consistent with the outcomes sought for the Rural zone and protects the zone from the intrusion of inconsistent uses.	A04 Uses identified in Table 6.2.10.3.b are not established in the Rural zone.	Complies with A04. The proposed development does not relate to a use listed in Table 6.2.10.3.b.

Performance outcomes	Acceptable outcomes	Applicant response
P05 Uses and other development include those that: (a) promote rural activities such as agriculture, rural enterprises and small scale industries that serve rural activities; or (b) promote low impact tourist activities based on the appreciation of the rural character, landscape and rural activities; or (c) are compatible with rural activities.	A05 No acceptable outcomes are prescribed.	Complies with P05. The proposed development is for a Boundary Realignment with no additional works proposed. The purpose of the Boundary Realignment is to rationalise existing Lot boundaries to better respond to, and align with, the established Road Reserves. The realigned boundaries provide a better distribution of land across the area which will ultimately help to secure the future use of the Lots for rural purposes (e.g. continued use for primary production).
P06 Existing native vegetation along watercourses and in, or adjacent to areas of environmental value, or areas of remnant vegetation of value is protected.	A06 No acceptable outcomes are prescribed.	Complies with P06. The realigned boundaries reduce the interaction between boundaries and native vegetation along waterways. In the case of proposed Lot 50, the central boundary has been removed, resulting in a significant decrease of interaction.
P07 The minimum lot size is 40 hectares, unless (a) the lot reconfiguration results in no additional lots (e.g. amalgamation, boundary realignments to resolve encroachments); or (b) the reconfiguration is limited to one additional lot to accommodate: (i) Telecommunications facility; (ii) Utility installation.	A07 No acceptable outcomes are prescribed.	Complies with P07. The proposed development is for a Boundary Realignment with no additional works proposed. The purpose of the Boundary Realignment is to rationalise existing Lot boundaries to better respond to, and align with, the established Road Reserves.

Performance outcomes	Acceptable outcomes	Applicant response
		<p>The realigned boundaries provide a better distribution of land across the area which will ultimately help to secure the future use of the Lots for rural purposes (e.g. continued use for primary production).</p> <p>Importantly, no new Lots are being created.</p>

Table 6.2.10.3.b - Inconsistent uses within the Rural zone.

Inconsistent uses		
<ul style="list-style-type: none"> • Adult store • Bar • Brothel • Car wash • Child care centre • Club • Community care centre • Community residence • Detention facility, • Dual occupancy • Dwelling unit • Food and drink outlet • Hardware and trade supplies • Health care services • High impact industry 	<ul style="list-style-type: none"> • Hotel • Indoor sport and recreation • Low impact industry • Medium impact industry • Multiple dwelling • Nightclub entertainment facility • Non-resident workforce accommodation • Office • Outdoor sales • Parking station • Permanent plantation • Port services • Relocatable home park • Renewable energy facility, being a wind farm 	<ul style="list-style-type: none"> • Residential care facility • Resort complex • Retirement facility • Rooming accommodation • Sales office • Service station • Shop • Shopping centre • Short-term accommodation • Showroom • Special industry • Theatre • Warehouse

Note – This table does not imply that all other uses not listed in the table are automatically consistent uses within the zone. Assessable development must still demonstrate consistency through the assessment process.

8.2.1 Acid sulfate soils overlay code

8.2.1.1 Application

- (1) This code applies to assessing a material change of use, reconfiguring a lot, operational work or building work within the Acid sulfate soils overlay, if:
 - (a) self-assessable or assessable development where the code is identified as being applicable in the Assessment criteria for the Overlay Codes contained in the Levels of Assessment Tables in section 5.6;
 - (b) impact assessable development.
- (2) Land in the Acid sulphate soils overlay is identified on the Acid sulfate soils overlay map in Schedule 2 and includes the following sub-categories:
 - (a) Land at or below the 5m AHD sub-category;
 - (b) Land above the 5m AHD and below the 20m AHD sub-category.
- (3) When using this code, reference should be made to Part 5.

8.2.1.2 Purpose

- (1) The purpose of the acid sulfate soils overlay code is to:
 - (a) implement the policy direction in the Strategic Framework, in particular:
 - (i) Theme 2: Environment and landscape values, Element 3.5.4 Coastal zones.
 - (ii) Theme 3: Natural resource management, Element 3.6.2 land and catchment management, Element 3.6.3 Primary production, forestry and fisheries.
- (2) enable an assessment of whether development is suitable on land within the Acid sulfate soils overlay sub-categories.
- (3) The purpose of the code will be achieved through the following overall outcomes:
 - (a) Development ensures that the release of any acid and associated metal contaminant is avoided by not disturbing acid sulfate soils when excavating, removing soil or extracting ground water or filling land;
 - (b) Development ensures that disturbed acid sulfate soils, or drainage waters, are treated and, if required, on-going management practices are adopted that minimise the potential for environmental harm from acid sulfate soil and protect corrodible assets from acid sulfate soil.

Criteria for assessment

Table 8.2.1.3.a – Acid sulfate soils overlay code – assessable development

Performance outcomes	Acceptable outcomes	Applicant response
For assessable development		
PO1 The extent and location of potential or actual acid sulfate soils is accurately identified.	AO1.1 No excavation or filling occurs on the site. or AO1.2 An acid sulfate soils investigation is undertaken.	Complies with AO1.1. The proposed development is for a Boundary Realignment with no additional works proposed. No excavation and/or filling will occur as a result of the proposed Boundary Realignment.

Performance outcomes	Acceptable outcomes	Applicant response
	Note - Planning scheme policy SC 6.12– Potential and actual acid sulfate soils provides guidance on preparing an acid sulfate soils investigation.	
PO2 Development avoids disturbing potential acid sulfate soils or actual acid sulfate soils, or is managed to avoid or minimise the release of acid and metal contaminants.	A02.1 The disturbance of potential acid sulfate soils or actual acid sulfate soils is avoided by: <ul style="list-style-type: none"> (a) not excavating, or otherwise removing, soil or sediment identified as containing potential or actual acid sulfate soils; (b) not permanently or temporarily extracting groundwater that results in the aeration of previously saturated acid sulfate soils; (c) not undertaking filling that results in: <ul style="list-style-type: none"> (i) actual acid sulfate soils being moved below the water table; (ii) previously saturated acid sulfate soils being aerated. or A02.2 The disturbance of potential acid sulfate soils or actual acid sulfate soils is undertaken in accordance with an acid sulfate soils management plan and avoids the release of metal contaminants by: <ul style="list-style-type: none"> (a) neutralising existing acidity and preventing the generation of acid and metal contaminants; (b) preventing the release of surface or groundwater flows containing acid and metal contaminants into the environment; (c) preventing the in situ oxidation of potential acid sulfate soils and actual acid sulfate soils through ground water level management; 	Complies with A02.1. The proposed development is for a Boundary Realignment with no additional works proposed. No excavation and/or filling will occur as a result of the proposed Boundary Realignment

Performance outcomes	Acceptable outcomes	Applicant response
	<p>(d) appropriately treating acid sulfate soils before disposal occurs on or off site;</p> <p>(e) documenting strategies and reporting requirements in an acid sulfate soils environmental management plan.</p> <p>Note - Planning scheme policy SC 6.12 – Acid sulfate soils provides guidance on preparing an acid sulfate soils management plan.</p>	
<p>PO3</p> <p>No environmental harm is caused as a result of exposure to potential acid sulfate soils or actual acid sulfate soils.</p>	<p>A03</p> <p>No acceptable outcomes are prescribed.</p>	<p>Complies with PO3.</p> <p>The proposed development is for a Boundary Realignment with no additional works proposed. No excavation and/or filling will occur as a result of the proposed Boundary Realignment</p>

Figure 8.2.1.3.a – Acid sulfate soils (SPP triggers)

8.2.2 Bushfire hazard overlay code

Note - Land shown on the bushfire hazard overlay map is designated as the bushfire prone area for the purposes of section 12 of the Building Regulations 2006. The bushfire hazard area (bushfire prone area) includes land covered by the high and medium hazard areas as well as the buffer area category on the overlay map.

8.2.2.1 Application

- (1) This code applies to assessing a material change of use, reconfiguring a lot, operational works or building work in the Bushfire hazard overlay, if:
 - (a) self-assessable or assessable where the code is identified as being applicable in the Assessment criteria for the Overlay Codes contained in the Levels of Assessment Tables in section 5.6;
 - (b) impact assessable development.
- (2) Land in the Bushfire hazard overlay is identified on the Bushfire hazard overlay map in Schedule 2 and includes the following sub-categories:
 - (a) Medium bushfire risk sub-category;
 - (b) High bushfire risk sub-category;
 - (c) Very high bushfire risk sub-category;
 - (d) Potential impact buffer sub-category.
- (3) When using this code, reference should be made to Part 5.

8.2.2.2 Purpose

- (1) The purpose of the Bushfire overlay code is to:
 - (a) implement the policy direction in the Strategic Framework, in particular:
 - (i) Theme 1 Settlement pattern: Element 3.4.7 Mitigation of hazards;
 - (ii) Theme 6 Infrastructure and transport: Element 3.9.2 Energy.
 - (b) enable an assessment of whether development is suitable on land within the Bushfire risk overlay sub-categories.
- (2) The purpose of the code will be achieved through the following overall outcomes:
 - (a) development avoids the establishment or intensification of vulnerable activities within or near areas that are subject to bushfire hazard;
 - (b) development is designed and located to minimise risks to people and property from bushfires;
 - (c) bushfire risk mitigation treatments are accommodated in a manner that avoids or minimises impacts on the natural environment and ecological processes;
 - (d) development involving the manufacture or storage of hazardous materials does not increase the risk to public safety or the environment in a bushfire event;
 - (e) development contributes to effective and efficient disaster management response and recovery capabilities.

Note - A site based assessment may ground-truth the extent of hazardous vegetation and extent and nature of the bushfire hazard area (bushfire prone area). Such assessments should be undertaken using the methodology set out in Planning scheme policy SC6.9 - Natural Hazards.

