

# DROP OFF INSTRUCTIONS

1. Shake the used sugarcane fertiliser bag out thoroughly, to ensure bag is empty and does not contain any residual fertiliser.
2. Lay the used cane fertiliser bag out flat on the ground and smooth over to release captured air.
3. Roll the used cane fertiliser bag from top to bottom, ensuring the string ties are at the bottom.
4. Once the used cane fertiliser bag has been rolled up tight from top to bottom, use the available string ties to tie off the rolled up bag.
5. Visit your local FWR Drop Off Point to neatly dispose of the used cane fertiliser bags utilising the infrastructure provided.
