**ATTENTION – PLANNING DEPARTMENT**

Dear Sir

**APPLICATION TO REALIGN BOUNDARY BETWEEN LOT 1 & LOT 7 MOSSMAN-DAINTREE ROAD – LOWER DAINTREE**

Application is being made to Douglas Shire Council to realign the common boundary between Lot 1 and Lot 7 at Mossman-Daintree Road.

The application seeks approval to realign the boundary to formalise the existing access to Lot 7 and rationalise the existing boundary as the land next to the access is better suited to be in Lot 1.

The area of land to be added to Lot 1 will increase the size of this rural block and is home to various fruit trees and is also suitable for rural uses such as grazing cattle which is in keeping with current land practices.

As part of the application, attached is DA Form 1 and Owner's consent for the application to be made to Douglas Shire Council. A proposal plan is also attached that shows what the blocks will look like after the boundaries have been adjusted.

The following submission provides a description of the land and provides comment on parts of the planning scheme that applies to the proposal.

**Site**

Both Lot 1 and Lot 7 have their own existing access onto Mossman-Daintree Road and there is no change or impact on the access arrangements of either Lot 1 or Lot 7 as part of the proposal.

The land which the application is over is Lot 1 on RP 843598 which has an area of 10.93 hectares and Lot 7 on RP 896320 which has an area of 3.9 hectares. Both allotments are zoned Rural in the planning scheme.

Lot 1 has a dwelling and rural shed on it and is used primarily for cattle grazing. The other block Lot 7 has a dwelling and small shed and is a general residence.

**Proposal**

The proposal involves increasing the size of Lot 1 by realigning the southern boundary to include part of Lot 7. The size of Lot 1 will increase from 10.93 hectares to approximately 11.24 hectares. Lot 7 will decrease in size from 3.9 hectares to approximately 3.59 hectares.

A plan showing the existing boundaries and the new boundaries and lot areas is attached.

There will not be any changes to existing services for the land, however a new easement is proposed as the overhead mains power servicing Lot 7 currently runs through Lot 1. This will formalise the current arrangement as the easement tracks the path of the overhead powerline. The proposed easement is depicted on the Plan attached to this application.

**Consideration of Relevant Codes**

**Rural Zone Code**

The proposal complies with the rural zone code as the use of the properties will remain the same

following the relocation of the boundary. The proposal does not involve other land uses nor proposes any other building work or development to take place. Both properties will continue to operate as they do now.

### **Reconfiguring a Lot Code**

The existing lots do not comply with the minimum lot size of 40 hectares. The proposed boundary realignment increases the lot size of Lot 1 to 11.24 hectares while Lot 7 is reduced in size to 3.59 hectares.

The proposal to increase Lot 1 results in a land area that is more reflective of a larger rural holdings and increases the ability of that block to be used for rural land uses. Lot 7 is not used for rural land uses and is a private residence only. The reduction of area of this allotment has nil impact on how that land currently operates therefore is considered an acceptable outcome.

The proposal has previously been discussed with Council planners and they have advised that there would be no objection to the proposal as the proposal does not create additional rural lots and improves the viability of new proposed Lot 1. On that basis the application is considered to comply with this code.

### **Flood & Storm Tide**

The land isn't affected by storm tide. Realignment of the boundary does not propose any change or impact on the lots in regard to the flood plain overlay which is pre-existing on a small area on both lots.

### **Landscape Values**

This code seems to ensure that development is sensitive to the surrounding areas and is focused on building etc. No buildings are being proposed as part of this application. The application complies with this code.

### **Conclusion**

This letter provides a description of the site, the proposed boundary changes and reasons how the development complies with Council's requirements.

It is understood that the boundary realignment will be acceptable as it results in the increase size of a rural lot while reducing another lot which is not used for rural land uses. Provided no new lots are created in rural areas which do not comply with the minimum lot sizes then adjustment in existing boundaries is acceptable.

if possible and because of contractual arrangements, it would be appreciated if Council could consider this application as soon as possible.

Yours sincerely

C. Norris