Criteria for assessment

Table 8.2.2.3.a – Bushfire hazard overlay code –assessable development

Performance outcomes	Acceptable outcomes	Applicant response
For self-assessable and assessable development		
Compatible development		

Performance outcomes	Acceptable outcomes	Applicant response
PO1 A vulnerable use is not established or materially intensified within a bushfire hazard area (bushfire prone area) unless there is an overriding need or other exceptional circumstances. Note - See the end of this code for examples of vulnerable uses.	AO1 Vulnerable uses are not established or expanded. Note – Where, following site inspection and consultation with Council, it is clear that the mapping is in error in identifying a premises as being subject to a medium, high, very high bushfire hazard or potential impact buffer sub-category, Council may supply a letter exempting the need for a Bushfire Management Plan. Note – Where the assessment manager has not previously approved a Bushfire Management Plan (either by condition of a previous development approval), the development proponent will be expected to prepare such a plan. Note – Planning scheme policy SC6.9 - Natural hazards, provides a guide to the preparation of a Bushfire Management Plan.	Complies with AO1. The proposed development is for a Boundary Realignment with no additional works proposed. The proposed Boundary Realignment does not propose to establish or expand a vulnerable land use.
PO2 Emergency services and uses providing community support services are able to function effectively during and immediately after a bushfire hazard event.	AO2 Emergency Services and uses providing community support services are not located in a bushfire hazard sub-category and have direct access to low hazard evacuation routes.	Complies with AO2. The proposed development is for a Boundary Realignment with no additional works proposed. The proposed Boundary Realignment does not alter the current requirements for Emergency Services.
PO3 Development involving hazardous materials manufactured or stored in bulk is not located in bushfire hazard sub-category.	AO3 The manufacture or storage of hazardous material in bulk does not occur within bushfire hazard sub-category.	Not applicable. The manufacture or storage of hazardous materials in-bulk does not form part of the proposed development.
Development design and separation from bushfire hazard – reconfiguration of lots		
PO4.1 Where reconfiguration is undertaken in an urban area or is for urban purposes or smaller scale rural residential purposes, a separation distance from hazardous vegetation is provided to achieve a radiant heat flux level of 29kW/m ² at the edge of the proposed lot(s). Note - "Urban purposes" and "urban area" are defined in the Sustainable Planning Regulations 2009. Reconfiguration will be	AO4.1 No new lots are created within a bushfire hazard sub-category. or AO4.2 Lots are separated from hazardous vegetation by a distance that:	Complies with AO4.1. The proposed development is for a Boundary Realignment with no additional works proposed. The creation of a new Lot, through subdivision, does not form part of the proposed development.

Performance outcomes	Acceptable outcomes	Applicant response
<p>taken to be for rural residential purposes where proposed lots are between 2000m² and 2ha in area. "Smaller scale" rural residential purposes will be taken to be where the average proposed lot size is 6000m² or less.</p> <p>Note - The radiant heat levels and separation distances are to be established in accordance with method 2 set out in AS3959-2009.</p> <p>P04.2 Where reconfiguration is undertaken for other purposes, a building envelope of reasonable dimensions is provided on each lot which achieves radiant heat flux level of 29kW/m² at any point.</p>	<p>(a) achieves radiant heat flux level of 29kW/m² at all boundaries; and</p> <p>(b) is contained wholly within the development site.</p> <p>Note - Where a separation distance is proposed to be achieved by utilising existing cleared developed areas external to the site, certainty must be established (through tenure or other means) that the land will remain cleared of hazardous vegetation. For staged developments, temporary separation distances, perimeter roads or fire trails may be absorbed as part of subsequent stages.</p> <p>Note - The achievement of a cleared separation distance may not be achievable where other provisions within the planning scheme require protection of certain ecological, slope, visual or character features or functions.</p>	
<p>P05 Where reconfiguration is undertaken in an urban area or is for urban purposes, a constructed perimeter road with reticulated water supply is established between the lots and the hazardous vegetation and is readily accessible at all times for urban fire fighting vehicles.</p> <p>The access is available for both fire fighting and maintenance/defensive works.</p>	<p>A05.1 Lot boundaries are separated from hazardous vegetation by a public road which:</p> <p>(a) has a two lane sealed carriageway;</p> <p>(b) contains a reticulated water supply;</p> <p>(c) is connected to other public roads at both ends and at intervals of no more than 500m;</p> <p>(d) accommodates geometry and turning radii in accordance with Queensland Fire and Emergency Services' Fire Hydrant and Vehicle Access Guidelines;</p> <p>(e) has a minimum of 4.8m vertical clearance above the road;</p> <p>(f) is designed to ensure hydrants and water access points are not located within parking bay allocations; and</p> <p>(g) incorporates roll-over kerbing.</p> <p>A05.2 Fire hydrants are designed and installed in accordance with AS2419.1 2005, unless otherwise specified by the relevant water entity.</p>	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed. The creation of a new Lot, through subdivision, does not form part of the proposed development.</p>

Performance outcomes	Acceptable outcomes	Applicant response
	Note - Applicants should have regard to the relevant standards set out in the reconfiguration of a lot code and works codes in this planning scheme.	
<p>P06 Where reconfiguration is undertaken for smaller scale rural residential purposes, either a constructed perimeter road or a formed, all weather fire trail is established between the lots and the hazardous vegetation and is readily accessible at all times for the type of fire fighting vehicles servicing the area.</p> <p>The access is available for both fire fighting and maintenance/hazard reduction works.</p>	<p>A06 Lot boundaries are separated from hazardous vegetation by a public road or fire trail which has:</p> <ul style="list-style-type: none"> (a) a reserve or easement width of at least 20m; (b) a minimum trafficable (cleared and formed) width of 4m capable of accommodating a 15 tonne vehicle and which is at least 6m clear of vegetation; (c) no cut or fill embankments or retaining walls adjacent to the 4m wide trafficable path; (d) a minimum of 4.8m vertical clearance; (e) turning areas for fire-fighting appliances in accordance with Queensland Fire and Emergency Services' Fire Hydrant and Vehicle Access Guidelines; (f) a maximum gradient of 12.5%; (g) a cross fall of no greater than 10 degrees; (h) drainage and erosion control devices in accordance with the standards prescribed in a planning scheme policy; (i) vehicular access at each end which is connected to the public road network at intervals of no more than 500m; (j) designated fire trail signage; (k) if used, has gates locked with a system authorised by Queensland Fire and Emergency Services; and (l) if a fire trail, has an access easement that is granted in favour of Council and Queensland Fire and Emergency Services. 	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed. The creation of a new Lot, through subdivision, does not form part of the proposed development.</p>
P07	A07	Not applicable.

Performance outcomes	Acceptable outcomes	Applicant response
<p>Where reconfiguration is undertaken for other purposes, a formed, all weather fire trail is provided between the hazardous vegetation and either the lot boundary or building envelope, and is readily accessible at all times for the type of fire fighting vehicles servicing the area.</p> <p>However, a fire trail will not be required where it would not serve a practical fire management purpose.</p>	<p>Lot boundaries are separated from hazardous vegetation by a public road or fire trail which has:</p> <ul style="list-style-type: none"> (a) a reserve or easement width of at least 20m; (b) a minimum trafficable (cleared and formed) width of 4m capable of accommodating a 15 tonne vehicle and which is at least 6m clear of vegetation; (c) no cut or fill embankments or retaining walls adjacent to the 4m wide trafficable path; (d) a minimum of 4.8m vertical clearance; (e) turning areas for fire-fighting appliances in accordance with Queensland Fire and Emergency Services' Fire Hydrant and Vehicle Access Guidelines; (f) a maximum gradient of 12.5%; (g) a cross fall of no greater than 10 degrees; (h) drainage and erosion control devices in accordance with the standards prescribed in a planning scheme policy; (i) vehicular access at each end which is connected to the public road network; (j) designated fire trail signage; (k) if used, has gates locked with a system authorised by Queensland Fire and Emergency Services; and (l) if a fire trail, has an access easement that is granted in favour of Council and Queensland Fire and Emergency Services. 	<p>The proposed development is for a Boundary Realignment with no additional works proposed. The creation of a new Lot, through subdivision, does not form part of the proposed development.</p>
<p>PO8</p> <p>The development design responds to the potential threat of bushfire and establishes clear evacuation routes which demonstrate an acceptable or tolerable risk to people.</p>	<p>AO8</p> <p>The lot layout:</p> <ul style="list-style-type: none"> (a) minimises the length of the development perimeter exposed to, or adjoining hazardous vegetation; (b) avoids the creation of potential bottle-neck points in the movement network; 	<p>Not applicable.</p> <p>The proposed development is for a Boundary Realignment with no additional works proposed. The creation of a new Lot, through subdivision, does not form part of the proposed development.</p>

Performance outcomes	Acceptable outcomes	Applicant response
	<p>(c) establishes direct access to a safe assembly /evacuation area in the event of an approaching bushfire; and</p> <p>(d) ensures roads likely to be used in the event of a fire are designed to minimise traffic congestion.</p> <p>Note - For example, developments should avoid finger-like or hour-glass subdivision patterns or substantive vegetated corridors between lots.</p> <p>In order to demonstrate compliance with the performance outcome, a bushfire management plan prepared by a suitably qualified person may be required. The bushfire management plan should be developed in accordance with the Public Safety Business Agency (PSBA) guideline entitled "Undertaking a Bushfire Protection Plan. Advice from the Queensland Fire and Emergency Services (QFES) should be sought as appropriate</p>	
<p>P09 Critical infrastructure does not increase the potential bushfire hazard.</p>	<p>A09 Critical or potentially hazardous infrastructure such as water supply, electricity, gas and telecommunications are placed underground.</p>	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed. The creation of a new Lot, through subdivision, does not form part of the proposed development.</p>

