Re: Council Application Number MCUI 2024_5682/1

NQ Asphalt Pty Ltd., Impact Assessable Development Application

For a Material Change of Use from Rural Zoning to Extractive Industry Zoning – Lot 1 on RP 893855

I am writing to formally object to the proposed development of Lot 1 on RP 893855 lodged by RPS Group on 16 October 2024. I have significant concerns about the potential impacts if the DA is not refused.

1. The proposed development is inconsistent with the intent for the area. The area is sugar cane farming and cattle fattening. A **large scale sand quarry** is out of character with the surrounding area.
2. The proposed development **does not fit within the Extractive Industry Code**. It is not a "small scale operation" whether it be extractions of 30,000 tonnes, or 100,000 tonnes. It does not comply with the Strategic Framework 3.6.4 - Resource Extraction.
3. The sand quarry site will not be visually unobtrusive as required under the Strategic Framework. Everyone travelling along Bonnie Doon Road or the Captain Cook Highway will be able to see it. In their report RPS has **failed to comply with the requirement of a 10 metre wide densely vegetated buffer to all road frontages and to all perimeter boundaries**

(Acceptable outcome A06.2 of the Criteria for assessment – Extractive industry code).

4. A sand quarry **operating 6 days per week from 7 a.m. to 6 p.m. hauling sand with 20 tonne trucks onto Bonnie Doon Road will create a traffic hazard**. There is insufficient road width for a truck turning out of or into the un-named road. This will create a dangerous situation as a lot of road users travel along Bonnie Doon Road at speeds up to 100 km/per hour.
5. **Bonnie Doon Road floods** every wet season and we are cut off at Cooya Beach. We cannot travel to Port Douglas or further south. This sand quarry will create further drainage and flooding problems in the area.
6. The proposed mining site adjoins a **wetland area of significant importance to the Eastern Kuku Yalanji People**. The vast mangrove system provides an abundance of food source for Traditional Owners, including muscles, periwinkles, crayfish, black jew fish, silver jew fish and swordfish as well as turtles and dugong. The wetlands contain spawning sites for various sea animals and significant beds of seagrass which is a primary food source for green sea turtles and dugong.

We, the undersigned, respectfully request that the Douglas Shire Council reject this development application for a sand

	Port Douglas		4877	Australia	8/12/2024	"I wouldn't like to see this beautiful, sensitive area turn into another Canterbury rd Kilsyth, big trucks constantly coming and going, dust and diesel polluting our environment, at least the cane trucks were only seasonal!"

			4873	Australia	8/12/2024	"I love in Cooya beach I don't want this"

	Redcliffe		4020	Australia	8/12/2024	"The residents, wildlife and environment will be detrimentally effected."
						"Do not do this to our Community, we helped fight to get our Shire Council back from Cairns so we would be protected and enable us to live in our unspoilt pocket of Qld. Don't be the Council that went against its residents and scarred our landscape forever."
	Queensland		4873	Australia	9/12/2024	"This is an unacceptable, wildly irresponsible proposal and one that needs to be quashed immediately. We live nestled between two world heritage listed parks, and we need to be doing everything we can to keep our sea and land as pristine and untouched as possible. The stretch of land from Port Douglas to Cooya is already

"I don't want 200 trucks a day (200X24tonnes) going to Cooya beach and back. Noise and pollution from this would be catastrophic for wild life in the area"

Port Douglas	4877	Australia	10/12/2024	"Worried about environmental impact and how it will affect our beautiful residential area"
				"I live in Cooya Beach and disagree with every aspect of this project; I live here because I love the natural environment. This project will be a disaster for our delicate ecosystem and disruptive to locals (including increasing traffic dangers on an already-hazardous road), not to mention an eye-sore. From a long-term economic perspective, projects that damage the very environment that draws tourists here make absolutely no sense. I strongly oppose this."
