As requested, I am able to provide you with details relating to proposed tree/palm removals at the Wildlife Habitat, Port Douglas.

The site is currently undergoing extensive repair works and upgrades, in response to damage incurred during Cyclone Owen late last year.

A large component of the repair works involves the installation of a 600mm high wall (and associated footings) surrounding the existing Aviary cover / enclosure.

The works required in order to achieve this will take place either beyond or within immediate proximity to a number of significant trees and palms. Construction of the wall will impact upon trees/palms located within approximately 2m of the existing Aviary boundary. The 2m accounts for the distance that the wall will need to be from the Aviary's visible edge plus an additional 900mm for wall footings.

Throughout the planning process, the engineers responsible have consistently aimed to ensure that there is as little impact as possible upon trees/palms within the site during the necessary works, and as such the total number which require removal has been kept to a minimum.

A total of 12 Royal palms, 1 Alexander palm and 3 mixed species trees will need to be removed in order to complete works (a further number of smaller self-sown trees which fall outside of planning scheme guidelines will also need to be removed). All of these trees/palms are located either within the proposed area of construction or are in such close proximity that their entire structural root zone (SRZ) would be compromised if to be retained. A considerable number of trees/palms will remain in close proximity to the proposed construction, however plans have been put in place to ensure that their retention on the margins of SRZs is feasible (changes to excavation procedures and follow up assessments/tree health plans implemented).

A basic site plan is attached along with some images identifying the trees/palms to be removed.

A detailed wall construction plan is also attached.

Please do not hesitate to contact me in relation to the above or with any additional requirements.