Performance outcomes	Acceptable outcomes	Applicant response
Development design and separation from bushfire hazard – material change of use		
<p>PO10 Development is located and designed to ensure proposed buildings or building envelopes achieve a radiant heat flux level at any point on the building or envelope respectively, of:</p> <p>(a) 10kW/m² where involving a vulnerable use; or (b) 29kW/m² otherwise.</p> <p>The radiant heat flux level is achieved by separation unless this is not practically achievable.</p> <p>Note - The radiant heat levels and separation distances are to be established in accordance with method 2 set out in AS3959-2009.</p>	<p>AO10 Buildings or building envelopes are separated from hazardous vegetation by a distance that:</p> <p>(a) achieves a radiant heat flux level of at any point on the building or envelope respectively, of 10kW/m² for a vulnerable use or 29kW/m² otherwise; and (b) is contained wholly within the development site.</p> <p>Note - Where a separation distance is proposed to be achieved by utilising existing cleared developed areas external to the site, certainty must be established (through tenure or other means) that the land will remain cleared of hazardous vegetation.</p> <p>For staged developments, temporary separation distances, perimeter roads or fire trails may be absorbed as part of subsequent stages.</p> <p>Note - The achievement of a cleared separation distance may not be achievable where other provisions within the planning scheme require protection of certain ecological, slope, visual or character features or functions.</p>	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.</p>
<p>PO11 A formed, all weather fire trail is provided between the hazardous vegetation and the site boundary or building envelope, and is readily accessible at all times for the type of fire fighting vehicles servicing the area.</p> <p>However, a fire trail will not be required where it would not serve a practical fire management purpose.</p> <p>Note - Fire trails are unlikely to be required where a development site involves less than 2.5ha</p>	<p>AO11 Development sites are separated from hazardous vegetation by a public road or fire trail which has:</p> <p>(a) a reserve or easement width of at least 20m; (b) a minimum trafficable (cleared and formed) width of 4m capable of accommodating a 15 tonne vehicle and which is at least 6m clear of vegetation; (c) no cut or fill embankments or retaining walls adjacent to the 4m wide trafficable path; (d) a minimum of 4.8m vertical clearance; (e) turning areas for fire-fighting appliances in accordance with Queensland Fire and</p>	<p>Not applicable. 	<p>Emergency Services' Fire Hydrant and Vehicle Access Guidelines;</p> <p>(f) a maximum gradient of 12.5%;</p> <p>(g) a cross fall of no greater than 10 degrees;</p> <p>(h) drainage and erosion control devices in accordance with the standards prescribed in a planning scheme policy;</p> <p>(i) vehicular access at each end which is connected to the public road network which is connected to the public road network at intervals of no more than 500m;</p> <p>(j) designated fire trail signage;</p> <p>(k) if used, has gates locked with a system authorised by Queensland Fire and Emergency Services; and</p> <p>(l) if a fire trail, has an access easement that is granted in favour of Council and Queensland Fire and Emergency Services.</p>	
All development		
<p>PO12</p> <p>All premises are provided with vehicular access that enables safe evacuation for occupants and easy access by fire fighting appliances.</p>	<p>AO12</p> <p>Private driveways:</p> <p>(a) do not exceed a length of 60m from the street to the building;</p> <p>(b) do not exceed a gradient of 12.5%;</p> <p>(c) have a minimum width of 3.5m;</p> <p>(d) have a minimum of 4.8m vertical clearance;</p> <p>(e) accommodate turning areas for fire-fighting appliances in accordance with Queensland Fire and Emergency Services' Fire Hydrant and Vehicle Access Guidelines; and</p> <p>(f) serve no more than 3 dwellings or buildings.</p>	<p>Not applicable.</p> <p>The proposed development is for a Boundary Realignment with no additional works proposed.</p>

Performance outcomes	Acceptable outcomes	Applicant response
PO13 Development outside reticulated water supply areas includes a dedicated static supply that is available solely for fire fighting purposes and can be accessed by fire fighting appliances.	AO13 A water tank is provided within 10m of each building (other than a class 10 building) which: <ul style="list-style-type: none"> (a) is either below ground level or of non-flammable construction; (b) has a take off connection at a level that allows the following dedicated, static water supply to be left available for access by fire fighters: <ul style="list-style-type: none"> (i) 10,000l for residential buildings Note – A minimum of 7,500l is required in a tank and the extra 2,500l may be in the form of accessible swimming pools or dams. <ul style="list-style-type: none"> (ii) 45,000l for industrial buildings; and (iii) 20,000l for other buildings; (c) includes shielding of tanks and pumps in accordance with the relevant standards; (d) includes a hardstand area allowing medium rigid vehicle (15 tonne fire appliance) access within 6m of the tank; (e) is provided with fire brigade tank fittings – 50mm ball valve and male camlock coupling and, if underground, an access hole of 200mm (minimum) to accommodate suction lines; and (f) is clearly identified by directional signage provided at the street frontage. 	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.
PO14 Landscaping does not increase the potential bushfire risk.	AO14 Landscaping uses species that are less likely to exacerbate a bushfire event, and does not increase fuel loads within separation areas.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.

Performance outcomes	Acceptable outcomes	Applicant response
P015 The risk of bushfire and the need to mitigate that risk is balanced against other factors (such as but not limited to, biodiversity or scenic amenity).	A015 Bushfire risk mitigation treatments do not have a significant impact on the natural environment or landscape character of the locality where this has value.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.

Note – 'Vulnerable activities' are those involving:

- (1) the accommodation or congregation of vulnerable sectors of the community such as child care centres, community care centre, educational establishments, detention facilities, hospitals, rooming accommodation, retirement facilities or residential care facilities; or
- (2) the provision of essential services including community uses, emergency services, utility installation, telecommunications facility, substations and major electricity infrastructure.

8.2.4 Flood and storm tide hazard overlay code

8.2.4.1 Application

- (1) This code applies to assessing a material change of use, reconfiguring a lot, operational work or building work within the Flood and storm tide hazard overlay, if:
 - (a) self assessable or assessable development where the code is identified as being applicable in the Assessment criteria for the Overlay Codes contained in the Levels of Assessment Tables in section 5.6;
 - (b) impact assessable development.
- (2) Land in the Flood and storm tide hazard overlay is identified on the Flood and storm tide hazard overlay map in Schedule 2 and includes the:
 - (a) Storm tide – high hazard sub-category;
 - (b) Storm tide – medium hazard sub-category;
 - (c) Flood plain assessment sub-category;
 - (d) 100 ARI Mossman, Port Douglas and Daintree Township Flood Studies sub-category.
- (3) When using this code, reference should be made to Part 5.

Note - The Flood and storm tide hazards overlay maps contained in Schedule 2 identify areas (Flood and storm tide inundation areas) where flood and storm tide inundation modelling has been undertaken by the Council. Other areas not identified by the Flood and inundation hazards overlay maps contained in Schedule 2 may also be subject to the defined flood event or defined storm tide event.

8.2.4.2 Purpose

- (1) The purpose of the Flood and storm tide hazard overlay code is to:
 - (a) implement the policy direction in the Strategic Framework, in particular:
 - (i) Theme 1 Settlement pattern: Element 3.4.7 Mitigation of hazards;
 - (ii) Theme 6 Infrastructure and transport: Element 3.9.2 Energy.
 - (b) enable an assessment of whether development is suitable on land within the Flood and storm tide hazard sub-categories.
- (2) The purpose of the code will be achieved through the following overall outcomes:
 - (a) development siting, layout and access responds to the risk of the natural hazard and minimises risk to personal safety;
 - (b) development achieves an acceptable or tolerable risk level, based on a fit for purpose risk assessment;
 - (c) the development is resilient to natural hazard events by ensuring siting and design accounts for the potential risks of natural hazards to property;
 - (d) the development supports, and does not unduly burden disaster management response or recovery capacity and capabilities;
 - (e) the development directly, indirectly and cumulatively avoids an unacceptable increase in severity of the natural hazards and does not significantly increase the potential for damage on site or to other properties;
 - (f) the development avoids the release of hazardous materials as a result of a natural hazard event;
 - (g) natural processes and the protective function of landforms and/or vegetation are maintained in natural hazard areas;
 - (h) community infrastructure is located and designed to maintain the required level of functionality during and immediately after a hazard event.

Criteria for assessment

Table 8.2.4.3.a – Flood and storm tide hazards overlay code –assessable development

Performance outcomes	Acceptable outcomes	Applicant response
For self-assessable and assessable development		

Performance outcomes	Acceptable outcomes	Applicant response
<p>PO1 Development is located and designed to: ensure the safety of all persons; minimise damage to the development and contents of buildings; provide suitable amenity; minimise disruption to residents, recovery time, and rebuilding or restoration costs after inundation events.</p> <p>Note – For assessable development within the flood plain assessment sub-category, a flood study by a suitably qualified professional is required to identify compliance with the intent of the acceptable outcome.</p>	<p>AO1.1 Development is sited on parts of the land that is not within the Flood and Storm tide hazards overlay maps contained in Schedule 2;</p> <p>or</p> <p>For dwelling houses,</p> <p>AO1.2 Development within the Flood and Storm Tide hazards overlay maps (excluding the Flood plain assessment sub-category) is designed to provide immunity to the Defined Inundation Event as outlined within Table 8.2.4.3.b plus a freeboard of 300mm.</p>	<p>Complies with AO1.1. The proposed development is for a Boundary Realignment with no additional works proposed.</p>

Performance outcomes	Acceptable outcomes	Applicant response
	<p>AO1.3 New buildings are:</p> <ul style="list-style-type: none"> (a) not located within the overlay area; (b) located on the highest part of the site to minimise entrance of flood waters; (c) provided with clear and direct pedestrian and vehicle evacuation routes off the site. <p>AO1.4 In non urban areas, buildings and infrastructure are set back 50 metres from natural riparian corridors to maintain their natural function of reducing velocity of floodwaters.</p>	<p>Complies with AO1.3 and AO1.4 The proposed development is for a Boundary Realignment with no additional works proposed.</p>
For assessable development		
<p>PO2 The development is compatible with the level of risk associated with the natural hazard.</p>	<p>AO2 The following uses are not located in land inundated by the Defined Flood Event (DFE) / Storm tide:</p> <ul style="list-style-type: none"> (a) Retirement facility; (b) Community care facility; (c) Child care centre. 	<p>Complies with AO2. The proposed development is for a Boundary Realignment with no additional works proposed. The proposed development does not include a land use specified in AO2.</p>
<p>PO3 Development siting and layout responds to flooding potential and maintains personal safety</p>	<p>For Material change of use</p> <p>AO3.1 New buildings are:</p> <ul style="list-style-type: none"> (a) not located within the overlay area; (b) located on the highest part of the site to minimise entrance of flood waters; (c) provided with clear and direct pedestrian and vehicle evacuation routes off the site. <p>or</p>	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.</p>

