Resubmission

Dear Neil,

**Andrews Close 15-Lot Subdivision
Operational Works Minor Changes Submission (ROL 2019_3061/1)**

On behalf of our client, KS5 Pty. Ltd. and subsequent to our recent discussions and emails, we hereby resubmit our application for an Operational Works Development Permit for the civil, electrical and landscaping works for the abovementioned project.

As discussed, some minor changes have occurred to the layout as a result of Ergon's requirement to incorporate a new substation into our client's allotment.

We have also taken this opportunity to add the staging of the development, due to the current uncertain economic environment due to Covid19.

Attached (digitally) for your information and action are the following:

- A complete set of Civil Construction Drawings (1 x A3 PDF of both stage 1 and stage 2 works);
- Landscape For Approval Drawings (1 x A3PDF of both stage 1 and stage 2 works);
- A copy of the SPA Electrical submission for stage 1

We trust that the attached provides sufficient supporting information to enable Council to approve the development and provide an Operational Works Permit
If you have any queries or require further information, please do not hesitate to contact this office.

Kind Regards,

A handwritten signature in black ink, appearing to read 'Greg Applin', with a stylized flourish at the end.

Greg Applin
