Quote reference CA-2025_5732

Hi councillors,

In relation to a 150 site /worker accommodation site on a flood zone that will affect most of endeavour street

And surrounding residents that cause their places to possibly flood and septic issues I am opposed to this application.

Having upto a 500 person accommodation in a flood zone

Is not acceptable and should be denied

At all costs.

Surrounding residents will have noise issues this type of accommodation should be well out of a flood zone and well away from existing residents.

Any concerns please contact