Performance outcomes	Acceptable outcomes	Applicant response
	<p>A03.2 The development incorporates an area on site that is at least 300mm above the highest known flood inundation level with sufficient space to accommodate the likely population of the development safely for a relatively short time until flash flooding subsides or people can be evacuated.</p> <p>or</p> <p>A03.3 Where involving an extension to an existing dwelling house that is situated below DFE /Storm tide, the maximum size of the extension does not exceed 70m² gross floor area.</p> <p>Note – If part of the site is outside the Hazard Overlay area, this is the preferred location of all buildings.</p> <p>For Reconfiguring a lot</p> <p>A03.4 Additional lots: (a) are not located in the hazard overlay area; or (b) are demonstrated to be above the flood level identified for the site.</p> <p>Note - If part of the site is outside the Hazard Overlay area, this is the preferred location for all lots (excluding park or other open space and recreation lots).</p> <p>Note – Buildings subsequently developed on the lots will need to comply with the relevant building assessment provisions under the <i>Building Act 1975</i>.</p>	

Performance outcomes	Acceptable outcomes	Applicant response
	<p>A03.5 Road and/or pathway layout ensures residents are not physically isolated from adjacent flood free urban areas and provides a safe and clear evacuation route path:</p> <ul style="list-style-type: none"> (a) by locating entry points into the reconfiguration above the flood level and avoiding culs-de-sac or other non-permeable layouts; and (b) by direct and simple routes to main carriageways. <p>A03.6 Signage is provided on site (regardless of whether the land is in public or private ownership) indicating the position and path of all safe evacuation routes off the site and if the site contains, or is within 100m of a floodable waterway, hazard warning signage and depth indicators are also provided at key hazard points, such as at floodway crossings or entrances to low-lying reserves.</p> <p>or</p> <p>A03.7 There is no intensification of residential uses within the flood affected areas on land situated below the DFE/Storm tide.</p>	

Performance outcomes	Acceptable outcomes	Applicant response
	<p>For Material change of use (Residential uses)</p> <p>AO3.8</p> <p>The design and layout of buildings used for residential purposes minimise risk from flooding by providing:</p> <p>(a) parking and other low intensive, non-habitable uses at ground level;</p> <p>Note - The high-set 'Queenslander' style house is a resilient low-density housing solution in floodplain areas. Higher density residential development should ensure only non-habitable rooms (e.g. garages, laundries) are located on the ground floor.</p>	
<p>PO4</p> <p>Development is resilient to flood events by ensuring design and built form account for the potential risks of flooding.</p>	<p>For Material change of use (Non-residential uses)</p> <p>AO4.2</p> <p>Non residential buildings and structures allow for the flow through of flood waters on the ground floor.</p> <p>Note - Businesses should ensure that they have the necessary contingency plans in place to account for the potential need to relocate property prior to a flood event (e.g. allow enough time to transfer stock to the upstairs level of a building or off site).</p> <p>Note - The relevant building assessment provisions under the <i>Building Act 1975</i> apply to all building work within the Hazard Area and need to take into account the flood potential within the area.</p> <p>AO4.3</p> <p>Materials are stored on-site:</p> <p>(a) are those that are readily able to be moved in a flood event;</p> <p>(b) where capable of creating a safety hazard by being shifted by flood waters, are contained in order to minimise movement in times of flood.</p> <p>Notes -</p> <p>(a) Businesses should ensure that they have the necessary contingency plans in place to account for the potential need to relocate property prior to a flood event (e.g. allow enough time to transfer stock to the upstairs level of a building or off site).</p> <p>(b) Queensland Government Fact Sheet 'Repairing your House after a Flood' provides information about water resilient products and building techniques.</p>	<p>Not applicable.</p> <p>The proposed development is for a Boundary Realignment with no additional works proposed.</p>

Performance outcomes	Acceptable outcomes	Applicant response
<p>PO5 Development directly, indirectly and cumulatively avoids any increase in water flow velocity or flood level and does not increase the potential flood damage either on site or on other properties.</p> <p>Note – Berms and mounds are considered to be an undesirable built form outcome and are not supported.</p>	<p>For Operational works</p> <p>AO5.1 Works in urban areas associated with the proposed development do not involve:</p> <ul style="list-style-type: none"> (a) any physical alteration to a watercourse or floodway including vegetation clearing; or (b) a net increase in filling (including berms and mounds). <p>AO5.2 Works (including buildings and earthworks) in non urban areas either:</p> <ul style="list-style-type: none"> (a) do not involve a net increase in filling greater than 50m³; or (b) do not result in any reductions of on-site flood storage capacity and contain within the subject site any changes to depth/duration/velocity of flood waters; <p>or</p> <ul style="list-style-type: none"> (c) do not change flood characteristics outside the subject site in ways that result in: <ul style="list-style-type: none"> (i) loss of flood storage; (ii) loss of/changes to flow paths; (iii) acceleration or retardation of flows or any reduction in flood warning times elsewhere on the flood plain. 	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.</p>

Performance outcomes	Acceptable outcomes	Applicant response
	<p>For Material change of use</p> <p>AO5.3 Where development is located in an area affected by DFE/Storm tide, a hydraulic and hydrology report, prepared by a suitably qualified professional, demonstrates that the development maintains the flood storage capacity on the subject site; and</p> <p>(a) does not increase the volume, velocity, concentration of flow path alignment of stormwater flow across sites upstream, downstream or in the general vicinity of the subject site; and</p> <p>(b) does not increase ponding on sites upstream, downstream or in the general vicinity of the subject site.</p> <p>For Material change of use and Reconfiguring a lot</p> <p>AO5.4 In non urban areas, buildings and infrastructure are set back 50 metres from natural riparian corridors to maintain their natural function of reducing velocity of floodwaters.</p> <p>Note – Fences and irrigation infrastructure (e.g. irrigation tape) in rural areas should be managed to minimise adverse the impacts that they may have on downstream properties in the event of a flood.</p>	
<p>PO6 Development avoids the release of hazardous materials into floodwaters.</p>	<p>For Material change of use</p> <p>AO6.1 Materials manufactured or stored on site are not hazardous or noxious, or comprise materials that may cause a detrimental effect on the environment if discharged in a flood event;</p>	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.</p>

Performance outcomes	Acceptable outcomes	Applicant response
	<p>or</p> <p>AO6.2 If a DFE level is adopted, structures used for the manufacture or storage of hazardous materials are:</p> <ul style="list-style-type: none"> (a) located above the DFE level; or (b) designed to prevent the intrusion of floodwaters. <p>AO6.3 Infrastructure is designed and constructed to resist hydrostatic and hydrodynamic forces as a result of inundation by the DFE.</p> <p>AO6.4 If a flood level is not adopted, hazardous materials and their manufacturing equipment are located on the highest part of the site to enhance flood immunity and designed to prevent the intrusion of floodwaters.</p> <p>Note – Refer to <i>Work Health and Safety Act 2011</i> and associated Regulation and Guidelines, the <i>Environmental Protection Act 1994</i> and the relevant building assessment provisions under the <i>Building Act 1975</i> for requirements related to the manufacture and storage of hazardous materials.</p>	
<p>P07 The development supports, and does not unduly burden, disaster management response or recovery capacity and capabilities.</p>	<p>A07 Development does not:</p> <ul style="list-style-type: none"> (a) increase the number of people calculated to be at risk of flooding; (b) increase the number of people likely to need evacuation; (c) shorten flood warning times; and 	<p>Complies with A07. The proposed development is for a Boundary Realignment with no additional works proposed.</p>

Performance outcomes	Acceptable outcomes	Applicant response
	(d) impact on the ability of traffic to use evacuation routes, or unreasonably increase traffic volumes on evacuation routes.	
PO8 Development involving community infrastructure: (a) remains functional to serve community need during and immediately after a flood event; is designed, sited and operated to avoid adverse impacts on the community or environment due to impacts of flooding on infrastructure, facilities or access and egress routes; retains essential site access during a flood event; is able to remain functional even when other infrastructure or services may be compromised in a flood event.	AO8.1 The following uses are not located on land inundated during a DFE/Storm tide: (a) community residence; and (b) emergency services; and (c) residential care facility; and (d) utility installations involving water and sewerage treatment plants; and (e) storage of valuable records or items of historic or cultural significance (e.g. archives, museums, galleries, libraries). or AO8.2 The following uses are not located on land inundated during a 1% AEP flood event: (a) community and cultural facilities, including facilities where an education and care service under the Education and care Services National law (Queensland) is operated or child care service under the <i>Child Care Act 2002</i> is conducted, (b) community centres; (c) meeting halls; (d) galleries; (e) libraries.	Complies with AO2. The proposed development is for a Boundary Realignment with no additional works proposed. The proposed development does not include a land use specified in AO8.1.

