Dear Daniel,

Development Application: Material Change of Use (Dwelling House) 12 Murphy Street, Port Douglas (RP: Lot 113 on PTD2094)

Kelly Reaston Development and Property Services has been engaged by Kim Cullen and Neil Biddle (the Applicant) to prepare a development application for a Material Change of Use (Dwelling House) at 12 Murphy Street, Port Douglas. The proposal is to construct a new dwelling house on the site. The proposal is code assessable development under Douglas Shire Planning Scheme 2018.

In support of the Application, please find attached the following documents:

1. Completed DA Form 1 - **Attachment 1**
2. Title Search - **Attachment 2**
3. Plans of Development & Architectural Report - **Attachment 3**
4. Planning Report - **Attachment 4**
5. Photomontage- **Attachment 5**
6. Site Ecological Report – **Attachment 6**
7. Landscaping plans – **Attachment 7**
8. Geotechnical Engineering Report and supporting information- **Attachment 8**
9. Comparable Development on Murphy Street- **Attachment 9**
10. Assessment against the applicable development codes of the Douglas Shire Planning Scheme 2018 - **Attachment 10.**

This application material replaces the previous application material submitted to Council on 3 March 2022. Based on our discussions with Council, we understand the application fee previously paid will be applied to this application and no additional fees are payable.

Should you require any further information, please do not hesitate to contact Kelly Reaston on 0400 974 688 or at kelly@kellyreaston.com.au.

Kind regards

A handwritten signature in black ink, appearing to be 'KR' with a flourish.

Completed DA Form 1

DEVELOPMENT & PROPERTY SERVICES

DA Form 1 – Development application details

Approved form (version 1.3 effective 28 September 2020) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving only building work.

For a development application involving **building work only**, use *DA Form 2 – Building work details*.

For a development application involving **building work associated with any other type of assessable development (i.e. material change of use, operational work or reconfiguring a lot)**, use this form (*DA Form 1*) and parts 4 to 6 of *DA Form 2 – Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the *Planning Act 2016*, the *Planning Regulation 2017*, or the *Development Assessment Rules (DA Rules)*.

SITE

Located at No 12 Murphy Street on Lot 113 (PTD2094) Port Douglas, Queensland, the site is on Flagstaff Hill and has steep sloping topography of an approximate average of 1 in 3.

The upper portions of the residence have the best view potential. Once elevated above the existing Murphy Street vegetation it would allow clear views toward the south and southwest.

The access track and adjoining properties have established existing trees and in particular very large trees were identified on Lot 2 (RP731078) and Lot 114 (PTD2094).

Immediately in front of the site is a large Umbrella tree with a canopy reaching an approximate R.L of 48.

A history of instability to the hill slope is well known with remediation and stability works carried out along Murphy Street over the years and is seen to be one of the primary considerations for the project.

The current access to the site is via an existing dirt and track located in front of Lot 5 (RP747683) shielded from Murphy Street by high vegetation.

SITE ACCESS

The brief for the new residence highlighted a fundamental requirement to provide vehicular access to the upper portions of the site to the main living levels of the proposed residence.

This vehicular access would serve convenient day to day accessibility requirements whilst providing optimum outcomes for the construction and maintenance of the site and residence.

Careful consideration of alignments, construction techniques, and solutions to formalise the access track into a driveway has been undertaken. The solution would ensure stabilisation of approximately 73 meters of Murphy Street whilst also maintaining access to the adjoining Lot 114 (PTD2094).

The outcomes of the design process have sought to determine the least impact to the Murphy Street vegetation whilst optimising the views from the proposed residence.

The driveway and access have all been designed based on the relevant standards such as ramps & turning curves and will enhance the streetscape through a refined landscaping aesthetic.

ARCHITECTURE

The access requirements, topography and height limitations were fundamental in the positioning and methodology behind the design of the proposed residence.

Given the constraints the proposal has sought to balance cut and fill to minimise the height impact and maximise the access to the proposed residence.

This approach would see the entire site stabilised and result a built form that would nestle into the hill slopes and be surrounded by vegetation.

The residence itself is highly articulated and has been designed to embrace the tropical lifestyle with large outdoor areas covered by expansive awnings that protect from the elements.

Passive cooling techniques have been utilised throughout the building including such as cross ventilation using extensive louvres and chimney that works as a thermosyphon over all levels drawing the hot air out.

Planter boxes have been incorporated into the terraces which soften the built form, reduce thermal mass and provide further cooling to breezes that enter the residence.

The Palette of materials is intended to be soft muted natural tones that harmonise with the surrounds such as stonework, renders and timber ceilings, which when viewed from below offer a further tie into the landscape.
