Subject: 18 Oasis Drive Wonga Beach

Good Morning.

I have just viewed the proposed plans for the development of 18 Oasis Drive Wonga Beach (lot 2 on SP259953)

As a Wonga Beach resident and ratepayer, my concern is the footpath/cycle track that connects old and new Wonga would no longer be accessible to the public.

As there is no footpath on the main road, and no safe walking or cycling area connecting the two halves (particularly for children travelling to primary school) I would like to know what council is planning to do for the community to keep the two halves of Wonga Beach accessible to each other ?

Looking forward to your reply

Cheers