Performance outcomes	Acceptable outcomes	Applicant response
	<p>The following uses are not located on land inundated during a 0.5% AEP flood event.</p> <ul style="list-style-type: none"> (a) emergency shelters; (b) police facilities; (c) sub stations; (d) water treatment plant <p>The following uses are not located on land inundated during a 0.2% AEP flood event:</p> <ul style="list-style-type: none"> (a) correctional facilities; (b) emergency services; (c) power stations; (d) major switch yards. <p>and/or</p> <p>AO8.3 The following uses have direct access to low hazard evacuation routes as defined in</p> <p>Table 8.2.4.3.c :</p> <ul style="list-style-type: none"> (a) community residence; and (b) emergency services; and (c) hospitals; and (d) residential care facility; and (e) sub stations; and (f) utility installations involving water and sewerage treatment plants. <p>AO8.4 Any components of infrastructure that are likely to fail to function or may result in contamination when inundated by flood, such as electrical switch gear and</p>	

Performance outcomes	Acceptable outcomes	Applicant response
	<p>motors, telecommunications connections, or water supply pipeline air valves are:</p> <p>(a) located above DFE/Storm tide or the highest known flood level for the site;</p> <p>(b) designed and constructed to exclude floodwater intrusion / infiltration.</p> <p>AO8.5 Infrastructure is designed and constructed to resist hydrostatic and hydrodynamic forces as a result of inundation by a flood.</p>	

Table 8.2.4.3.b - Minimum immunity (floor levels) for development

Minimum immunity to be achieved (floor levels)	Uses and elements of activities acceptable in the event
20% AEP level	<ul style="list-style-type: none"> • Parks and open space.
5% AEP level	<ul style="list-style-type: none"> • Car parking facilities (including car parking associated with use of land).
1% AEP level	<ul style="list-style-type: none"> • All development (where not otherwise requiring an alternative level of minimum immunity).
0.5% AEP level	<ul style="list-style-type: none"> • Emergency services (if for a police station); • Industry activities (if including components which store, treat or use hazardous materials); • Substation; • Utility installation.
0.2% AEP level	<ul style="list-style-type: none"> • Emergency services; • Hospital; • Major electricity infrastructure; • Special industry.

Table 8.2.4.3.c - Degree of flood

Criteria	Low	Medium	High	Extreme
Wading ability	If necessary children and the elderly could wade. (Generally, safe wading velocity depth product is less than 0.25)	Fit adults can wade. (Generally, safe wading velocity depth product is less than 0.4)	Fit adults would have difficulty wading. (Generally, safe wading velocity depth product is less than 0.6)	Wading is not an option.
Evacuation distances	< 200 metres	200-400 metres	400-600 metres	600 metres
Maximum flood depths	< 0.3 metre	< 0.6 metre	< 1.2 metres	1.2 metres
Maximum flood velocity	< 0.4 metres per second	< 0.8 metres per second	< 1.5 metres per second	1.5 metres per second
Typical means of egress	Sedan	Sedan early, but 4WD or trucks later	4WD or trucks only in early stages, boats or helicopters	Large trucks, boats or helicopters
Timing Note: This category cannot be implemented until evacuation times have been established in the Counter Disaster Plan (Flooding)	Ample flood forecasting. Warning and evacuation routes remain passable for twice as long as evacuation time.	Evacuation routes remain trafficable for 1.5 times as long as the evacuation.	Evacuation routes remain trafficable for only up to minimum evacuation time.	There is insufficient evacuation time.

Note: The evacuation times for various facilities or areas would (but not necessarily) be included in the Counter Disaster Plan.
Generally safe wading conditions assume even walking surfaces and no obstructions, steps, soft underfoot etc.

a8.2.5 Hillslopes overlay code

8.2.5.1 Application

- (1) This code applies to assessing a material change of use, reconfiguring a lot, operational work or building work within the Hillslopes overlay, if:
 - (a) self assessable or assessable development where the code is identified as being applicable in the Assessment criteria for the Overlay Codes contained in the Levels of Assessment Tables in section 5.6;
 - (b) impact assessable development.
- (2) Land in the Hillslopes overlay is identified on the Hillslopes overlay map in Schedule 2 and includes the following sub-categories:
 - (a) Hillslopes constraint sub-category.
- (3) When using this code, reference should be made to Part 5.

8.2.5.2 Purpose

- (1) The purpose of the Hillslopes overlay code is to:
 - (a) implement the policy direction in the Strategic Framework, in particular:
 - (i) Theme 1 - Settlement pattern: Element 3.4.7 Mitigation of hazards;
 - (ii) Theme 2 – Environment and landscape values: Element 3.5.5 Scenic amenity.
 - (b) enable an assessment of whether development is suitable on land within the Hillslopes sub-categories.
- (2) The purpose of the code will be achieved through the following overall outcomes:
 - (a) development on hillslopes is safe, serviceable and accessible;
 - (b) the ecological values, landscape character and visual quality of the hillslopes are protected from development so as to retain the scenic backdrop to the region;
 - (c) Development on hillslopes is appropriate, having regard to the topographic constraints and environmental characteristics of the land;
 - (d) Development responds to the constraints of the site including gradient and slope stability;
 - (e) Works do not involve complex engineering solutions.

Criteria for assessment

Table 8.2.5.3.a – Hillslopes overlay code –assessable development

Performance outcomes	Acceptable outcomes	Applicant response
For self-assessable development		
PO1 The landscape character and visual amenity quality of hillslopes areas is retained to protect the scenic backdrop to the region.	AO1.1 Development is located on parts of the site that are not within the Hillslopes constraint sub-category as shown on the Hillslopes overlay Maps contained in schedule 2.	Complies with AO1.1. The proposed development is for a Boundary Realignment with no additional works proposed.

Performance outcomes	Acceptable outcomes	Applicant response
For assessable development		
PO2 The landscape character and visual amenity quality of hillslopes areas is retained to protect the scenic backdrop to the region.	AO2.1 Development does not occur on land with a gradient in excess of 1 in 6 (16.6%) or AO2.2 Where development on land steeper than 1 in 6 (16.6%) cannot be avoided, development follows the natural contours of the site. AO2.3 Access ways and driveways are: (a) constructed with surface materials that blend with the surrounding environment; (b) landscaped with dense planting to minimise the visual impact of the construction; (c) provided with erosion control measures immediately after construction. AO2.4 The clearing or disturbance of vegetation is limited to clearing and disturbance that: (a) is necessary for the construction of driveways; (b) is necessary to contain the proposed development; (c) minimises canopy clearing or disturbance; (d) minimises riparian clearing or disturbance. AO2.5 On land with slopes greater than 1 in 6 (16.6%) or greater, alternative construction methods to concrete slab on ground are utilised (i.e. split level or post and	Complies with AO2.1. The proposed development is for a Boundary Realignment with no additional works proposed. Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed. Vegetation clearing is not proposed. Each Lot has existing access arrangements which will not be altered.

Performance outcomes	Acceptable outcomes	Applicant response
	<p>beam constructed buildings that minimise modification to the natural terrain of the land).</p> <p>AO2.6 Development does not alter the sky line.</p> <p>AO2.7 Buildings and structures:</p> <ul style="list-style-type: none"> (a) are finished predominantly in the following exterior colours or surfaces: (b) moderately dark to darker shades of olive green, brown, green, blue, or charcoal; or (c) moderately dark to darker wood stains that blend with the colour and hues of the surrounding vegetation and landscape; (d) are not finished in the following exterior colours or surfaces: (e) pastel or terracotta colours, reds, yellows, shades of white or beige, or other bright colours that do not blend with the surrounding vegetation and landscape; (f) reflective surfaces. <p>AO2.8 Exterior colour schemes limit the use of white or other light colours to exterior trim and highlighting of architectural features</p> <p>AO2.9 Areas between the first floor (including outdoor deck areas) and ground level are screened from view.</p> <p>AO2.10 Recreational or ornamental features (including tennis courts, ponds or swimming pools) do not occur on land:</p>	

Performance outcomes	Acceptable outcomes	Applicant response
	(a) with a gradient of 1 in 6 (16.6%) or more; (b) are designed to be sited and respond to the natural constraints of the land and require minimal earthworks	
PO3 Excavation or filling does not have an adverse impact on the amenity, safety, stability or function of the site or adjoining premises through: (a) loss of privacy; (b) loss of access to sunlight; (c) intrusion of visual or overbearing impacts; (d) complex engineering solutions.	A03 Excavation or fill: (a) is not more than 1.2 metres in height for each batter or retaining wall; (b) is setback a minimum of 2 metres from property boundaries; (c) is stepped with a minimum 2 metre wide berm to incorporate landscaping in accordance with Planning scheme policy SC6.7 – Landscaping; (d) does not exceed a maximum of 3 batters and 3 berms (i.e. not greater than 3.6 metres in height) on any one lot.	Complies with AO1.1. The proposed development is for a Boundary Realignment with no additional works proposed. No excavation and/or fill works are proposed.

Performance outcomes	Acceptable outcomes	Applicant response
Lot reconfiguration		
<p>PO4 For development that involves reconfiguring a lot, lot layout and design is responsive to the natural constraints of the land and each lot is capable of being used for its intended purpose.</p>	<p>AO4.1 The frontage and depth of all lots is of sufficient width to:</p> <ul style="list-style-type: none"> (a) allow driveways to follow the natural contours of the site and not exceed a gradient of 1 in 6 (16.6%); (b) accommodate any changes in gradient between the road and lot within the lot boundary and not within the road reserve. <p>AO4.2 Development does not create new lots containing land of greater than 1 in 6 (16.6%), except where a rectangular area of land of lesser grade is contained within the new lots to accommodate the intended land use, with the balance left in its natural state to the greatest extent possible.</p> <p>Note – The size of rectangular areas is outlined within each zone code.</p> <p>AO4.3 Development does not alter ridgelines.</p> <p>AO4.4 Lots are designed to ensure rooflines of future buildings and structures do not protrude above a ridgeline.</p>	<p>Complies with AO1.1 to AO1.4. The proposed development is for a Boundary Realignment with no additional works proposed.</p> <p>The proposed Boundary Realignment seeks to rationalise three (3) existing Lots which are split by Road Reserve. The proposed Lot boundaries respond to natural features and provide sufficient unencumbered area for each Lot.</p>

8.2.6 Landscape values overlay code

8.2.6.1 Application

- (1) This code applies to assessing a material change of use, reconfiguring a lot, operational work or building work within the Landscape values overlay, if:
 - (a) self-assessable or assessable development where the code is identified as being applicable in the Assessment criteria for the Overlay Codes contained in the Levels of Assessment Tables in section 5.6;
 - (b) impact assessable development.
- (2) Land in the Landscape values overlay is identified on the Landscape values overlay map in Schedule 2 and includes in following sub-categories:
 - (a) High landscape value sub-category;
 - (b) Medium landscape value sub-category;
 - (c) Scenic route buffer / view corridor area sub-category;
 - (d) Coastal scenery area sub-category.
- (3) When using this code, reference should be made to Part 5.

