Subject: Chioda

I object strongly to any further development in the Douglas Shire by large hospitality organisation's In particularly I am opposed Chioda (spelling). Proposed new development which will contribute nothing to the well being of the community rather the reverse.

Please ensure the applications for any development permit by Chioda is denied.

The Douglas community region does not need more tourism rather more sustainable businesses base on community values rather than low paid transient workers.

I object to my community and the values of the region being used and abused to increase the wealth of a few

Please advise how I can work to stop this unnecessary and objectionable development.

Thank you

Lyndon Ferry
