Subject: Objection letter for the Reference MCUC 2021_4156/1

Dear Council,

Re: Development permit for material change of use (Air Services - Helicopter pad and pilots accommodation) Application Reference MCUC 2021_4156/1

I attached below the sign I saw allong Captain Cook Higway today. Firstly, the sign is placed in a very idangerous location by the highway **making it dangerous** for drivers to stop, turn around and park at the sign to have a chance to read the notice.

I am appalled that somebody would apply to build a helicopter pad at that location. It is surrounded by pristine wildernes and the awful helicopter noise and activity accompanied with that kind of operation, is making it very unsuitable location. The region already has many helicopter pads and the last thing that is needed is more destruction of nature, more concrete and more awful noise polution to disturb the environment. There is so much going on in the world with the weather, and further destrcution of wilderness is not what we want.

I strongly object to this proposed development.

Development is not correct word for it as it is going backwards in every possible way. There is incredible heritage conservation value to this region and this location, there are delicate envoronmetal environemnts that includre Reef which is close to the shore, the Mangrove forest and the surrounding eucalyptus forrest.

There is also an economic value in the preserved wilderness for tourisma and bushwalking.

Please contact me if you need any additional information.

Yours Sincerely,

Aleksandra Srsa