8.2.6.2 Purpose

- (1) The purpose of the Landscape values overlay code is to:
 - (a) implement the policy direction of the Strategic Framework, in particular:
 - (i) Theme 2: Environment and landscape values Element 3.5.5 Scenic amenity;
 - (ii) Theme 3: Natural resource management Element 3.6.4 – Resource extraction.
 - (b) enable an assessment of whether development is suitable on land within the Landscape values overlay sub-categories.
- (2) The purpose of the code will be achieved through the following overall outcomes:
 - (a) areas of High landscape value are protected, retained and enhanced;
 - (b) areas of Medium landscape value are managed to integrate and limit the visual impact of development;
 - (c) the landscape values of the Coastal scenery area are managed to integrate and limit the visual impact of development;
 - (d) development maintains and enhances the significant landscape elements and features which contribute to the distinctive character and identity of Douglas Shire;
 - (e) ridges and vegetated hillslopes are not developed in a way that adversely impacts on landscape values;
 - (f) watercourses, forested mountains and coastal landscape character types remain predominantly natural in appearance in order to maintain the region's diverse character and distinctive tropical image, in particular:
 - (i) areas in the coastal landscape character type which are predominantly natural and undeveloped in appearance retain this natural landscape character;
 - (ii) watercourses which are predominantly natural and undeveloped in appearance retain this natural landscape character;
 - (iii) the rural character of cane fields and lowlands landscape character types which are predominantly rural or natural in appearance are maintained;
 - (iv) landscape values are maintained when viewed from lookouts, scenic routes, gateways and public places.
 - (g) views towards High landscape value areas and the Coral Sea are not diminished;
 - (h) development is consistent with the prevailing landscape character of its setting, and is neither visually dominant nor visually intrusive;
 - (i) advertising devices do not detract from the landscape values, character types or amenity of an area.

Criteria for assessment**Table 8.2.6.3.z – Landscape values overlay code – assessable development**

Performance outcomes	Acceptable outcomes	Applicant response
For assessable development		
Development in a High landscape value area		
PO1 Development within High landscape value areas identified on the Landscape values overlay maps contained in Schedule 2: <ul style="list-style-type: none"> (a) avoids detrimental impacts on the landscape values of forested skylines, visible hillslopes, ridgelines, the coastal foreshore or the shoreline of other water bodies through the loss of vegetation; (b) is effectively screened from view from a road, lookout or other public place by an existing natural landform or native vegetation, or will be effectively screened by native vegetation within 3 years of construction; 	AO1.1 Buildings and structures are not more than 8.5 metres and two storeys in height. Note - Height is inclusive of roof height. AO1.2 Buildings and structures are setback not less than 50 metres from ridgelines or peaks. AO1.3 Development is screened from view from roads or other public places by an existing natural landform or an existing native vegetation buffer.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.
<ul style="list-style-type: none"> (c) retains existing vegetation and incorporates new landscaping to enhance existing vegetation and visually soften built form elements; (d) incorporates development of a scale, design, height, position on site, construction materials and external finishes that are compatible with the landscape values of the locality; (e) avoids detrimental impacts on landscape values and excessive changes to the natural landform as a result of the location, position on site, scale, design, extent and alignment of earthworks, roads, driveways, retaining walls and other on-ground or in-ground infrastructure; 	AO1.4 Where development on land steeper than 1 in 6 (16.6%) cannot be avoided: <ul style="list-style-type: none"> (a) development follows the natural; contours of the site; buildings are split level or suspended floor construction, or a combination of the two; lightweight materials are used to areas with suspended floors. Note - Examples of suitable lightweight materials include timber or fibre cement boards or sheeting for walls and factory treated metal sheeting for walls and roofs. AO1.5	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.

Performance outcomes	Acceptable outcomes	Applicant response
<p>(f) avoids detrimental impacts on landscape values and views as a result of the location, position on site, scale, design and alignment of telecommunications facilities, electricity towers, poles and lines and other tall infrastructure;</p> <p>(g) extractive industry operations are avoided.</p> <p>Note - A visual impact assessment is undertaken in accordance with Planning scheme policy SC6.6 – Landscape values in order to satisfy performance outcomes.</p>	<p>The external features, walls and roofs of buildings and structures have a subdued and non-reflective palette.</p> <p>Note - Examples of suitable colours include shades of green, olive green, blue green, grey green, green blue, indigo, brown, blue grey, and green yellow.</p> <p>AO1.6 No clearing of native vegetation occurs on land with a slope greater than 1 in 6 (16.5%).</p> <p>AO1.7 Where for accommodation activities or reconfiguration of a lot in a High landscape value area, development demonstrates that the height, design, scale, positioning on-site, proposed construction materials and external finishes are compatible with the landscape values.</p> <p>Note - A visual impact assessment undertaken in accordance with Planning scheme policy SC6.6 – Landscape values may be required.</p> <p>AO1.8 Advertising devices do not occur.</p>	
Development within the Medium landscape value area		
<p>PO2 Development within Medium landscape value areas identified on the Landscape values overlay maps contained in Schedule 2:</p> <p>(a) avoids detrimental impacts on the landscape values of forested skylines, visible hillslopes, ridgelines, the coastal foreshore or the shoreline of other water bodies through the loss of vegetation;</p>	<p>AO2.1 Buildings and structures are not more than 8.5 metres and two storeys in height.</p> <p>Note - Height is inclusive of the roof height.</p> <p>AO2.2 Development is screened from view from roads or other public places by an existing natural landform or an existing native vegetation buffer.</p>	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.</p>

Performance outcomes	Acceptable outcomes	Applicant response
<p>(b) is effectively screened from view from a road, lookout or other public place by an existing natural landform or native vegetation, or will be effectively screened by native vegetation within 5 years of construction;</p> <p>(c) retains existing vegetation and incorporates new landscaping to enhance existing vegetation and visually soften built form elements;</p> <p>(d) incorporates development of a scale, design, height, position on site, construction materials and external finishes that are compatible with the landscape values of the locality;</p> <p>(e) avoids detrimental impacts on landscape values and excessive changes to the natural landform as a result of the location, position on site, scale, design and alignment of earthworks, roads, driveways, retaining walls and other on-ground or in-ground infrastructure;</p> <p>(f) avoids detrimental impacts on landscape values and views as a result of the location, position on site, scale, design and alignment of telecommunications facilities, electricity towers, poles and lines and other tall infrastructure;</p> <p>(g) extractive industry operations are avoided, or where they cannot be avoided, are screened from view.</p> <p>Note - A visual impact assessment is undertaken in accordance with Planning scheme policy SC6.6 – Landscape values in order to satisfy performance outcomes.</p>	<p>AO2.3 Where development on land steeper than 1 in 6 (16.6%) cannot be avoided:</p> <p>(a) development follows the natural; contours of the site;</p> <p>(b) buildings are split level or suspended floor construction, or a combination of the two;</p> <p>(c) lightweight materials are used to areas with suspended floors.</p> <p>Note - Examples of suitable lightweight materials include timber or fibre cement boards or sheeting for walls and factory treated metal sheeting for walls and roofs.</p> <p>AO2.4 The external features, walls and roofs of buildings and structures have a subdued and non-reflective palette.</p> <p>Note - Examples of suitable colours include shades of green, olive green, blue green, grey green, green blue, indigo, brown, blue grey, and green yellow.</p> <p>AO2.5 No clearing of native vegetation occurs on land with a slope greater than 1 in 6 (16.6%).</p> <p>AO2.6 Advertising devices do not occur.</p>	
Development within a Scenic route buffer / view corridor area		

Performance outcomes	Acceptable outcomes	Applicant response
<p>PO3 Development within a Scenic route buffer / view corridor area as identified on the Landscape values overlay maps contained in Schedule 2:</p> <ul style="list-style-type: none"> (a) retains visual access to views of the surrounding landscape, the sea and other water bodies; (b) retains existing vegetation and incorporates landscaping to visually screen and soften built form elements whilst not impeding distant views or view corridors; (c) incorporates building materials and external finishes that are compatible with the visual amenity and the landscape character; (d) minimises visual impacts on the setting and views in terms of: (e) the scale, height and setback of buildings; (f) the extent of earthworks and impacts on the landform including the location and configuration of access roads and driveways; (g) the scale, extent and visual prominence of advertising devices. <p>Note - A visual impact assessment is undertaken in accordance with Planning scheme policy SC6.6 – Landscape values in order to satisfy performance outcomes.</p>	<p>AO3.1 Where within a Scenic route buffer / view corridor area, the height of buildings and structures is not more than identified within the acceptable outcomes of the applicable zone code.</p> <p>AO3.2 No clearing of native vegetation is undertaken within a Scenic route buffer area.</p> <p>AO3.3 Where within a Scenic route buffer / view corridor area development is set back and screened from view from a scenic route by existing native vegetation with a width of at least 10 metres and landscaped in accordance with the requirements of the landscaping code.</p> <p>AO3.4 Development does not result in the replacement of, or creation of new, additional, or enlarged advertising devices.</p>	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.</p>
Development within the Coastal scenery area		
<p>PO4 The landscape values of the Coastal scenery zone as identified on the Landscape values overlay maps contained in Schedule 2 are managed to integrated and limit the visual impact of development.</p> <p>Note - A visual impact assessment is undertaken in accordance with Planning scheme policy SC6.6 – Landscape values in order to satisfy performance outcomes.</p>	<p>AO4.1 The dominance of the natural character of the coast is maintained or enhanced when viewed from the foreshore.</p> <p>AO4.2 Where located adjacent to the foreshore buildings and structures are setback:</p>	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.</p>

Performance outcomes	Acceptable outcomes	Applicant response
	<p>(a) Where no adjoining development, a minimum of 50 metres from the coastal high water mark and the setback area is landscaped with a native vegetation buffer that has a minimum width of 25 metres; or</p> <p>(b) Where there is adjoining development, setbacks will be consistent with that of adjoining buildings and structures, but not less than 10 metres from the coastal high water mark. The setback area is landscaped in accordance with the requirements of the Landscaping code.</p> <p>AO4.3 Where separated from the foreshore by land contained within public ownership (e.g. unallocated State land, esplanade or other public open space), buildings and structures area setback:</p> <p>(a) where no adjoining development, a minimum of 6 metres from the coastward property boundary. The setback area is landscaped in accordance with the requirements of the Landscaping code; or</p> <p>(b) where there is adjoining development, setbacks will be consistent with that of adjoining buildings and structures. The setback area is landscaped in accordance with the requirements of the Landscaping code.</p>	
<p>PO5 Development is to maximise opportunities to maintain and/or enhance natural landscape values through the maintenance and restoration of</p>	<p>AO5 No clearing of native vegetation is undertaken within a Coastal scenery area zone, except for exempt vegetation damage undertaken in accordance with the Vegetation management code</p>	<p>Complies with AO5. The proposed development is for a Boundary Realignment with no additional works proposed. No vegetation clearing is proposed.</p>

Performance outcomes	Acceptable outcomes	Applicant response
<p>vegetated buffers between development and coastal waters, where practical.</p> <p>Note – A visual impact assessment is undertaken in accordance with Planning scheme policy SC6.6 – Landscape values in satisfaction of a performance outcome.</p>		

8.2.7 Natural areas overlay code

8.2.7.1 Application

- (1) This code applies to assessing a material change of use, reconfiguring a lot, operational work or building work within the Natural areas overlay, if:
 - (a) self-assessable or assessable development where the code is identified as being applicable in the Assessment criteria for the Overlay Codes contained in the Levels of Assessment Tables in section 5.6;
 - (b) impact assessable development.
- (2) Land in the Natural areas overlay is identified on the Natural areas overlay map in Schedule 2 and includes the following sub-categories:
 - (a) MSES – Protected area;
 - (b) MSES – Marine park;
 - (c) MSES – Wildlife habitat;
 - (d) MSES – Regulated vegetation;
 - (e) MSES – Regulated vegetation (intersecting a Watercourse);
 - (f) MSES – High ecological significance wetlands;
 - (g) MSES – High ecological value waters (wetlands);
 - (h) MSES – High ecological value waters (watercourse);
 - (i) MSES – Legally secured off set area.

Note – MSES = Matters of State Environmental Significance.

- (3) When using this code, reference should be made to Part 5.

8.2.7.2 Purpose

- (1) The purpose of the Natural areas overlay code is to:
 - (a) implement the policy direction in the Strategic Framework, in particular:
 - (i) Theme 2: Environment and landscape values, Element 3.5.3 Biodiversity, Element 3.5.4 Coastal zones;
 - (ii) Theme 3: Natural resource management Element 3.6.2 Land and catchment management, Element 3.6.3 Primary production, forestry and fisheries.
 - (b) enable an assessment of whether development is suitable on land within the Biodiversity area overlay sub-categories.
- (2) The purpose of the code will be achieved through the following overall outcomes:
 - (a) development is avoided within:
 - (i) areas containing matters of state environmental significance (MSES);
 - (ii) other natural areas;
 - (iii) wetlands and wetland buffers;
 - (iv) waterways and waterway corridors.
 - (b) where development cannot be avoided, development:
 - (i) protects and enhances areas containing matters of state environmental significance;
 - (ii) provides appropriate buffers;
 - (iii) protects the known populations and supporting habitat of rare and threatened flora and fauna species, as listed in the relevant State and Commonwealth legislation;

- (iv) ensures that adverse direct or indirect impacts on areas of environmental significance are minimised through design, siting, operation, management and mitigation measures;
 - (v) does not cause adverse impacts on the integrity and quality of water in upstream or downstream catchments, including the Great Barrier Reef World Heritage Area;
 - (vi) protects and maintains ecological and hydrological functions of wetlands, waterways and waterway corridors;
 - (vii) enhances connectivity across barriers for aquatic species and habitats;
 - (viii) rehabilitates degraded areas to provide improved habitat condition, connectivity, function and extent;
 - (ix) protects areas of environmental significance from weeds, pests and invasive species.
- (c) strategic rehabilitation is directed to areas on or off site, where it is possible to achieve expanded habitats and increased connectivity.

Criteria for assessment**Table 8.2.7.3.a - Natural areas overlay code – assessable development**

Performance outcomes	Acceptable outcomes	Applicant response
For self-assessable and assessable development		
Protection of matters of environmental significance		
PO1 Development protects matters of environmental significance.	AO1.1 Development avoids significant impact on the relevant environmental values. or AO1.2 A report is prepared by an appropriately qualified person demonstrating to the satisfaction of the assessment manager, that the development site does not contain any matters of state and local environmental significance. or AO1.3 Development is located, designed and operated to mitigate significant impacts on environmental values. For example, a report certified by an appropriately qualified person demonstrating to the satisfaction of the assessment manager, how the proposed development mitigates impacts, including on water quality, hydrology and biological processes.	Complies with AO1.1. The proposed development is for a Boundary Realignment with no additional works proposed.

Performance outcomes	Acceptable outcomes	Applicant response
Management of impacts on matters of environmental significance		
PO2 Development is located, designed and constructed to avoid significant impacts on matters of environmental significance.	AO2 The design and layout of development minimises adverse impacts on ecologically important areas by: <ul style="list-style-type: none"> (a) focusing development in cleared areas to protect existing habitat; (b) utilising design to consolidate density and preserve existing habitat and native vegetation; (c) aligning new property boundaries to maintain ecologically important areas; (d) ensuring that alterations to natural landforms, hydrology and drainage patterns on the development site do not negatively affect ecologically important areas; (e) ensuring that significant fauna habitats are protected in their environmental context; and (f) incorporating measures that allow for the safe movement of fauna through the site. 	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.
PO3 An adequate buffer to areas of state environmental significance is provided and maintained.	AO3.1 A buffer for an area of state environmental significance (Wetland protection area) has a minimum width of: <ul style="list-style-type: none"> (a) 100 metres where the area is located outside Urban areas; or (b) 50 metres where the area is located within a Urban areas. <p>or</p> AO3.2 A buffer for an area of state environmental significance is applied and maintained, the width of which is supported by an evaluation of environmental values, including the function and threats to matters of environmental significance.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.

Performance outcomes	Acceptable outcomes	Applicant response
PO4 Wetland and wetland buffer areas are maintained, protected and restored. Note – Wetland buffer areas are identified in AO3.1.	AO4.1 Native vegetation within wetlands and wetland buffer areas is retained. AO4.2 Degraded sections of wetlands and wetland buffer areas are revegetated with endemic native plants in patterns and densities which emulate the relevant regional ecosystem.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.
PO5 Development avoids the introduction of non-native pest species (plant or animal), that pose a risk to ecological integrity.	AO5.1 Development avoids the introduction of non-native pest species. AO5.2 The threat of existing pest species is controlled by adopting pest management practices for long-term ecological integrity.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.
Ecological connectivity		
PO6 Development protects and enhances ecological connectivity and/or habitat extent.	AO6.1 Development retains native vegetation in areas large enough to maintain ecological values, functions and processes. and AO6.2 Development within an ecological corridor rehabilitates native vegetation. and AO6.3 Development within a conservation corridor mitigates adverse impacts on native fauna, feeding, nesting, breeding and roosting sites and native fauna movements.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.

Performance outcomes	Acceptable outcomes	Applicant response
PO7 Development minimises disturbance to matters of state environmental significance (including existing ecological corridors).	A07.1 Development avoids shading of vegetation by setting back buildings by a distance equivalent to the height of the native vegetation. and A07.2 Development does not encroach within 10 metres of existing riparian vegetation and watercourses.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.
Waterways in an urban area		
PO8 Development is set back from waterways to protect and maintain: (a) water quality; (b) hydrological functions; (c) ecological processes; (d) biodiversity values; (e) riparian and in-stream habitat values and connectivity; (f) in-stream migration	A08.1 Where a waterway is contained within an easement or a reserve required for that purpose, development does not occur within the easement or reserve; or A08.2 Development does not occur on the part of the site affected by the waterway corridor. Note – Waterway corridors are identified within Table 8.2.7.3.b.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.
Waterways in a non-urban area		
PO9 Development is set back from waterways to protect and maintain: (a) water quality; (b) hydrological functions; (c) ecological processes; (d) biodiversity values; (e) riparian and in-stream habitat values and connectivity; (f) in-stream migration.	A09 Development does not occur on that part of the site affected by a waterway corridor. Note – Waterway corridors are identified within Table 8.2.7.3.b.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.

Table 8.2.7.3.b — Widths of waterway corridors for waterways

Waterways classification	Waterway corridor width
Waterways in Urban areas	10 metres measured perpendicular from the top of the high bank.
Waterways in Other areas	For a dwelling house, 10 metres measured perpendicular from the top of the high bank. For all other development, 20 metres measured perpendicular from the top of the high bank.

8.2.9 Potential landslide hazard overlay code

8.2.9.1 Application

- (1) This code applies to assessing a material change of use, reconfiguring a lot, operational work or building work within the Potential landslide hazard overlay; if
 - (a) self-assessable or assessable development where the code is identified as being applicable in the Assessment criteria for the Overlay Codes contained in the Levels of Assessment Tables in section 5.6;
 - (b) impact assessable development.
- (2) Land in the Potential landslide hazard overlay is identified on the Potential landslide hazard overlay maps in Schedule 2 and includes the following sub-categories:
 - (a) Places of potential landslide hazard sub-category.
- (3) When using this code, reference should be made to Part 5.

Note – The Potential landslide hazard overlay shows modelled areas where the factors contributing to landslide potential accumulate to provide a moderate or higher risk if certain factors are exacerbated (e.g. factors include significant vegetation clearing, filling and excavation, changes to soil characteristics, changes to overland water flow, or changes to sub-surface water flow). It shows areas that the Council has identified where landslides may occur and where land may be impacted by a landslide, but does not mean that landslides will occur or that the land will be impacted by a landslide. Other areas not contained within the potential landslide hazard overlay may sustain landslides or be impacted by landslides and consideration should be given to this issue, where appropriate.

8.2.5.2 Purpose

- (1) The purpose of the Potential landslide hazard overlay code is:
 - (a) implement the policy direction of the Strategic Framework, in particular:
 - (i) Theme 1: Settlement pattern Element 3.4.7 Mitigation of hazards.
 - (b) enable an assessment of whether development is suitable on land within the Potential landslide hazard overlay.
- (2) The purpose of the code will be achieved through the following overall outcomes:
 - (a) development is located, designed and constructed to not put at risk the safety of people, property and the environment;
 - (b) development is not at risk from and does not pose a risk to adjacent and nearby sites from landslides;
 - (c) ensures that community infrastructure is protected from the effects of potential landslides;
 - (d) ensures that vegetation clearing, stormwater management and filling and/or excavation does not create a landslide hazard and/or rectifies potential pre-existing landslide risks;
 - (e) development does not occur where works to provide a solution for safety of people, property or the environment involves complex engineering solutions to overcome the risk, or would result in a built form or outcome that causes an adverse visual impact on the Hillslopes or Landscape values of Douglas Shire.

Criteria for assessment

Table 8.2.9.20a – Potential landslide hazard overlay code – assessable development

Performance outcomes	Acceptable outcomes	Applicant response
For self-assessable and assessable development		
PO1 The siting and design of development does not involve complex engineering solutions and does not	AO1.1 Development is located on that part of the site not affected by the Potential landslide hazard overlay.	Complies with AO1.1.

Performance outcomes	Acceptable outcomes	Applicant response
<p>create or increase the potential landslide hazard risk to the site or adjoining premises through:</p> <ul style="list-style-type: none"> (a) building design; (b) increased slope; (c) removal of vegetation; (d) stability of soil; (e) earthworks; (f) alteration of existing ground water or surface water paths; (g) waste disposal areas. 	<p>or</p> <p>AO1.2 Development is on an existing stable, benched site and requires no further earthworks</p> <p>or</p> <p>AO1.3 A competent person certifies that:</p> <ul style="list-style-type: none"> (a) the stability of the site, including associated buildings and infrastructure, will be maintained during the course of the development and will remain stable for the life of the development; (b) development of the site will not increase the risk of landslide hazard activity on other land, including land above the site; (c) the site is not subject to the risk of landslide activity on other land; (d) any measures identified in a site-specific geotechnical report for stabilising the site or development have been fully implemented; (e) development does not concentrate existing ground water and surface water paths; (f) development does not incorporate on-site waste water disposal. 	<p>The proposed development is for a Boundary Realignment with no additional works proposed.</p>
	<p>Note – Planning scheme policy SC6.9 – Natural hazards provides guidance on preparing a site specific geo-technical assessment.</p> <p>Note – Development may alter the conditions of ground water and surface water paths in accordance with a site-specific geotechnical report, but should ensure that its final disbursement is as-per pre-developed conditions. Consideration for location, velocity, volume and quality should be given</p>	
<p>P02 The siting and design of necessary retaining structures does not cause an adverse visual impact on landscape character or scenic amenity quality of the area.</p>	<p>AO2 Excavation or fill:</p> <ul style="list-style-type: none"> (a) is not more than 1.2 metres in height for each batter or retaining wall; (b) is setback a minimum of 2 metres from property boundaries; 	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed. No excavation and/or filling works are proposed.</p>

Performance outcomes	Acceptable outcomes	Applicant response
	<p>(c) is stepped with a minimum 2 metre wide berm to incorporate landscaping in accordance with Planning scheme policy SC6.7 – Landscaping;</p> <p>(d) does not exceed a maximum of 3 batters and 3 berms (i.e. Not greater than 3.6 metres in height) on any one lot.</p>	
Additional requirements for Community infrastructure		
<p>PO3 Development for community infrastructure:</p> <p>(a) is not at risk from the potential landslide hazard areas;</p> <p>(b) will function without impediment from a landslide;</p> <p>(c) provides access to the infrastructure without impediment from the effects of a landslide;</p> <p>(d) does not contribute to an elevated risk of a landslide to adjoining properties.</p>	<p>AO3 Development is designed in accordance with the recommendations of a site-specific geotechnical assessment which makes reference to the community infrastructure and its needs and function.</p> <p>Note - A site specific geotechnical assessment will detail requirements that will address the Acceptable Outcomes of this Performance Outcome. Planning scheme policy SC6.9 – Natural hazards provides guidance on preparing a site specific geotechnical assessment.</p>	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed. The provision of community infrastructure does not form part of the proposed development.</p>

8.2.10 Transport network overlay code

8.2.10.1 Application

- (1) This code applies to assessing a material change of use, reconfiguring a lot, operational work or building work within the Transport network overlay; if:
 - (a) self-assessable or assessable development where the code is identified as being applicable in the Assessment criteria for the Overlay Codes contained in the Levels of Assessment Tables in section 5.6;
 - (b) impact assessable development.
- (2) Land within the Transport network overlay is identified on the Transport network (Road Hierarchy) overlay map and the Transport network (Pedestrian and Cycle) overlay map in Schedule 2 and includes the following sub-categories:
 - (a) Transport network (Road Hierarchy) overlay sub-categories:
 - (i) State controlled road sub-category;
 - (ii) Sub-arterial road sub-category;
 - (iii) Collector road sub-category;
 - (iv) Access road sub-category;
 - (v) Industrial road sub-category;
 - (vi) Major rural road sub-category;
 - (vii) Minor rural road sub-category;
 - (viii) Unformed road sub-category;
 - (ix) Major transport corridor buffer area sub-category.
 - (b) Transport network (Pedestrian and Cycle) overlay sub-categories:
 - (i) Principal route;
 - (ii) Future principal route;
 - (iii) District route;
 - (iv) Neighbourhood route;
 - (v) Strategic investigation route.

8.2.10.2 Purpose

- (1) The purpose of the Transport network overlay code is to:
 - (a) implement the policy direction of the Strategic Framework, in particular:
 - (i) Theme 1: Settlement pattern Element 3.4.2 Urban settlement, Element 3.4.3 Activity centres;
 - (ii) Theme 6: Infrastructure and transport Element 3.9.4 Transport;
 - (b) enable an assessment of whether development is suitable on land within the Transport network overlay.
- (2) The purpose of the code will be achieved through the following overall outcomes:
 - (a) development provides for transport infrastructure (including active transport infrastructure);
 - (b) development contributes to a safe and efficient transport network;
 - (c) development supports the existing and future role and function of the transport network;
 - (d) development does not compromise the safety and efficiency of major transport infrastructure and facilities.

Criteria for assessment**Table 8.2.10.3 a – Transport network overlay code – assessable development**

Performance outcomes	Acceptable outcomes	Applicant response
For assessable development		
PO1 Development supports the road hierarchy for the region. Note -A Traffic impact assessment report prepared in accordance with Planning scheme policy SC6.10 - Parking and access is one way to demonstrate achievement of the Performance Outcomes.	AO1.1 Development is compatible with the intended role and function of the transport network as identified on the Transport network overlay maps contained in Schedule 2. AO1.2 Development does not compromise the safety and efficiency of the transport network.	Complies with AO1.1 and AO1.2 The proposed development is for a Boundary Realignment with no additional works proposed. As no additional works are proposed, there will be no impact on the local transport network.

Performance outcomes	Acceptable outcomes	Applicant response
	AO1.3 Development is designed to provide access via the lowest order road, where legal and practicable access can be provided to that road.	Complies with AO1.3 The proposed development is for a Boundary Realignment with no additional works proposed. No changes to the existing access arrangements established for each Lot will occur.
PO2 Transport infrastructure is provided in an integrated and timely manner. Note - A Traffic impact assessment report prepared in accordance with Planning scheme policy SC6.10 - Parking and access is one way to demonstrate achievement of the Performance Outcomes.	AO2 Development provides infrastructure (including improvements to existing infrastructure) in accordance with: (a) the Transport network overlay maps contained in Schedule 2; (b) any relevant Local Plan. Note – The Translink Public Transport Infrastructure Manual provides guidance on the design of public transport facilities.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.
PO3 Development involving sensitive land uses within a major transport corridor buffer area is located, designed and maintained to avoid or mitigate adverse impacts on amenity for the sensitive land use.	AO3 No acceptable outcomes are prescribed. Note – Part 4.4 of the Queensland Development Code provides requirements for residential building design in a designated transport noise corridor.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.
PO4 Development does not compromise the intended role and function or safety and efficiency of major transport corridors. Note - A Traffic impact assessment report prepared in accordance with Planning scheme policy SC6.10 - Parking and access is one way to demonstrate achievement of the Performance Outcomes.	AO4.1 Development is compatible with the role and function (including the future role and function) of major transport corridors. AO4.2 Direct access is not provided to a major transport corridor where legal and practical access from another road is available.	Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.

Performance outcomes	Acceptable outcomes	Applicant response
	<p>AO4.3 Intersection and access points associated with major transport corridors are located in accordance with: (a) the Transport network overlay maps contained in Schedule 2; and (b) any relevant Local Plan.</p> <p>AO4.4 The layout of development and the design of the associated access is compatible with existing and future boundaries of the major transport corridor or major transport facility.</p>	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.</p>
<p>P05 Development retains and enhances existing vegetation between a development and a major transport corridor, so as to provide screening to potential noise, dust, odour and visual impacts emanating from the corridor.</p>	<p>AO5 No acceptable outcomes are prescribed.</p>	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.</p>
Pedestrian and cycle network		
<p>P06 Lot reconfiguration assists in the implementation of the pedestrian and cycle movement network to achieve safe, attractive and efficient pedestrian and cycle networks</p>	<p>AO6.1 Where a lot is subject to, or adjacent to an element of the pedestrian and cycle Movement network (identified on the Transport network overlay maps contained in Schedule 2) the specific location of this element of the pedestrian and cycle network is incorporated in the design of the lot layout.</p> <p>AO6.2 The element of the pedestrian and cycle network is constructed in accordance with the Design Guidelines set out in Sections D4 and D5 of the Planning scheme policy SC6.5 – FNQROC Regional Development Manual.</p>	<p>Not applicable. The proposed development is for a Boundary Realignment with no additional works proposed.</p>
